Tannehill, 2007-02-20 Most of the following essays reveal my interest in the significance of literary forms both the short literary forms in the Gospels such as pronouncement stories and an entire Gospel as a formed narrative I am interested in the significance of these forms not just in literary classification systems I am interested in literary form as a clue to how the text may engage hearers and readers impact their thought and life if they are sensitive respondents The Gospel stories have been shaped in ways that give them particular potentials for significant engagement Study of literary form can help us recognize these potentials from the Introduction Contents Part I Gospel Sayings and Stories 1 Tension in Synoptic Sayings and Stories 2 The Pronouncement Story and Its Types 3 Varieties of Synoptic Pronouncement Stories 4 Types and Functions of Apophthegms in the Synoptic Gospels 5 The Gospels and Narrative Literature 6 You Shall Be Complete If Your Love Includes All Matthew 5:48 Part II The Gospel of Mark 7 The Disciples in Mark The Function of a Narrative Role 8 The Gospel of Mark as Narrative Christology 9 Reading It Whole The Function of Mark 8:34-35 in Mark's Story Part III Paul's Gospel 10 Paul as Liberator and Oppressor Evaluating Diverse Views of 1 Corinthians 11 Participation in Christ A Central Theme in Pauline Soteriology **Technologies for Interactive Digital Storytelling and Entertainment** Stefan Göbel, Rainer Malkewitz, Ido Iurgel, 2006-11-17 This book constitutes the refereed proceedings of the Third International Conference on Technologies for Interactive Digital Storytelling and Entertainment TIDSE 2006 held in Darmstadt Germany in December 2006 It contains 37 papers that cover a broad spectrum from conceptual ideas theories and technological questions to best practice examples in the different storytelling application domains with a focus on entertainment and games Enriching Mathematics in the Primary Curriculum Sue Pope, Pablo Mayorga, 2019-03-11 How do I enrich children's learning of primary mathematics to bring the subject to life This book inspires and supports you the new and beginning teacher to use talk rich and open tasks that bring mathematics to life in your classroom Tried and loved practical tasks that engage and motivate Supports you to create confident and resilient mathematicians in your classroom Explores ways to engage children in mathematics across the primary curriculum Focuses on understanding key mathematical concepts and the connections between them **Unity from Diversity** Ray W. Cooksey, 2024-07-15 This book is about the choices that researchers can make when building knowledge in social and behavioural spaces Knowledge is the unity we seek and given that social and behavioural research is a human endeavour focusing on human lives and experiences there are diverse and ever evolving pathways towards achieving that unity Any one pathway will only ever yield partial glimpses into human life and diversity of potential choices serves to enrich expand and

enlarge those glimpses in pursuit of more complete understanding The book shows that researchers and the researched are far more connected than disconnected in this world and those connections are spread out through a network of interlinked complex systems The book argues that pluralist systemic thinking provides the means by which a researcher's methodological choices for navigating the Data Triangle comprising data source data gathering and data analysis strategies and the learning they provide can be fully and robustly contextualised with respect to those systems and the expectations and influences that emerge from them Such contextualisations facilitate the refinement augmentation and or narrowing of those choices during the researcher's journey Anticipating choices downstream may have implications for more immediate choices and more immediate choices may create a cascade of necessary downstream choices An essential part of contextualisation involves making choices about patterns of guiding assumptions modes of knowledge building and research frames Researchers must develop the capacity to be flexible and adapt to unanticipated emergent events obstacles and political influences making trade offs where necessary throughout their research journey always with an eye on both feasibility and quality Importantly research has no meaning unless the researcher can ensure that it connects with intended audiences via specific research outcomes especially since the ultimate judgments about the convincingness meaningfulness quality and utility of the research are vested in those audiences Throughout the book special attention is devoted to the roles that stakeholders and gatekeepers play in shaping the researcher's journey as well as to what can be learned from Indigenous First Nations perspectives on social and behavioural research
