A Philosophy of War Alexander Moseley,2002 War s origins are complex they are found in the nebulous systems of thoughts generated in cultures over time But while reason and explication can unravel those origins and explain why man wages war the task of abolishing war can never be completed by reason alone The unfolding philosophy of war is much more complex than asserting that man is free to choose war and therefore he is free to not choose war We need to explore the causal relationships between his nature and his thinking and in doing so we need to explore the realms of ideas that motivate and restrain him The author presents a unique interdisciplinary framework for understanding war s nature and causation examining biological and anthropological theories as well as relating traditional philosophical positions to war from Plato to Sartre Christianity to Marxism This book is distinctive in producing a coherent theory of war that goes beyond the usual analyses and explanations generated in academic sub disciplines The range of philosophical analysis is broad and where appropriate the author applies his philosophical outline to particular conflicts such as the Vietnam War and the Thirty Years War DR ALEXANDER MOSELEY is a political philosophy editor for the IEP Internet Encyclopedia of Philosophy and is affiliated with the Mises Institute the Cato Institute the Institute for Humane Studies and with the US Society for Philosophy in a Contemporary World He has lectured on the philosophy and morality of war at several British universities including the London School of Economics Currently he teaches Economics in the UK and is preparing a second volume to A Philosophy of War for publication in Fall 2002 to be followed by Great Philosophers On War

Study On International Politics In Contemporary China Yuyan Zhang,2020-07-14 China s guiding principle for foreign relations and its focus on states and regions has shifted a lot from the first 30 years of the founding of the People s Republic of China PRC in 1949 to 1978 and beyond after reform and opening up However PRC s diplomatic practice has been continuous whether it was participation in the Korean War breaking up with the former Soviet Union after a honeymoon period China s

self defense war over Sino Indian border participation in the Vietnam War breakthrough in the Sino US relation or PRC's self defense war over the Sino Vietnamese border These historical events brought the need for theoretical study in International Politics IP The development of China's IP research was slow and filled with complications but it signified a breakthrough from scratch This book has filled gap by depicting a complete scroll of China's IP research in over 60 years since 1949 This book has followed two principles one is according to the classification of the IP discipline and the other is to recommend adaptations according to China's actual conditions

Our War Too Margaret Paton-Walsh, 2002 In the late 1930s a number of American women especially those allied with various peace and isolationist groups protested against the nation's entry into World War II While their story is fairly well known Margaret Paton Walsh reveals a far less familiar story of women who fervently felt that American intervention was absolutely necessary Paton Walsh recounts how the United States became involved in the war but does so through the eyes of American women who faced it as a necessary evil Covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women's organizations informal women's networks and even male dominated lobbying groups In the Great Debate over whether America should enter the war some women favored aid to the Allies not because they hoped for war but because they hoped aid would forestall more direct U S involvement but also because they believed war was preferable to a Nazi victory Paton Walsh shows that this activism involved some of the most prominent women of their day Elizabeth Cutter Morrow whose son in law Charles Lindbergh was an isolationist spokesman supported the revision of the Neutrality Acts to allow the sale of arms to the Allies and expressed her support in a national radio broadcast Soon other women joined this debate Esther Brunauer of the AAUW journalist Dorothy Thompson and organizations like the League of Women Voters and National Women's Trade Union League broke from the pacifist tradition to advocate American aid for the Allied cause Focusing on the conflict in Europe Paton Walsh shows how these women grasped the implications of the Lend Lease program for America's entry into the war but supported it nevertheless By late 1941 the Women's Division of the Fight for Freedom Committee had been established no longer merely advocating aid to Britain to keep American boys out of battle this organization supported direct American involvement in the war as a means of stopping Nazi oppression While most historians have focused on women's pacifism Paton Walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs Our War Too is a story of American women trying to reconcile the irreconcilable to preserve both their principles and their peace It expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on American public opinion over the build up to the war
