Noah's ark: by Darley Dale Darley Dale,Francesca Maria Steele,1890 **Longing for the Bomb** Lindsey A.

Freeman,2015-04-13 Longing for the Bomb traces the unusual story of the first atomic city and the emergence of American nuclear culture Tucked into the folds of Appalachia and kept off all commercial maps Oak Ridge Tennessee was created for the Manhattan Project by the U S government in the 1940s Its workers labored at a breakneck pace most aware only that their jobs were helping the war effort The city has experienced the entire lifespan of the Atomic Age from the fevered wartime enrichment of the uranium that fueled Little Boy through a brief period of atomic utopianism after World War II when it began to brand itself as The Atomic City to the anxieties of the Cold War to the contradictory contemporary period of nuclear unease and atomic nostalgia Oak Ridge s story deepens our understanding of the complex relationship between America and its bombs Blending historiography and ethnography Lindsey Freeman shows how a once secret city is visibly caught in an uncertain present no longer what it was historically yet still clinging to the hope of a nuclear future It is a place where history memory and myth compete and conspire to tell the story of America s atomic past and to explain the nuclear present
