Paradoxical Correlation Charles Amarkwei, 2020-05-05 This book shows the paradoxical mode by which Christians keep their faith in the Christian message as they relate with science It reveals how Paul Tillich's method of correlation helps us to understand how Christians interact with science without necessarily conflicting separating and dialoguing and synthesizing with each other It rules out natural theology but provides a non eclectic theology of nature that frees Christians to be involved in science meaningfully and without undermining their faith *Paul Tillich and the Possibility of Revelation through Film* Jonathan Brant, 2012-01-26 Since the birth of cinema at the end of the nineteenth century religion and film have been entwined The Jesus story and other religious narratives were the subject matter of some of the earliest cinema productions and this relationship has continued into the present A recent proliferation of texts conferences and courses bear witness to burgeoning academic interest in the relation between religion and film In this study Jonathan Brant explores the possibility that even films lacking religious subject matter might have a religious impact upon their viewers the possibility of revelation through film The book begins with a reading of Paul Tillich's theology of revelation through culture and continues with a qualitative research project which grounds this theoretical account in the experiences of a group of filmgoers The empirical research takes place in Latin America where the intellectual puzzle and central research questions that drive the thesis arose and developed Brant combines theoretical and empirical research in order to provide fresh insights into the way in which film functions and impacts its viewers and also offers an unusual perspective on the strengths and weaknesses of Tillich's theology of revelation which is seen to focus on the saving and healing power of revelation rather than its communicative content The grounding of the theory by the empirical data results in an increased appreciation of the sensitivity of Tillich's theology to the uniqueness of each film to viewer encounter and the data also suggests a new construal of the revelatory potential of film that is related to the community rather than the individual and to sustained life practice rather than momentary experience Brant reasons that Tillich's account is sensitive and compelling precisely because of its phenomenological attentiveness to real life experience notably Tillich's own experience of the power of art However Brant also suggests that it might be helpful to identify a stronger link than Tillich allows between the subject matter of the artwork the content of revelation and the effect of revelation Paul Tillich's Philosophical Theology George Pattison, 2014-12-19 Paul Tillich's Philosophical Theology takes up the challenge as to whether his thought remains relevant fifty years after his death In opposition to those who believe that his writings have little to say to us today this book argues that his thought is largely exemplary of open theological engagement with the contemporary intellectual situation *Paul Tillich's Theological Legacy* Frederick J. Parrella, 1995 The Scandal of Sacramentality Brannon Hancock, 2014-03-17 The sacrament par excellence the Eucharist has been upheld as the foundational sacrament of Christ's Body called Church yet it has confounded Christian thinking and practice throughout history Its symbolism points to the paradox of the incarnation death and resurrection of God in Jesus of Nazareth which St Paul describes as a stumbling block skandalon Yet the scandal of

sacramentality not only illustrated by but enacted in the Eucharist has not been sufficiently accounted for in the ecclesiologies and sacramental theologies of the Christian tradition Despite what appears to be an increasingly post ecclesial world sacrament remains a persistent theme in contemporary culture often in places least expected Drawing upon the biblical image of the Word made flesh this interdisciplinary study examines the scandal of sacramentality along the twofold thematic of the scandal of language word and the scandal of the body flesh While sacred theology can think through this scandal only at significant risk to its own stability the fictional discourses of literature and the arts are free to explore this scandal in a manner that simultaneously augments and challenges traditional notions of sacrament and sacramentality and by extension what it means to describe the Church as a eucharistic community

Mormonism in Dialogue with Contemporary Christian Theologies David Lamont Paulsen, Donald W. Musser, 2007 This volume brings together for the first time a broad range of scholars from Mormon and other Christian traditions Replacing polemics and apologetics with dialogue these exchanges show how the full spectrum of contemporary theologies can be informed by uniquely Mormon ideas and correlatively how Mormon thought can be illuminated through the study of key ideas of the foremost theologians of the twentieth and twenty first centuries

[The Transformation of American Religion](#) Amanda Porterfield, 2001-04-05 As recently as a few decades ago most people would have described America as a predominantly Protestant nation Today we are home to a colorful mix of religious faiths and practices from a resurgent Catholic Church and a rapidly growing Islam to all forms of Buddhism and many other non Christian religions How did this startling transformation take place A great many factors contributed to this transformation writes Amanda Porterfield in this engaging look at religion in contemporary America Religious activism disillusionment with American culture stemming from the Vietnam war the influx of Buddhist ideas a heightened consciousness of gender and the vastly broadened awareness of non Christian religions arising from the growth of religious studies programs all have served to undermine Protestant hegemony in the United States But the single most important factor says Porterfield was the very success of Protestant ways of thinking emphasis on the individual s relationship with God tension between spiritual life and religious institutions egalitarian ideas about spiritual life and belief in the practical benefits of spirituality Distrust of

religious institutions for instance helped fuel a religious counterculture the tendency to define spiritual truth against the dangers or inadequacies of the surrounding culture and Protestantism's pragmatic view of spirituality played into the tendency to see the main function of religion as therapeutic For anyone interested in how and why the American religious landscape has been so dramatically altered in the last forty years *The Transformation of Religion in America* offers a coherent and persuasive analysis
