Paul Lafargue And The Flowering Of French Socialism 1882 1911:

Paul Lafargue and the Flowering of French Socialism, 1882-1911 Leslie Derfler, 1998-09-15 Lafargue disciple and son in law of Karl Marx helped found the first French Marxist party in 1882 and over the next three decades served as its chief theoretician and propagandist Here Derfler explores Lafargue s political strategies and his attempts to apply Marxist methods of analysis to anthropology aesthetics and literary criticism *Paul Lafargue and the Flowering of French Socialism, 1882-1911* Leslie DERFLER, Leslie Derfler, 2009-06-30 Paul Lafargue the disciple and son in law of Karl Marx helped to found the first French Marxist party in 1882 Over the next three decades he served as the chief theoretician and propagandist for Marxism in France During these years which ended with the dramatic suicides of Lafargue and his wife French socialism and the Marxist party within it became a significant political force In an earlier volume Paul Lafargue and the Founding of French Marxism 1842 1882 Leslie Derfler emphasized family identity and the origin of French Marxism Here he explores Lafargue s political strategies specifically his break with party co founder Jules Guesde in the Boulanger and Dreyfus episodes and over the question of socialist syndicalist relations Derfler shows Lafargue s importance as both political activist and theorist He describes Lafargue s role in the formulation of such strategies as the promotion of a Second Workingmen s International the pursuit of reform within the framework of the existent state but opposition to any socialist participation in nonsocialist governments and the subordination of trade unionism to political action He emphasizes Lafargue s pioneering efforts to apply Marxist methods of analysis to questions of anthropology aesthetics and literary criticism Despite the crucial part they played in the social and political changes of the past century and the heritage they left the first French Marxists are not widely known especially in the English speaking world This important critical biography of Lafargue the most audacious of their much maligned theorists enables us to trace the options open to Marxist socialism as well as its development during a critical period of transition **Marxism and National Identity** Robert Stuart, 2006-06-01 Post Marxists argue that nationalism is the black hole into which Marxism has collapsed at today s end of history Robert Stuart analyzes the origins of this implosion revealing a shattering collision between Marxist socialism and national identity in France at the close of the nineteenth century During the time of the Boulanger crisis and the Dreyfus affair nationalist mobs roamed the streets chanting France for the French while socialist militants marshaled proletarians for world revolution This is the first study to focus on those militants as they struggled to reconcile Marxism s two national agendas the cosmopolitan conviction that workingmen have no country on the one hand and the patriotic assumption that the working class alone represents national authenticity on the other Anti Semitism posed a particular problem for such socialists not least because so many workers had succumbed to racist temptation In analyzing the resultant encounter between France s anti Semites and the Marxist Left Stuart addresses the vexed issue of Marxism s involvement with political anti Semitism

Revolutionary Thought after the Paris Commune, 1871-1885 Julia Nicholls, 2019-07-18 The first comprehensive account

of revolutionary and socialist thought after the 1871 Paris Commune France's last nineteenth century revolution **The Human Tradition in Modern France** K. Steven Vincent, Alison Klairmont-Lingo, 2000-10-01 The Human Tradition in Modern France gives a human perspective of the history of France from 1789 to the present revealed in essays that highlight individuals and intriguing events that too often have been lost under labels and statistics Students will gain an understanding of the humor and passion in French history from these new original essays by well established scholars This collection also relates the individuals events and controversies to current historiographical debates The Human Tradition in Modern France is an excellent supplementary text for courses on French history and is also useful for courses in world history and Western Civilization *The Critique of Work in Modern French Thought* Alastair Hemmens, 2019-04-26 What is work Why do we do it Since time immemorial the answer to these questions from both the left and the right has been that work is both a natural necessity and barring exploitation a social good One might criticise its management its compensation and who benefits from it the most but never work itself never work as such In this book Alastair Hemmens seeks to challenge these received ideas Drawing on the new critique of value school of Marxian critical theory Hemmens demonstrates that capitalism and its final crisis cannot be properly understood except in terms of the historically specific and socially destructive character of labour It is from this radical perspective that Hemmens turns to an innovative critical analysis of the rich history of radical French thinkers who over the past two centuries have challenged the labour form head on from the utopian socialist Charles Fourier who called for the abolition of the separation between work and play and Marx's wayward son in law Paul Lafargue who demanded The Right to Laziness 1880 to the father of Surrealism Andr Breton who inaugurated a war on work and of course the French Situationist Guy Debord author of the famous graffiti never work Ultimately Hemmens considers normative changes in attitudes to work since the 1960s and the future of anti capitalist social movements today This book will be a crucial point of reference for contemporary debates about labour and the anti work tradition in France *Debating the Woman Question in the French Third Republic, 1870-1920* Karen Offen, 2018-01-11 Karen Offen offers a magisterial reconstruction and analysis of the debates around relations between women and men how they are constructed and how they should be organized that raged in France and its French speaking neighbors from 1870 to 1920 The woman question encompassed subjects from maternity and childbirth and the upbringing and education of girls to marriage practices and property law the organization of households the distribution of work inside and outside the household intimate sexual relations religious beliefs and moral concerns government sanctioned prostitution economic and political citizenship and the politics of population growth The book shows how the expansion of economic opportunities for women and the drop in the birth rate further exacerbated the debates over their status roles and possibilities With the onset of the First World War these debates were temporarily placed on hold but they would be revived by 1916 and gain momentum during France's post war recovery *Love and Capital* Mary Gabriel, 2011-09-14 Brilliantly researched and wonderfully written Love and Capital

reveals the rarely glimpsed and heartbreakingly human side of the man whose works would redefine the world after his death Drawing upon previously unpublished material acclaimed biographer Mary Gabriel tells the story of Karl and Jenny Marx s marriage Through it we see Karl as never before a devoted father and husband a prankster who loved a party a dreadful procrastinator freeloader and man of wild enthusiasms one of which would almost destroy his marriage Through years of desperate struggle Jenny s love for Karl would be tested again and again as she waited for him to finish his masterpiece *Capital* An epic narrative that stretches over decades to recount Karl and Jenny s story against the backdrop of Europe s Nineteenth Century Love and *Capital* is a surprising and magisterial account of romance and revolution and of one of the great love stories of all time **Transformations of Contemporary Capitalism** David Evans,2023-10-02 In recent decades there has been many attempts to describe explore and explain the new post modern capitalism of the twenty first century In this context this book looks at one of the most exciting strands of this research in the late twentieth century the flexible specialisation research programme FSRP Drawing on the history of ideas discourse and literature on capitalism of the last four decades this book shows that although flexible specialisation anticipated some of the ways in which capitalism was being transformed in the late twentieth century they underestimated and failed to anticipate the forms of creative destruction and corporate digital control which were becoming embedded in the global capitalist accumulation dynamic itself The sudden disappearance of the Soviet Union and the end of history failed to open up the pathway for new forms of modern social democracy but gave rise instead to the new digital Behemoths Today the classical tendencies of capitalism as anticipated by Marx are all too present and despite talk of post capitalism and digital techno feudalism the landscape of monopolyfinance capital has consolidated itself The book counterposes the FSRP with the various Marxist interpretations of the capitalist transition together with the wider social and economic theories that emerged in the first decades for the twenty first century around for example the great acceleration de growth and post growth This book will be of interest to all readers concerned with heterodox political economy critical social theory intellectual history and above all the prospects for social transformation leading to social justice and an egalitarian enlightenment Socialism and the Experience of Time Julian Wright,2017 How do we make social democracy by seizing the unknown possibilities of the future or by focusing our attention on the immediate present Julian Wright examines French reformist and idealist socialism s fascination with modern history using interlocking biographical essays to understand the timeframe of their social transformation The Fall and Rise of Political Leaders L. Derfler,2011-01-31 Olof Palme Sweden Olusegun Obasanjo Nigeria and Indira Gandhi India achieved the pinnacle of political power fell from or relinquished power and then after a period in the political wilderness regained it By placing greater emphasis than that customarily accorded by biographers on the interment that followed their fall and preceded their resurrection the book describes how what they did the lessons they learned and the mistakes made by their successors facilitated their reentry *Yitzhak Rabin* L. Derfler,2014-01-16 A political and analytical biography this

book examines Yizhak Rabin's longtime leadership of the military and his political direction of the Jewish state as well as his efforts to secure a peace with Egypt and with the Palestinians *Political Resurrection in the Twentieth Century* L. Derfler, 2012-12-23 Charles de Gaulle of France Juan Perón of Argentina and Pierre Elliott Trudeau of Canada all achieved the pinnacle of political power fell from or relinquished power and then after a period in the political wilderness regained their power By placing greater emphasis than that customarily accorded by biographers on the interment that followed their fall and preceded their resurrection Derfler describes what they did the lessons they learned and the mistakes made by their successors that facilitated their reentry **Dublin Easter 1916 The French Connection** Bill Mc Cormack, 2012-09-28 All revolutionary movements since 1789 have looked instinctively to the French model In this book Bill Mc Cormack demonstrates that the French influence in Ireland was indeed profound especially in the years leading up to the Easter Rising However it was not the traditions of the Tennis Court Oath or Bastille Day that motivated the Irish rebels but a new French Catholic nationalism which reached its apogee with the Dreyfus Affair 1895 and which pervaded literature as well as politics This was a complex reactionary movement partly religious partly royalist and anti modern In Ireland its influence was advanced through the thought of individual visitors through Catholic teaching orders and through a vigorous periodical press The blood sacrifice rhetoric of Patrick Pearse and eventually James Connolly owes more to Maurice Barres than to Wolfe Tone Connolly's use of the sympathetic strike derives from Georges Sorel's syndicalism Mc Cormack examines how the formerly anti clerical Irish Republican Brotherhood was in effect re baptised by a French inspired Catholic mission which even absorbed Pearse's English and agnostic father He explores the wealth of French material published by Thomas MacDonagh and J M Plunkett in *The Irish Review* 1911 1914 and traces the long campaign of *The Catholic Bulletin* to convert the rebel dead into martyrs Finally he discusses how the anti democratic undertow of 1916 breaks out again in 1939 with the IRA's bombing campaign in England *History and the Formation of Marxism* Bertel Nygaard, 2022-09-19 This book redefines the relationship between Marxism and history At its roots Marxism was aimed at analyzing society in order to change it reflecting on the past to create the poetry of the future No single event of the past was as important to early Marxists as the French Revolution of 1789 Studying the varying uses of the history of that past event among Karl Marx Friedrich Engels and prominent European Marxists before 1914 Karl Kautsky V I Lenin and others this book argues that we should take the historiography of concrete past events seriously It was not only an auxiliary element of Marxism but a core constitutive element in its formation Thus this book calls for transcending traditional approaches to Marxism as a fixed set of social theories combined with strategies for the present and future Important to students of Marxism the labor movement and the French Revolution alike this study contains refreshing perspectives on the interplay between past present and future and on the role of states social classes socio economic determination and political organization in history *Intellectual Founders of the Republic* Sudhir Hazareesingh, 2001-11-01 This innovative study of French political culture re examines the

origins of modern republicanism through the lives and political thought of five nineteenth century intellectuals Jules Barni Charles Dupont White Emile Littr Eug ne Pelletan and Etienne Vacherot By their writings and their political practices at the local national international levels these thinkers made major contributions to the founding of the new republican order in France Drawing on a range of archival and published sources the book sheds new light on classical republican thinking on such key issues as the interpretation of the 1789 Revolution the definition of citizenship the meaning of patriotism the relationship between central government and local democracy the value of individual liberty and the place of education and religion in publica and private life These five studies also break new ground in the conceptualization of nineteenth century French intellectual history The writings of these thinkers demonstrate the ideological pluralism and diversity of moderate French republican thought during this period Positivism appears as an important and influential doctrine but its hegemonic aspirations were successfully resisted by the abiding influences of Saint Simonism socialism doctrinaire liberalism and neo Kantianism It emerges that the ideological potency of republican doctrine lay in its complexity and sophistication as reflected in its capacity to effect a synthesis among these different approaches Through its analysis of the writings and political practices of these five thinkers *Intellectual Founders of the Republic* offers critical insights into the history of political thought as well as modern French republicanism It underlines both the significance of contextuality in the interpretation of political discourse and the continuing relevance of classical republicanism in making sense of contemporary moral and political dilemmas
