Stross,2008-03-25 Thomas Edison s greatest invention His own fame At the height of his fame Thomas Alva Edison was hailed as the Napoleon of invention and blazed in the public imagination as a virtual demigod Starting with the first public demonstrations of the phonograph in 1878 and extending through the development of incandescent light and the first motion picture cameras Edison s name became emblematic of all the wonder and promise of the emerging age of technological marvels But as Randall Stross makes clear in this critical biography of the man who is arguably the most globally famous of all Americans Thomas Edison s greatest invention may have been his own celebrity Edison was certainly a technical genius but Stross excavates the man from layers of myth making and separates his true achievements from his almost equally colossal failures How much credit should Edison receive for the various inventions that have popularly been attributed to him and how many of them resulted from both the inspiration and the perspiration of his rivals and even his own assistants This bold reassessment of Edison s life and career answers this and many other important questions while telling the story of how he came upon his most famous inventions as a young man and spent the remainder of his long life trying to conjure similar success We also meet his partners and competitors presidents and entertainers his close

friend Henry Ford the wives who competed with his work for his attention and the children who tried to thrive in his shadow all providing a fuller view of Edison's life and times than has ever been offered before The Wizard of Menlo Park reveals not only how Edison worked but how he managed his own fame becoming the first great celebrity of the modern age **Steve Gadd Transcriptions** Steve Gadd, Krzysztof Filipinski, 2011-02-25 The Steve Gadd drumming transcriptions book honors the talents of one of the greatest drummers in the entire world the amazing Steve Gadd the book includes thirty stylistically varying transcriptions It is a note for note very accurate interpretation of Steve Gadd's style of playing the drums In some cases there are only fragments that present the most interesting parts of the given song the music is clearly notated and easy to read Attractive quotations biography an extensive discography and videography are an extra bonus in this book **Simon & Garfunkel** Spencer Leigh, 2016-09-22 SIMON GARFUNKEL is a definitive account of Paul Simon and Art Garfunkel's career together With unique material and exclusive interviews with fellow musicians promoters and friends acclaimed author Spencer Leigh has written a compelling biography of some of the world's biggest musical stars With remarkable stories about the duo on every page the book not only charts their rise to success and the years of their fame but analyses the personalities of the two men and the ups and downs of their often fraught relationship **365 Nights** Charla Muller, 2011-04-04 For an entire year The Mullers had a solid marriage and two wonderful children but over the years sex had fallen low on their to do list The lack of intimacy wasn't causing them to drift apart exactly but their connection didn't seem as great as it could be Charla decided that the couple would embark on a year of scheduled sex falling over toy trucks and piles of laundry in an effort to make time for each other There were obstacles along the way when disasters at work intruded on their home life and when there were questions about the sex itself and faking it Would physical love whether good mediocre or ugly make up for things that weren't so good Charla and her husband had a whole year to find out *The Park and the People* Roy Rosenzweig, Elizabeth Blackmar, 1992 Delineate the politicians business people artists immigrant laborers and city dwellers who are the key players in the tale In tracing the park's history the writers also give us the history of New York They explain how squabbles over politics taxes and real estate development shaped the park and describe the acrimonious debates over what a public park should look like what facilities it should offer and how it should accommodate the often incompatible **This Is Where You Belong** Melody Warnick, 2017-07-04 In the spirit of Gretchen Rubin's megaseller The Happiness Project and Eric Weiner's The Geography of Bliss a journalist embarks on a project to discover what it takes to love where you live The average restless American will move 11.7 times in a lifetime For Melody Warnick it was move 6 from Austin Texas to Blacksburg Virginia that threatened to unhinge her In the lonely aftermath of unpacking she wondered Aren't we supposed to put down roots at some point How does the place we live become the place we want to stay This time she had an epiphany Rather than hold her breath and hope this new town would be her family's perfect fit she would figure out how to fall in love with it no matter what How we come to feel at home in our towns and cities is what

Warnick sets out to discover in *This Is Where You Belong* She dives into the body of research around place attachment the deep sense of connection that binds some of us to our cities and increases our physical and emotional well being then travels to towns across America to see it in action Inspired by a growing movement of placemaking she examines what its practitioners are doing to create likeable locales She also speaks with frequent movers and loyal stayers around the country to learn what draws highly mobile Americans to a new city and what makes us stay The best ideas she imports to her adopted hometown of Blacksburg for a series of Love Where You Live experiments designed to make her feel more locally connected Dining with her neighbors Shopping Small Business Saturday Marching in the town Christmas parade Can these efforts make a halfhearted resident happier Will Blacksburg be the place she finally stays What Warnick learns will inspire you to embrace your own community and perhaps discover that the place where you live right now is home *Life During Wartime* Cosmic Darren, 2011-06-13
