Patrick White Australian Writers And Their Work 4th Edition:

Patrick White's Fiction Carolyn Bliss, 1986-08-18 This study examines all eleven novels of Patrick White the great Australian writer and Nobel Prize winner It begins from the observation that major characters in his novels undergo a necessary redemptive or facilitating failure This failure paradoxically enables their success within the context of what White has called the overreaching grandeur which circumscribes human existence Evolution of this theme is traced through forty years of White's fiction from his first novel Happy Valley 1939 to his most recent work The Twyborn Affair 1979

Comprehensive in its scope this book is informed by a thorough knowledge of White's poetry plays short stories and autobiography as well as his novels It is also unique in stressing that White's world view derives from a distinctly Australian experience It thus links him to a country in which he is deeply rooted and to a heritage he continued to affirm

Patrick White. (Fourth edition, revised and enlarged.). Geoffrey Dutton, Patrick White, 1971

Dissociation and Wholeness in Patrick White's Fiction Laurence Steven, 1989-08-23 Most studies of Patrick White's fiction are devoted to elucidating archetypal patterns symbolic configurations and thematic preoccupations and generally to praising the way White's fictional elements combine to form a religio mystical worldview Few have questioned this critical approach to White fewer still have questioned White's vision itself Yet according to the author questioning is in order for Patrick White is a man divided One part of him strives for permanence for the ideal in a world he knows is contingent and temporal a world that will undermine his striving This leads him as a novelist to devalue human life and to impose arbitrary symbolic resolutions on his novels This has been the focus of most critics But there is another side a part of White that strains away from the dualism of idealism versus despair and towards a vital wholeness that can be found not in a world beyond the one we live in but in human relationships It is this side of Patrick White argues Laurence Steven that is the source of his genuine power as a novelist An important challenge for the critic is to develop an ability to see within the restrictive compass White's symbolic designs impose on the novels the new shoots as D H Lawrence would have it which indicate new life new creativity and which point towards a wholeness which human beings can embrace as their own Introduction

German Images in Australian Literature from the 1940s to the 1980s Irmtraud Petersson, 1990 This cross cultural study examines German Australian relations by tracing patterns of representation in Australian writing The imagological approach enables comparisons to be made among a wide range of texts and of authors as diverse as Martin Boyd Dymphna Cusack Thomas Keneally David Martin E O Schlunke Patrick White The most common German images and stereotypes found are those associated with rural environment and romantic imagination on the one hand and with savagery and barbarity represented by Nazism on the other The significance of such images often links up
