Patriots And Profiteers On Economic Warfare Embargo Busting And State Sponsored Crime:

Patriots and Profiteers R.T. Naylor, 2008-10-16 R T Naylor demonstrates that economic warfare fails almost everywhere it is attempted and that even when it succeeds it has consequences that are not only unintended but also frequently the precise opposite of their advertised result

Satanic Purses R.T. Naylor, 2006-08-03 In a savage critique R T Naylor investigates the American government's understanding of and response to 9 11 exposing the official story and the resulting global War on Islamic Terror as based on myth and misinformation Satanic Purses examines how misguided notions about the structure and financing of terrorist groups have diverted attention from more useful measures and perpetuated the War on Terror

Blue Helmets and Black Markets Peter Andreas, 2011-08-15 The 1992 1995 battle for Sarajevo was the longest siege in modern history It was also the most internationalized attracting a vast contingent of aid workers UN soldiers journalists smugglers and embargo busters The city took center stage under an intense global media spotlight becoming the most visible face of post Cold War conflict and humanitarian intervention However some critical activities took place backstage away from the cameras including extensive clandestine trading across the siege lines theft and diversion of aid and complicity in the black market by peacekeeping forces In Blue Helmets and Black Markets Peter Andreas traces the interaction between these formal front stage and informal backstage activities arguing that this created and sustained a criminalized war economy and prolonged the conflict in a manner that served various interests on all sides Although the vast majority of Sarajevans struggled for daily survival and lived in a state of terror the siege was highly rewarding for some key local and international players This situation also left a powerful legacy for postwar reconstruction new elites emerged via war profiteering and an illicit economy flourished partly based on the smuggling networks built up during wartime Andreas shows how and why the internationalization of the siege changed the repertoires of siege craft and siege defenses and altered the strategic calculations of both the besiegers and the besieged The Sarajevo experience dramatically illustrates that just as changes in weapons technologies transformed siege warfare through the ages so too has the arrival of CNN NGOs satellite phones UN peacekeepers and aid convoys Drawing on interviews reportage diaries memoirs and other sources Andreas documents the business of survival in wartime Sarajevo and the limits contradictions and unintended consequences of international intervention Concluding with a comparison of the battle for Sarajevo with the sieges of Leningrad Grozny and Srebrenica and more recently Falluja Blue Helmets and Black Markets is a major contribution to our understanding of contemporary urban warfare war economies and the political repercussions of humanitarian action

Oil and Sovereignty Rüdiger Graf, 2025-11-01 In the decades that followed World War II cheap and plentiful oil helped to fuel rapid economic growth ensure political stability and reinforce the legitimacy of liberal democracies Yet waves of price increases and the use of the so called oil weapon by a group of Arab oil producing countries in the early 1970s demonstrated the West's dependence on this vital resource and its vulnerability to economic volatility and political conflicts Oil and Sovereignty

analyzes the national and international strategies that American and European governments formulated to restructure the world of oil and deal with the era's disruptions. It shows how a variety of different actors combined diplomacy, knowledge creation, economic restructuring, and public relations in their attempts to impose stability and reassert national sovereignty.

Suppression Of Terrorist Financing Hamed Tofangnaz, 2020-07-02 In the last few decades there has been a considerable effort mainly from Western liberal countries to create, develop and diffuse into domestic laws an internationally harmonized counter terrorist financing regime through international treaties, recommendations and resolutions. This book aims to explore the penal criminalization and confiscation measures of the regime. Belonging to the category of analytical research, the book explores the nature of terrorist financing and critically and extensively examines how it has been conceptualized and criminalized. The book argues that the application of these penal measures results in over criminalization due to the vague conceptualization of the concept of terrorist financing and due to its incompatibility with basic notions of criminalization and fundamental principles of the criminal law of many countries, specifically Anglo American law. Examining a number of ASEAN countries' law on terrorist financing, the book then shows how these controversial measures have been crept into their law, resulting in the violation of human rights and democratic values which Western countries seek to promote.

Paramilitarism Uğur Ümit Üngör, 2020 From the deserts of Sudan to the jungles of Colombia, from the streets of Belfast to the mountains of Kurdistan, paramilitaries have appeared in violent conflicts. Ungor presents a comparative and global overview of paramilitarism, showing how states use it to successfully outsource mass political violence against civilians.

Blood Money Margaret Sankey, 2022-10-15 It is convenient to think that bad guys are drumming up money for their activities far away and in shady back alleys, but the violent non-state actors (VNSAs) of the world are hiding in plain sight. They peddle knockoff sneakers, pass the hat at ethnic festivals, take a cut of untaxed booze sales, swindle senior citizens with bogus phone calls about needing bail in Mexico, and run money through mainstream banks to buy up rental properties, just to name a few. On a grand scale, their behavior erodes the rule of law, creates moral injuries from corruption, and emboldens bad actors to steal and back violent tactics with impunity. *Blood Money* analyzes the ways in which VNSAs find money for their operations and sustenance: from controlling a valuable commodity to harnessing the grievances of a networked diaspora, and it looks at the channels through which they can flip the positives of globalization into flat, fast and frictionless movement of people, funds and materials needed to terrorize and coerce their opponents. Author Margaret Sankey highlights the mundane and everyday nature of these tactics occurring under our noses, online in legitimate marketplaces and with the aegis of intelligence services and national governments. While reforms attempt to curtail these options, their utility and efficacy as tools of finance have proved inadequate for sovereign states. VNSAs' defiance of rules and their capable adaptation and innovation make them extremely difficult to pin down or prosecute. Many security publications stress legislation and enforcement or frame illicit finance as a military or police problem. With *Blood Money*, Sankey points out the many ways VNSAs evade law enforcement.

and she offers options for involving consumers and activists in exercising agency and choices in how they apply their money and where it goes Blood Money also provides context for whole of government approaches to attacking underlying supports for illicit financing channels How these groups finance themselves is key to understanding how they function and what actions might be taken to derail their plans or dismantle their structure **Principled Engagement** Morten B.

Pedersen,David Kinley,2016-04-08 What is the best way to promote human rights in grossly repressive states when neither sanctions nor trade and investment have much effect This book examines the concept of Principled Engagement as an often overlooked alternative strategy for alleviating human rights violations and improving the framework of human rights protection Beginning with an explanation of the concept and a comparison with the alternatives of Ostracism and Business as Usual the book argues that Principled Engagement deserves greater attention and explains how it works and what factors contribute to its success or failure Case studies provide a rare scholarly inquiry into the effectiveness of the basic underlying ideas and analyse and assess specific cases including from China Burma Zimbabwe and Liberia Written by leading academics and practitioners the book takes a general comparative approach to human rights policy that teases out broad lessons about what works Ultimately this is a study that challenges scholars and practitioners alike to take a fresh look at how human rights are promoted internationally Blood on the Stone Ian Smillie,2010 Blood on the Stone is a gripping account of the

cartel warlords gun runners and shadowy traders who populated Africa s bloody diamond wars and the faltering decade long effort to clean up an entire industry **Smart Sanctions** David Cortright,George A. Lopez,2002 Smart Sanctions explores the emerging concept of targeted sanctions and provides a comprehensive framework for new sanctions strategies for the 21st century It includes essays by experts and analysts from the United Nations community the European Union the United States Government and the academic community Visit our website for sample chapters **Dark Commerce** Louise I.

Shelley,2018-11-13 A comprehensive look at the world of illicit trade Though mankind has traded tangible goods for millennia recent technology has changed the fundamentals of trade in both legitimate and illegal economies In the past three decades the most advanced forms of illicit trade have broken with all historical precedents and as Dark Commerce shows now operate as if on steroids tied to computers and social media In this new world of illicit commerce which benefits states and diverse participants trade is impersonal and anonymized and vast profits are made in short periods with limited accountability to sellers intermediaries and purchasers Louise Shelley examines how new technology communications and globalization fuel the exponential growth of dangerous forms of illegal trade the markets for narcotics and child pornography online the escalation of sex trafficking through web advertisements and the sale of endangered species for which revenues total in the hundreds of millions of dollars The illicit economy exacerbates many of the world s destabilizing phenomena the perpetuation of conflicts the proliferation of arms and weapons of mass destruction and environmental degradation and extinction Shelley explores illicit trade in tangible goods drugs human beings arms wildlife and timber fish antiquities and

ubiquitous counterfeits and contrasts this with the damaging trade in cyberspace where intangible commodities cost consumers and organizations billions as they lose identities bank accounts access to computer data and intellectual property Demonstrating that illicit trade is a business the global community cannot afford to ignore and must work together to address Dark Commerce considers diverse ways of responding to this increasing challenge

Transnational Crime and Policing James Sheptycki,2017-07-05 This collection of essays on transnational crime and policing covers a broad range of themes the relationship between global policing and the transnational state system the impact of advanced technologies on policing practice the changing morphology of occupational policing subculture and the transnational practices of police agencies The essays include case studies and are based on empirical fieldwork that began in the early 1990s and continued for over a decade well into the post 9 11 period This collection also provides valuable accounts of the secret social world of transnational police demonstrates that the developmental trajectory of transnational practices was already established prior to the age of Homeland Security and addresses the controversial issue of how transnational policing in all of its complex manifestations might be made politically accountable in the interests of the general global commonwealth

Bosnian Security after Dayton Michael A. Innes,2006-09-27 Featuring fresh contributions from leading scholars this new volume considers a varied range of post war post Dayton and post 9 11 problems and issues reminding readers that Dayton is not the only challenge to the safety stability and long term viability of the post war Bosnian state Drawing together all the latest research this book covers new ground in its discussion of post 9 11 security concerns and in its leading edge analyses of crime corruption and terror in a transitional state It takes Bosnia Herzegovina seriously as a subject of regional and international affairs and is a critically important contribution to scholarship showing how redefined global security concerns have heavily altered international and domestic security priorities in Bosnia Herzegovina with corresponding implications for post war justice and identity politics foreign intervention and state level institution building This is essential reading for scholars of the Balkans peacebuilding and reconstruction European politics and of security studies in general

Issues in Transnational Policing James Sheptycki,2002-01-04 Globalisation the wired planet the global village these are a few of the terms associated with the social and political changes that are said to describe the world at the beginning of the new millennium One of the most important institutions of the social ordering has been that of policing but very little has been written on how the practices of social control are affected by the processes of transnationalisation This book brings together

contributions by experts on policing that focus on some of the newly emergent policing issues connected with these changes the global private security industry cross national networking between police the establishment of an international criminal court money laundering policing cyberspace the drug war Issues in Transnational Policing crosses the boundaries between criminology international relations and international law to provide a thought provoking picture of the complex issues surrounding the politics of policing in the future

Forging Transnational Belonging through Informal Trade Sandra King-Savic, 2021-04-08 Analyzing informal trading practices and smuggling through the case study of Novi Pazar this book explores how societies cope when governments no longer assume the responsibility for providing welfare to their citizens How do economic transnational practices shape one's sense of belonging in times of crisis precarity Specifically how does the collapse of the Ottoman Empire and the subsequent migration of the Muslim Slav population to Turkey relate to the Yugoslav Succession Wars during the 1990s Using the case study of Novi Pazar a town in Serbia that straddles the borders of Montenegro Serbia and Kosovo that became a smuggling hub during the Yugoslav conflict the book focuses on that informal market economy as a prism through which to analyze the strengthening of existing relations between the migr community in Turkey and the local Bosniak population in the Sand ak region Demonstrating the interactive nature of relations between the state and local and migr communities this book will be of interest to scholars and students interested in Southeastern Europe or the Yugoslav Succession Wars of the 1990s as well as social anthropologists who are working on social relations and deviant behavior
