Ancient Astronomy Clive L.N. Ruggles,2005-10-21 An authoritative introduction to the fascinating topic of archaeoastronomy ancient peoples understanding and use of the skies

Ancient Astronomy An Encyclopedia of Cosmologies and Myth draws on archaeological evidence and oral traditions to reveal how prehistoric humans perceived the skies and celestial phenomena With over 200 entries it offers a number of ways to approach ancient astronomy from key examples and case studies worldwide Stonehenge Mexican and Egyptian pyramids Chaco Canyon New Mexico the Nazca lines in Peru to general themes cosmologies calendars ancient ideas of space and time origin myths to fundamental concepts and methods how the sky has changed over the centuries how to survey a site and to the field s most frequently asked questions How did ancient peoples navigate the ocean using the stars How does astrology relate to ancient astronomy Can ancient sites be dated astronomically By revealing the astronomical significance of some of the world s most famous ancient landmarks and enduring myths and by showing how different themes and concepts are connected

Ancient Astronomy An Encyclopedia of Cosmologies and Myth brings a unique authoritative perspective to an area too often left to speculation and sensationalism

The Gods' Machines Wun Chok Bong,2008-05-27 Based on the author s decipherment of prehistoric carvings and the application of mathematical measurements *The Gods Machines* shows how unknown phenomena from Angkor Wat to Stonehenge to crop circles are actually powerhouses built by an advanced extraterrestrial civilization for tapping electromagnetic energy The book traces the development of that civilization on Earth over 5 000 years revealing how all these structures are aligned according to a universal formula an angle of 135 degrees at which Earth s energy has been tapped by the alien creators of these monuments These fascinating theories not only explain our distant past but also open the door to a future of power technology and space travel Megalithic sites such as Newgrange and Stonehenge are constructed with quartz and iron rich stones with electrical conduction properties minerals also found atop Aztec temple and inside crop circles These stones according to the author served as dry cell batteries when heated and stressed and supplied energy to the builders traveling vehicles Most interestingly the author has tested his theory on today s crop circles

The Gods Machines is certain to stimulate debate among readers interested in alternative history ancient civilization and extraterrestrial intelligence

Charles C. Mann,2006-10-10 NATIONAL BESTSELLER A groundbreaking work of science history and archaeology that radically alters our understanding of the Americas before the arrival of Columbus in 1492 from a remarkably engaging writer The New York Times Book Review Contrary to what so many Americans learn in school the pre Columbian Indians were not sparsely settled in a pristine wilderness rather there were huge numbers of Indians who actively molded and influenced the land around them The astonishing Aztec capital of Tenochtitlan had running water and immaculately clean streets and was larger than any contemporary European city Mexican cultures created corn in a specialized breeding process that it has been called man s first feat of genetic engineering Indeed Indians were not living lightly on the land but were landscaping and manipulating their world in ways that we are only now beginning to understand Challenging and surprising this a transformative new look at a rich and fascinating world we only thought we knew Ibss: Anthropology: 1978 International Committee for Social Science Information and Documentation,1990-12-31 First published in 1981 Routledge is an imprint of Taylor Francis an informa company 1491 Charles C. Mann,2005-08-09 A groundbreaking study that radically alters our understanding of the Americas before the arrival of the Europeans in 1492 Traditionally Americans learned in school that the ancestors of the people who inhabited the Western Hemisphere at the time of Columbus s landing had crossed the Bering Strait twelve thousand years ago existed mainly in small nomadic bands and lived so lightly on the land that the Americas was for all practical purposes still a vast wilderness But as Charles C Mann now makes clear archaeologists and anthropologists have spent the last thirty years proving these and many other long held assumptions wrong In a book that startles and persuades Mann reveals how a new generation of researchers equipped with novel scientific techniques came to previously unheard of conclusions Among them In 1491 there were probably more people living in the Americas than in Europe Certain cities such as Tenochtitl n the Aztec capital were far greater in population than any contemporary European city Furthermore Tenochtitl n unlike any capital in Europe at that time had running water beautiful botanical gardens and immaculately clean streets The earliest cities in the Western Hemisphere were thriving before the Egyptians built the great pyramids Pre Columbian Indians in Mexico developed corn by a breeding process so sophisticated that the journal Science recently described it as man s first and perhaps the greatest feat of genetic engineering Amazonian Indians learned how to farm the rain forest without destroying it a process scientists are studying today in the hope of regaining this lost knowledge Native Americans transformed their land so completely that Europeans arrived in a hemisphere already massively landscaped by human beings Mann sheds clarifying light on the methods used to arrive at these new visions of the pre Columbian Americas and how they have affected our understanding of our history and our thinking about the environment His book is an exciting and learned account of scientific inquiry and revelation *The Ancient Alien Question, 10th Anniversary Edition* Philip Coppens,2021-03-01 an important and outstanding contribution Erich von D niken bestselling

author of Chariots of the Gods The Ancient Alien Question provides a captivating adventure around the world and sheds an interesting perspective on the Ancient Astronaut Theory Giorgio A Tsoukalos producer of Ancient Aliens The Series Philip Coppens covers all the bases on this controversial topic His research is thorough and he addresses each topic with a balanced overview that cuts through the jungle of confusion with a very sharp machete of reason David Hatcher Childress author of Technology of the Gods The Ancient Alien Question reveals an array of astonishing truths including A radically different understanding of the pyramids and how they were constructed The extraordinary stories behind monuments such as the Nazca lines and Puma Punku How extraterrestrials came to our planet and the evidence that supports this Analyzing the historical and archaeological evidence Philip Coppens demonstrates that there is substantial proof that our ancestors were far more technologically advanced than currently accepted and that certain cultures interacted with nonhuman intelligences Our ancestors were clearly not alone Fifty years after Erich von D niken posed these questions in Chariots of the Gods Coppens provides clear concise answers to the great historical enigmas in an accessible readable format Your view of human history will never be the same again

Catastrophe David Keys,2000-10-02 It was a catastrophe without precedent in recorded history for months on end starting in A D 535 a strange dusky haze robbed much of the earth of normal sunlight Crops failed in Asia and the Middle East as global weather patterns radically altered Bubonic plague exploding out of Africa wiped out entire populations in Europe Flood and drought brought ancient cultures to the brink of collapse In a matter of decades the old order died and a new world essentially the modern world as we know it today began to emerge In this fascinating groundbreaking totally accessible book archaeological journalist David Keys dramatically reconstructs the global chain of revolutions that began in the catastrophe of A D 535 then offers a definitive explanation of how and why this cataclysm occurred on that momentous day centuries ago The Roman Empire the greatest power in Europe and the Middle East for centuries lost half its territory in the century following the catastrophe During the exact same period the ancient southern Chinese state weakened by economic turmoil succumbed to invaders from the north and a single unified China was born Meanwhile as restless tribes swept down from the central Asian steppes a new religion known as Islam spread through the Middle East As Keys demonstrates with compelling originality and authoritative research these were not isolated upheavals but linked events arising from the same cause and rippling around the world like an enormous tidal wave Keys s narrative circles the globe as he identifies the eerie fallout from the months of darkness unprecedented drought in Central America a strange yellow dust drifting like snow over eastern Asia prolonged famine and the hideous pandemic of the bubonic plague With a superb command of ancient literatures and historical records Keys makes hitherto unrecognized connections between the wasteland that overspread the British countryside and the fall of the great pyramid building Teotihuacan civilization in Mexico between a little known Jewish empire in Eastern Europe and the rise of the Japanese nation state between storms in France and pestilence in Ireland In the book s final chapters Keys delves into the mystery at

the heart of this global catastrophe Why did it happen The answer at once surprising and definitive holds chilling implications for our own precarious geopolitical future Wide ranging in its scholarship written with flair and passion filled with original insights Catastrophe is a superb synthesis of history science and cultural interpretation **Approaching Chaos** Lucy Wyatt,2010-01-16 Twenty first century civilization faces economic ecological and spiritual meltdown To survive this century as civilized people we need to refer back to a time when city life was in harmony with nature and the wider environment We cannot dismiss the ancients as primitive when they had a blueprint for civilization that first appeared over 5 000 years ago Perhaps we should look at the ancient past for solutions **UFO...Contact from the Pleiades (45th Anniversary Edition)** Brit Elders, Lee Elders,2024-04-23 In this forty fifth anniversary edition a humble one armed Swiss farmer named Billy Meier documents his date with destiny with hundreds of photos videos and written conversations with extraterrestrial visitors from the Pleiades star cluster UFO Contact from the Pleiades offers the inside story of one of the most remarkable and convincing extraterrestrial encounters ever reported For the first time forty five years after their original publication the two photo journal volumes of UFO Contact from the Pleiades are combined in one book for a modern audience with a new foreword written by Shirley MacLaine a prologue written by Mexican UFOlogist Jamie Maussan and a new introduction and preface written by Brit Elders This photo journal presents the unique contact case of a Swiss farmer Billy Meier who claims to have met with the Pleiadians hundreds of times compiling many layers of evidence including notes on their conversations hundreds of photographs movie footage audio recordings of the craft landing tracks of the spaceships dozens of witnesses and even metal samples of the craft itself The quality and amount of evidence was convincing making this unlike any case previously seen UFO Contact from the Pleiades takes the reader back to a time before home computers digital photography and easily accessible photo enhancement programs Yet the evidence analyzed in laboratories around the world could not be easily dismissed and supported the claims of the contactee Billy Meier The breathtaking images profound words of the Pleiadians and the extensive investigation that spanned seven years are as relevant today as they were forty five years ago The Lost Civilization Enigma Philip Coppens,2012-10-22 An examination of archaeological controversies with arguments showing evidence of prehistoric civilizations not recorded as part of human history Are history books giving us the whole story Or is civilization far more complex and older than we have been taught Our school textbooks barely mention the 6 000 year old Sumerian civilization yet the latest archaeological findings at sites such as Jericho and most recently Gobekli Tepe in Turkey have been dated to 10 000 BC Civilization goes back at least another 10 000 years if we are willing to believe what our ancestors themselves claimed The Lost Civilization Enigma reveals the truth about Lost magnitudes to known cultures such as the Bosnian Pyramids and the civilization of Old Europe The fabled lost golden cities of South America and the Amazon which are slowly being rediscovered Fascinating examples of lost technology such as the Antikythera Device Atlantis and the fact that it was a real civilization Analyzing the historical and archaeological record best selling author Philip

Coppens demonstrates that there is substantial evidence that civilization is far older far more advanced and far more special than is currently accepted Clearly our history books have left out a great deal **Dictionary of Nature Myths** Tamra Andrews,2000 Comprehensive and cross referenced this informative volume is a rich introduction to the world of nature as experienced by ancient peoples around the globe 51 halftones *Art and Architecture of the World's Religions* Leslie D. Ross,2009-06-04 Two abundantly illustrated volumes offer a vibrant discussion of how the divine is and has been represented in art and architecture the world over Beginning with the ancient worlds of Mesopotamia Egypt Greece and Rome and moving forward through time *Art and Architecture of the World s Religions* explores the major faiths from countries and continents around the globe helping readers better understand the creations their beliefs have inspired After tracing the history and development of a religion the book provides a general overview of its principal beliefs and key practices It then offers specific examples of how works of art architecture reflect that religion s values The focus of each chapter is on the temples churches and religious buildings statues paintings and other works of art and architecture created by believers Each representative work of art or architecture is examined in terms of its history materials symbols colors and patterns as its significance is explained to the reader With extensive illustrations these volumes are the definitive reference work on art and architecture of the world s religions **Ancient Aliens** Philip Coppens,2014-12-15 Ancient civilizations generated many innovations that are difficult to explain such as the remarkable mathematical accuracy of the pyramids of Giza the man made fertile soil of the Amazon known as terra preta and massive stone monuments too heavy to move in Peru and Lebanon among other places Given that modern science cannot explain these mysterious phenomena one theory holds that ancient aliens were responsible for them This volume examines the credibility of various paranormal hypotheses giving readers the opportunity to explore the greatest puzzles of antiquity
