Berry, 2006-10-02 The origin basic texts central affirmations and life policy proposals of the Christian tradition are more ambiguous than either Christianity's critics or advocates often acknowledge Through a Glass Darkly considers how one might grant authority to the biblical texts without That They May be Many Ann Kirkus Wetherilt, 2016-10-06 The relationship of The Word to notions of unity and oneness has often served as a tool of tyranny and oppression in Christian history Static authoritarian religious institutions have formed and developed the central tenets of their faith excluding from participation the voices of those who do not mirror the reality of the power brokers overwhelmingly white Western heterosexual and male Yet other voices have continually emerged in multiple locations to challenge the hegemony of The Word and to claim authority and agency in the struggle for basic rights and justice Some of these voices are explicitly religious others not All challenge the adequacy of a unilateral Word to embody the dynamic and all encompassing movement of the sacred in the world This book suggests that a metaphor of voices provides possibility for the intercourse of many diverse expressions of holy power in the world without insisting upon either a primal or an ultimate oneness The implications of this shift are many The sources where such revelations of the divine appear are broadened to include many texts not traditionally seen as theological Conceptions of community are revolutionized to include not only groupings of like minded individuals coming together for support and nourishment but also coalitions of diverse persons who share no particular social or cultural identity but rather their commitment to work together for a more just world Traditional theological categories are renamed and redefined as their original definition and subsequent development are disclosed as limiting and inadequate And the God whom we have been told is One is revealed as many faceted and articulate speaking through and among a radical multiplicity of created and creative beings who struggle together to live authentically in the world *Speaking from the Heart* Richard F. The Community of the Weak Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways *The Community of the Weak* presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story

Christ and the Spirit Ralph Del Colle, 1994-01-06 This is a study of Spirit Christology a contemporary theological model of the relationship between Jesus Christ and the Holy Spirit Del Colle measures this christological model against trinitarian theology and tests its viability He investigates in particular the development of a Roman Catholic Spirit Christology which has arisen from within the modern neo scholastic theological tradition Contrary to other interpreters Del Colle argues that an incarnational christology and a Spirit Christology are not conflicting but complementary and that this is recognized by the older and deeper tradition In

conclusion he seeks to demonstrate the productivity of the Spirit Christological model in reference to three major areas of concern for contemporary systematic theology cultural pluralism and diversity emancipation and social praxis and inter religious dialogue

The Genesis of Doctrine Alister E. McGrath,1997-05 Alister E McGrath begins his book by critically engaging the views of George Lindbeck on doctrine before moving on to present a fresh understanding of the nature and function of Christian doctrine within the church Particular attention is paid to the way in which doctrine acts as a demarcator between communities of faith providing important insights into contemporary ecumenical debates McGrath also explores the crucial issue of the authority of the past in Christian theology focusing especially on how doctrine serves to maintain continuity within the Christian tradition The Genesis of Doctrine represents an exploration of a middle way in relation to the significance of Christian doctrine rejecting both those approaches that insist on the uncritical repetition of the doctrinal heritage of the past and those that disallow the authority of past doctrinal formulations The book concludes by considering whether doctrine has a future within the church answering this question in the affirmative on the basis of a number of important theological and cultural considerations

Product Description Explores the crucial issue of the authority of the past in Christian theology focusing especially on how doctrine serves to maintain continuity within the Christian tradition

Book 10 Miracles PB Kurt Jurgensmeier,2012-08-22 How does God supernaturally reveal Himself This book is a detailed introduction to the complex controversial but vital topic of miracles The topic would be difficult enough but the claims and teaching of charismaticism have made a biblical understanding of miracles even more critical but also more complicated In the course of this Bible study we endeavor to answer such questions as What is a miracle How do we avoid the extremes between anti supernaturalism which claims there are no miracles and super supernaturalism which claims an abundance of them What are the different types of miracles and why is it critical to distinguish them What are the myriad of ways that God has miraculously spoken and which of these can we expect today What is the biblical place and attributes of dreams and visions What is the embarrassing history and alarming dangers of the super supernaturalism at the heart of the charismatic movement

The Grace of Difference Marilyn J. Legge, 1992 Marion J Legge addresses theological ethics from the context of Canadian women especially the experience of marginalized women in Canada Beginning with a critical reassessment of Canadian Radical Christianity she argues that approaches that center on question of economic justice have nevertheless overlooked the day to day economic realities of Canadian women Legge develops a reformulated critical theory of culture that though it emphasizes difference avoids premature abstraction and misplaced generalizations She seeks a voice to articulate the theological and ethical dimensions of women's experience in the texts of three Canadian novels In Search of April Raintree by Beatrice Cullen The Diviners by Margaret Laurence and Obasan by Joy Kogawa
