Patriarchy As A Conceptual Trap:

Patriarchy as a Conceptual Trap Elizabeth Dodson Gray, 1982 The Horned God (RLE Feminist Theory) John Rowan, 2012-11-27 This original and pioneering study of how men relate to feminism will appeal to all men who are concerned about their response to the women s movement and to the women in their lives It will also be helpful for women seeking a constructive response from men John Rowan drawing on his personal journey through feminism and on his considerable experience as a therapist tackles the issues in a much deeper way than has been attempted before For men to discover feminism is wounding for them It can even make them despair about being men at all But unless they accept that wound nothing much will change John Rowan shows that men have to heal that wound at a conscious social political level changing laws practice and daily behaviour They have to heal it at an unconscious level through therapy exploring their profound feelings about their mothers their fathers and their own internal female nature. They also have to heal the wound at a spiritual transpersonal level exploring the world of the Goddess and the Horned God Only then says John Rowan can they start to have any real dialogue with women and only then can the world begin to change for both men and women Survey Annual 1983 Michael Marien, 1984-01-01 **The Goddess Re-Awakening**, 2014-08-22 This anthology with essays by Riane Eisler June Singer and others considers Goddess myths current psychological perspectives and the feminine principle in spirituality today It offers a worldview that integrates intuition intellect and feeling Feminism, Violence and Nonviolence Selina Gallo-Cruz, 2024-05-31 What can nonviolence offer to feminists working to end violence against women Can nonviolence be used by women to protect themselves from street and work harassment from partner battering date rape and sexual assault What are the connections between war and sexism and how should nonviolent activists address them How should feminists confront the structural violence of racism xenophobia colonialism land displacement and environmental destruction Feminism Violence and Nonviolence features a carefully curated selection of seminal texts originally published from the 1970s to the 2000s which document dynamic feminist thinking on the root causes of violence the social forces inculcating violence into patriarchal institutions and relationships and the many insights that nonviolence can gain from a feminist perspective This collection of essays articles pamphlets flyers and excerpts from books of feminist thought brings together the voices of the women and men who helped to transform movement consciousness on issues of sexism racism colonialism and a broader array of otherisms expanding and diversifying nonviolent philosophy With a sociological and historical introduction to the movement and author and organisational biographies this is an essential resource for students of gendered and sexualised peace violence and justice Reformed and Feminist Johanna W. H. Van Wijk-Bos, 1991-01-01 Explores the nature and function of Biblical authority in Christian feminism Drawing on her personal experiences of an early childhood spent in the Nazi occupied Netherlands and an adolescence in a faith community with a strong Calvinist cast the author illustrates the ways in which Biblical authority undergirds and expands feminist perspectives

back cover **Beyond Patching** Sandra Marie Schneiders,2004 Asserts that the current half hearted attempts to patch up the excruciating tensions due to the sometimes morally unacceptable way women are treated in the Catholic Church must be replaced with a whole hearted renewal or the Church stands in danger of losing touch with many of its women Reissue

The Rights of Nature Roderick Frazier Nash, 1989-01-17 Charting the history of contemporary philosophical and religious beliefs regarding nature Roderick Nash focuses primarily on changing attitudes toward nature in the United States His work is the first comprehensive history of the concept that nature has rights and that American liberalism has in effect been extended to the nonhuman world A splendid book Roderick Nash has written another classic This exploration of a new dimension in environmental ethics is both illuminating and overdue Stewart Udall His account makes history come alive Sierra So smoothly written that one almost does not notice the breadth of scholarship that went into this original and important work of environmental history Philip Shabecoff New York Times Book Review Clarifying and challenging this is an essential text for deep ecologists and ecophilosophers Stephanie Mills Utne Reader Mother / Nature Catherine M. Roach, 2003-01-30 This brief but ambitious book explores our relationship with nature through the imagery we use when we talk about Mother Nature Employing the critical tools of religious studies psychology and gender studies Catherine M Roach examines the various manifestations of nature as mother and what that idea implies for the way we approach the natural world Part One Nature as Good Mother discusses the notion that nature is or is like a beneficent and nurturing mother who provides and maintains life In studying the green slogan Love Your Mother Roach questions the effects for women and for the environment of imputing female gender to nature She asks us to look at the associations that motherhood and mothering carry within a culture still shaped by patriarchy She notes the danger of such an apparently pro environmental slogan if mother evokes the bountiful self sacrificing provider who herself requires no care Part Two Nature as Bad Mother looks at the contrary notion of nature as a violent threatening and wrathful mother This image arises most often when humans and technology are depicted as masters of unruly nature Here Roach draws on theological reflection to analyze this ambivalence toward nature manifested in a fantasy that casts humans as gods She explores the contributions of eco theology and eco psychology to a heart of darkness perspective Finally Part Three Nature as Hurt Mother looks at possibilities and pitfalls of environmental healing inherent in the image of nature as a mother we have wounded and now seek to heal Separatism and Women's Community Dana R. Shugar, 1995-01-01 This is the kind of book I ve been looking for Bonnie Zimmerman author of The Safe Sea of Women Lesbian Fiction 1969 1989 The energy spent on all sides of debates about women s separatism demonstrates the vitality of separatism as an important issue Excited by the prospect that changes in their personal lives could reverberate through the nation many women have organized rural communes and urban business collectives putting ideas into practice Separatism and Women's Community reviews debates in separatist theory historical narratives by members of separatist collectives and utopian novels that envision how collectives might be formed Shugar

compares the ideas and proposals of theorists including Robin Morgan Shulamith Firestone Joyce Cheney Joan Nestle Ti Grace Atkinson and the Radicalesbians with the experience of women from collectives as diverse as Cell 16 the Combahee River Collective the Gutter Dyke Collective the Seattle Collective the Bloodroot Collective and the Lavender Woman Collective of Chicago Despite the attempts to connect action and thought many women were ill prepared for the problems they found in collective life Women who theorized that oppression based on difference was a man made phenomenon were confronted by other women who challenged their racism classism or homophobia The community had to respond to these confrontations in ways that would strengthen rather than destroy their tentative connections with other women Dana R Shugar is an assistant professor of English and women's studies at the University of Rhode Island Gender, Livelihoods and Migration in Africa Justina Dugbazah, 2012-01-12 This book presents an in depth discussion within diverse contexts and a range of conceptual and methodological offerings which interrogate not only issues concerning the migration discourse but of gender theory and practice as well It explores the gendered patterns of migration including how gender impacts on decisions to migrate in terms of who goes and why Furthermore it examines how this affects the benefits and risks of migration for women and men including impact on gender relations. The books empirical analysis is expertly crafted and executed and the author shows an impressive state of the art qualitative research analysis This book provides an invaluable up to date and refreshing discussion of key development issues in sub Saharan Africa The book will be of particular interest to those working in disciplines and interdisciplinary fields such as development studies agricultural studies rural development migration studies gender studies African studies anthropology political science political economy social work economics geography and sociology The Carol J. Adams Reader Carol J. Adams, 2016-10-06 The Carol J Adams Reader gathers together Adams s foundational and recent articles in the fields of critical studies animal studies media studies vegan studies ecofeminism and feminism as well as relevant interviews and conversations in which Adams identifies key concepts and new developments in her decades long work This volume a companion to The Sexual Politics of Meat Bloomsbury Revelations offers insight into a variety of urgent issues for our contemporary world Why do batterers harm animals What is the relationship between genocide and attitudes toward other animals How do activism and theory feed each other How do race gender and species categories interact in strengthening oppressive attitudes In clear language Adams identifies the often hidden aspects of cultural presumptions The essays and conversations found here capture the decades long energy and vision that continue to shape new ways of thinking about and responding to oppression (Post)Critical Methodologies: The Science Possible After the Critiques Patti Lather, 2017-02-03 In the World Library of Educationalists series international experts themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands and see how their work contributes to the

development of the field Post Critical Methodologies forms a chronology through the texts and concepts that span Patti Lather's career Examining post critical feminist and poststructural theories Lather's work is organized into thematic sections that span her 35 years of study in this field These sections include original contributions formed from Lather's feminism and critical theory background They contain her most cited works on feminist research and pedagogy and form a collection of both early and recent writings on the post and post post with a focus on critical policy studies and the future of post qualitative work With a focus on the implications for qualitative inquiry given the call for scientifically based research in education this compelling overview moves through Lather's progressive thoughts on bridging the gap between quantitative and qualitative research in education and provides a unique commentary on some of the most important issues in higher education over the last 30 years This compilation of Lather's contribution to educational thinking will prove compelling reading to all those engaged in student learning in higher education worldwide **Ethics and Environmental Policy** Frederick Ferré, Peter Hartel, 1994 In this collection of essays leading environmentalists and philosophers explore the relationship between environmental ethics and policy both in theory and practice. The first section of the book focuses on four approaches to change in ethical theory ecological science feminist metaphysics Chinese philosophy and holistic postmodern technology In subsequent sections the contributors emphasize the need for nontraditional solutions and attempt to expand awareness of the most pressing practical problems Among the topics discussed are the possibilities of real international cooperation the inequitable but economically intractable issue of global gasses the political and ethical challenges of city planning and the growing evidence of fundamental inappropriateness in treating land as legal private property This volume is based on essays presented in 1992 at the Second International Conference on Ethics and Environmental Policy The conference was held in response to the increasing need for a new ethics that would counter the traditional human centered dominantly individualistic approach of the industrial world toward the environment *Psychoanalytic and Socio-Cultural* Perspectives on Women in India Paula Ellman, Jhuma Basak, Gertraud Schlessinger-Kipp, 2021-07-08 This important book provides a bridge between psychoanalytic perspectives and socio cultural issues to shine a spotlight on the experiences of women in India today Women s well being and security has often depended upon their gender positioning while other binaries like rural urban class and caste have also played a crucial role globally and especially in India Historically women have been subjected to various forms of oppression that include sex selective abortions domestic violence bride burning for dowry and acid attacks Threats to women s security have recently increased with progressive polarization and hardening of socio political and cultural ideologies This book assesses how women s lives are impacted by these social and cultural conventions and stigma including ideas around motherhood religion intimacy and femininity itself and the psychological implications these have Topics include the seduction of religion motherhood in contemporary times intimacy and violence and fundamentalist states of mind in the clinical space While the book echoes a regional specificity it simultaneously

resonates a backdrop of global change of affairs that has its impact on ideological freedom and the concept of inclusivity in terms of gender race culture and politics across the world For this comprehensive perspective the effort is to create a platform of authors comprising psychoanalysts social scientists scholars from the liberal arts discipline as well as social activists In a country where women have been historically subjected to both psychological and physical oppression this timely and original book will interest a range of scholars interested in gender mental health and contemporary Indian society as Green Frontiers, 2008-01-01 Environmental education has reached an interesting well as clinicians in the field crossroads There has never before been such media attention on hard to grasp issues such as climate change nor has there ever been such scientific understanding and agreement about the varied aspects of the environmental crisis the loss of biodiversity and the health effects of human made toxins and pollutants In addition there has never been so much high quality research within environmental education with new journals flourishing in Canada Australia and South Africa to give just a few examples Yet despite all this knowledge and attention there has not been a significant shift in the way the economy operates the way governments govern or the way people live Consumption of resources continues to increase and these patterns continue to be closely correlated with levels of waste pollution environmental ill health and social injustice This book showcases the work and thinking of environmental educators who are concerned about the residual mechanism within their field the guiding symbol of the web of life in all its dynamism notwithstanding The notion of web recognizes interaction between all elements in a system but falls short of recognizing the flow of the whole through the system and its parts The notion of dance is used here to convey this fundamental yet oft overlooked dimension to wholeness Critical Thinking and the Bible in the Age of New Media Charles Ess, 2004 Contemporary scholarship to address the question What does critical thinking about the Bible mean as the Bible itself is transmediated from print to electronic formats Routledge Library Editions: Feminist Theory Various, 2021-08-07 Routledge Library Editions Feminist Theory brings together as one set or individual volumes a series of previously out of print classics from a variety of academic imprints With titles ranging from The Liberation of Women to Feminists and State Welfare from Married to the Job to Julia Kristeva this set provides in one place a wealth of important reference sources from the diverse field of gender studies The Horned God John Rowan, 2012-10-11 This book investigates how men relate to feminism the women's movement and to the women in their lives

WomanProphet Elizabeth Love,2019-04-30 Most women are raised in a context of feminine values whether they are aware of those values or not Some of the values specific to this feminine culture are interdependence caring and relationality. In our time many women cross over into a masculine value culture when they take on what were traditional male roles in male evolved institutions Eventually women become aware that their own values conflict with some assumed male values. They then have to compromise and adjust in order to be productive in those environments. The women I have focused on in this study have because of a significant external event or events and an emerging inner vision left both structures. They then

however lack others around them whose values structures can reinforce adherence When these women are by themselves they experience something like a dark night of the soul Once they get beyond the pain and a sense of meaninglessness they begin to realize that they can move the constructs of reality that they can write history as well as read it An essential concern is to deter mine what their values are After this process their own personal vision becomes clear But the cycle isn t complete until they bring that new vision back to their people And bringing it back in a holistic sense helps to raise the moral sights of others who are influenced by that experience
