## **Paul Tillich On Creativity:**

Paul Tillich on Creativity Jacquelyn Ann K. Kegley, 1989 To find more information on Rowman Littlefield titles please visit us at [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com)      **Paul Tillich** Paul Tillich, Paul Tillich forced into exile by the Nazis in 1933 settled in the United States His many theological works and especially his three volume Systematic Theology have had a profound influence upon contemporary religious thought This volume concentrates on the key texts and ideas in Tillich's thought It presents the essential Paul Tillich for students and the general reader Taylor's introductory essay and notes on the selected texts set Tillich in his historical context chart the development of this thought and indicate the significance of his theology in the development of Christian theology as a whole Substantial selections from Tillich's work illustrate key themes The struggle for a new theonomy Protestant theology amid socialist crisis In the sacred void being and God Amid structures of destruction Christ as new being Among the ambiguities of life Spirit and churches In the end revisioning and hope      Paul Tillich and Pentecostal Theology Nimi Wariboko, Amos Yong, 2015-11-17 Paul Tillich 1886-1965 is widely regarded as one of the most influential theologians of the 20th century By bringing his thought together with the theology and practices of an important contemporary Christian movement Pentecostalism this volume provokes active productive critical and creative dialogue with a broad range of theological topics These essays stimulate robust conversation engage on common ground regarding the work of the Holy Spirit and offer significant insights into the universal concerns of Christian theology and Paul Tillich and his legacy      *Creativity as Sacrifice* James M. Watkins, 2015-01-01 Theological interest in art is at a premium However theological engagement with art is often enacted without a clear sense of method This text argues for a theological methodology in engaging the arts and specifically the author puts forward a theological model for understanding human creativity in the light of Jesus' sacrificial redemption In dialogue with theology philosophy psychology and art theory the author establishes the relevance and applicability of an incarnational and sacrificial model of human creativity Theological models also do more than provide a conceptual framework for theological inquiries They engage the imagination A theological model for human creativity is like an invitation to join in the creative vision God has for the world and to embody this vision in one's own creative work Therefore *Creativity as Sacrifice* does not merely articulate a conceptual framework for human creativity it also casts a vision for human life as a creative response to the gracious gifts of a creative God

**Heroes, Saints, and Ordinary Morality** Andrew Michael Flescher, 2003-11-25 Most of us are content to see ourselves as ordinary people unique in ways talented in others but still among the ranks of ordinary mortals Andrew Flescher probes our contented state by asking important questions How should ordinary people respond when others need our help whether the situation is a crisis or something less Do we have a responsibility an obligation to go that extra mile to act above and beyond the call of duty Or should we leave the braver responses to those who are somehow different than we are better somehow heroes or saints Traditional approaches to ethics have suggested there is a sharp distinction between ordinary

people and those called heroes and saints between duties and acts of supererogation going beyond the expected Flescher seeks to undo these standard dichotomies by looking at the lives and actions of certain historical figures Holocaust rescuers Martin Luther King Jr Dorothy Day among others who appear to be extraordinary but were in fact ordinary people Heroes Saints and Ordinary Morality shifts the way we regard ourselves in relationship to those we admire from afar it asks us not only to admire but to emulate as well further it challenges us to actively seek the acquisition of virtue as seen in the lives of heroes and saints to learn from them a dynamic aspect of ethical behavior that goes beyond the mere avoidance of wrongdoing Andrew Flescher sets a stage where we need to think and act calling us to lead lives of self examination even if that should sometimes provoke discomfort He asks that we strive to emulate those we admire and therefore allow ourselves to grow morally and spiritually It is then that the individual develops a deeper altruistic sense of self a state that allows us to respond as the heroes of our own lives and therefore in the lives of others when times and circumstance demand that of us

The Political Theology of Paul Tillich Rachel Sophia Baard,2024-01-16 The Political Theology of Paul Tillich explores the political theology of one of the foremost thinkers of the 20th century Paul Tillich whose life and scholarship were decisively shaped by his experiences during World War I his resistance to the rising scourge of Nazism in Germany and his subsequent immigration to the United States Tillich s discerning analysis of fascism grounded in his socialist commitments and his continuing efforts to write theology in correlation with culture make his voice a crucial one for contemporary political theology The contributors to this volume represent different generations social and cultural locations and nationalities Together they explore Tillich s early work on religious socialism and its lingering presence in his later systematic theology bring him into dialogue with liberation theologies apply his thought to contemporary political concerns and show the significance of his method of correlation for theological scholarship that engages culture thereby presenting a case for the continued relevance of Tillich for political theology

Runco,2023-03-11 Creativity Research Development and Practice Third Edition summarizes the research on the development expression and enhancement of creativity It draws from the full range of disciplines studying creativity including psychology business education economics philosophy neuroscience and more This volume includes exploration of research on the nature nurture debate what influences creativity how creativity is related to personality how social context may affect creativity mental health and its relation to creativity gender differences and how creativity is related to and differs from invention innovation imagination and adaptability The third edition has been thoroughly updated with a new chapter on psychometrics and substantial updates on the biology and neuroscience of creativity politics and creative cognition It includes quotations graphics boxed controversial issues and biographical examples from unambiguously creative individuals Summarizes research from the full range of perspectives on creativity Includes a new chapter on the psychometrics of creativity Distinguishes controlled cognition from associative and intuitive cognition Features substantial updates on the biology and neuroscience of creativity

Explores creativity research relating to media business and leadership Addresses the big issues including cultural differences traditional intelligence computer and animal creativity and more      **Concerning Creativity** John H. Berthrong,1998-10-01

This work examines the philosophies and theologies of three thinkers Chu Hsi Alfred North Whitehead and Robert C Neville separated by time space and culture In so doing John H Berthrong provides a suggestive and successful comparison of creativity as a cross cultural theme while introducing Neo Confucianism as a sophisticated dialogue partner with modern Western speculative philosophy and theology Creativity lies at the heart of the discourse of Chu Hsi 1130 1200 and Alfred North Whitehead For both creativity emerges as an attempt to illustrate the organic unity of the world without resorting to an appeal to a source for creativity beyond the concrete actuality of the cosmos Subtle critics such as Robert C Neville argue that process thought is fatally flawed because Whitehead separated creativity from the other crucial elements of his system By interjecting the Chinese Neo Confucian synthesis of Chu Hsi it is possible to show how creativity can be re integrated into process discourse as creative synthesis      *Creative Experiencing* Charles Hartshorne,2011-09-01

A vigorous and wide ranging defense of Hartshorne s neoclassical metaphysics of creative freedom      *The American Spiritual Culture* William Dean,2006-08-22 In this book now in paperback William Dean describes the spiritual culture that is grounded in the emerging American story      **Social Democracy in the Making** Gary Dorrien,2019-04-23

An expansive and ambitious intellectual history of democratic socialism from one of the world s leading intellectual historians and social ethicists The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism a democracy in which the people control the economy and government no group dominates any other and every citizen is free equal and included With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany this book traces the story of democratic socialism from its birth in the nineteenth century through the mid 1960s Examining the tenets on which the movement was founded and how it adapted to different cultural religious and economic contexts from its beginnings through the social and political traumas of the twentieth century Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make the struggles of oppressed peoples the subject of redemption He argues for a decentralized economic democracy and anti imperial internationalism

Paul Tillich's Theological Legacy Frederick J. Parrella,1995

Creativity and Its Discontents Laikwan Pang,2012

Laikwan Pang offers a complex critical analysis of creativity creative industries and the impact of Western copyright laws on creativity in China      *Creativity, Psychology and the History of Science* H.E. Gruber,Katja Bödeker,2005-09-22 Creativity Psychology and the History of Science offers for the first time a comprehensive overview of the oeuvre of Howard E Gruber who is noted for his contributions both to the psychology of creativity and to the history of science The present book includes papers from a wide range of topics In the contributions to creativity research Gruber proposes his key ideas for studying creative work Gruber focuses on how the thinking motivation and affect of extraordinarily creative individuals evolve and

how they interact over long periods of time Gruber's approach bridges many disciplines and subdisciplines in psychology and beyond several of which are represented in the present volume cognitive psychology developmental psychology history of science aesthetics and politics The volume thus presents a unique and comprehensive contribution to our understanding of the creative process Many of Gruber's papers have not previously been easily accessible they are presented here in thoroughly revised form

**Creativity** Matthew Fox, 2004-06-17 The author of *Original Blessing* explores how the highest communion with the Divine can be found right at our fingertips in the simplest expressions of human creativity Drawn from a sermon that has electrified listeners here is a concise powerful meditation on the nature of creativity from Episcopal priest and radical theologian Matthew Fox Creativity is Fox at his most dynamic It is immensely practical and leaves the reader with a message to put into action in life Fox tantalizingly suggests that the most prayerful most spiritually powerful act a person can undertake is to create at his or her own level with a consciousness of the place from which that gift arises *The Creativity Reader* Vlad Petre Glaveanu, 2019-05-13 The *Creativity Reader* is a necessary companion for anyone interested in the historical roots of contemporary ideas about creativity innovation and imagination It brings together a prestigious group of international experts who were tasked with choosing introducing and commenting on seminal texts focused on creativity invention genius and imagination from the period of 1850 to 1950 This volume is at once retrospective and prospective it revisits old ideas assesses their importance today and explores their potential for the future Through its wide historical focus this Reader challenges the widespread assumption that creativity research is mainly a product of the second half of the twentieth century Featuring primary sources interpreted through the lenses of leading contemporary scholars The *Creativity Reader* testifies to the incredible richness of this field of study helps us understand its current developments and anticipates its future directions The texts included here many of them little known or forgotten are part of the living history of creativity studies Indeed an examination of these seminal papers helps the new generation of creativity and innovation researchers to be mindful of the past and unafraid to explore it

*Creativity and Spirituality* Maureen Miner, Martin Dowson, 2017-02-01 The volume was developed to address conceptual relational and formational questions around the phenomena of creativity and spirituality from a multidisciplinary perspective We acknowledge the complexity of each phenomenon and the need for multiple perspectives in a number of ways First different chapters are written from psychological theological or philosophical perspectives Second multiple research perspectives are considered across empirical and phenomenological methods of inquiry Finally multiple associations between creativity and spirituality are evaluated From such multiple perspectives the theme of this volume emerges Both creativity and spirituality are important for individual and societal flourishing but we know little about fostering both in the 21st century Some ways of fostering them are psychologically harmful and need to be avoided New ways of protecting people as they engage in creative and spiritual endeavours are needed In particular formal training in both creativity and spirituality within the sphere of higher education should be developed in the light of current

research However new research that integrates multiple perspectives and examines creativity and spirituality together is needed for training that avoids harm and promotes individual and social flourishing The book will be valuable for educators in all disciplines of higher education because it justifies and explicates training in creativity and spirituality within all areas of higher education Further it discusses how such training might best be included within andragogical practice The book will be useful for researchers of creativity and spirituality because it gives an overview of contemporary research issues and findings and proposes a new philosophical theological perspective for integrative research in these areas Students in fields of creativity theology and spirituality will use the book as a synthesis of contemporary theories and research relating to both creativity and spirituality and for direction in post graduate research More broadly Christians and others who appreciate the creative and performing arts will find much to challenge their thinking and deepen their awareness of spirituality within human creativity

**Creative Is a Verb** Patti Digh, 2010-10-19 A guidebook for all who call themselves artists and those who need permission to re insert creativity into their lives

**Freedom in Resistance and Creative Transformation** Michael St. A. Miller, 2013-04-11 The practice of freedom that is finite realistically libertarian and relational is vital for the wholesome development of human beings In promoting this idea Michael Miller challenges traditional Christian teachings that have hindered the pursuit of freedom by human beings

**Creative Church Leadership** John Adair, John Nelson, 2004 Following Management and Ministry and Leading Managing Ministering this third MODEM handbook explores an issue at the very heart of the Church how can an ancient institution with so many encumbrances remain a living sign of the Kingdom of God
