Pater the Classicist Charles Martindale, Stefano Evangelista, Elizabeth Prettejohn, 2017-02-23 Pater the Classicist is the first book to address in detail Walter Pater's important contribution to the study of classical antiquity Widely considered our greatest aesthetic critic and now best known as a precursor to modernist writers and post modernist thinkers of the twentieth century Pater was also a classicist by profession who taught at the University of Oxford He wrote extensively about Greek art and philosophy but also authored an influential historical novel set in ancient Rome Marius the Epicurean and a variety of short stories depicting the survival of classical culture in later ages These superficially diverging interests actually went closely hand in hand it can plausibly be asserted that it is the classical tradition in its broadest sense including the question of how to understand its workings and temporalities which forms Pater's principal subject as a writer Although he initially approached antiquity obliquely through the Italian Renaissance for example or the poetry of William Morris later in his career he wrote more and more directly about the ancient world and particularly about Greece his first love The essays in this collection cover all his major works and reveal a many sided and inspirational figure whose achievements helped to reinvigorate the classical studies that were the basis of the English educational system of the nineteenth century and whose conception of Classics as cross disciplinary and outward looking can be a model to scholars and students today They discuss his classicism generally his fiction set in classical antiquity his writings on Greek art and culture and those on ancient philosophy and in doing so they also illuminate Pater's position within his Victorian context among figures such as J A Symonds Henry Nettleship Vernon Lee and Jane Harrison as well as his place in the study and reception of Classics today

The Decadence of Delphi Kristin M. Heineman, 2017-09-22 Examining the final years of Delphic consultation this monograph argues that the sanctuary operated on two connected yet distinct levels the oracle which was in decline and the remaining religious political and social elements at the site which continued to thrive In contrast to Delphi other oracular counterparts in Asia Minor such as Claros and Didyma rose in prestige as they engaged with new theological issues Issues such as these were not presented to Apollo at Delphi and this lack of expertise could help to explain why Delphi began to decline in importance The second and third centuries AD witnessed the development of new ways of access to divine wisdom Particularly widespread were the practices of astrology and the Neoplatonic divinatory system theurgy This monograph examines the correlation between the rise of such practices and the decline of oracular consultation at Delphi analyzing several examples from the Chaldean Oracles to demonstrate the new interest in a personal soteriological religion These cases reveal the transfer of Delphi's sacred space which further impacted the status of the oracle Delphi's interaction with Christianity in the final years of oracular operation is also discussed Oracular utterances with Christian overtones are examined along with archaeological remains which demonstrate a shift in the use of space at Delphi from a pagan Panhellenic center to one in which Christianity is accepted and promoted

Philostratus's Heroikos Jennifer K. Berenson Maclean, Ellen Bradshaw Aitken, 2005-01-01 This multidimensional collection of essays explores the interrelation of religion cultural identity politics literature myth and memory during the Roman Empire by focusing on the cultural dynamics embedded in and surrounding Philostratus's *Heroikos* an early third century C E dialogue about Homer and the heroes of the Trojan War The essays focus on ritual and literary dimensions of hero cult cultural and community identity reflected in the *Heroikos* and in early Christianity and the cultural literary and political turn toward heroes in the negotiation of difference particularly with those outside the Roman Empire Contributors to this volume include classicists archaeologists ancient historians and

scholars of early Christianity Ellen Bradshaw Aitken Susan E Alcock Hans Dieter Betz Alain Blomart Walter Burkert Casey Du Simone Follet Sidney H Griffith Jackson P Hershbelle Christopher Jones Jennifer K Berenson Maclean Francesca Mestre Gregory Nagy Corinne Ondine Pache Jeffrey Rusten M Rahim Shayegan James C Skedros and Tim Whitmarsh Paperback edition is available from the Society of Biblical Literature www.sbl-site.org *The Oxford Classical Dictionary* Simon Hornblower, Antony Spawforth, Esther Eidinow, 2012-03-29 The revised third edition of the Oxford Classical Dictionary is the ultimate reference on the classical world containing over 6 200 entries The 2003 revision includes minor corrections and updates and all Latin and Greek words in the text are now translated into English **Why Did They Write This Way?** Katherine M. Stott, 2008-11-15 This book examines the character and function of the documents mentioned in the biblical texts in relation to comparable references in literature from wider antiquity Citing various references to written documents in the Hebrew Bible Stott takes into consideration both those references that may point to external sources for example the many literary citations in the books of Kings and Chronicles as well as certain other documents that play a role in the narrative such as the book of the law in 2 Kings the scrolls of Jeremiah and the tablets of the law The aim of this study is not to determine to which texts external to the world of the narrative if any these documents refer or to identify the content of these documents or to reconstruct their origins and historical development Instead the primary focus is to understand these references within their literary context asking why indeed they are mentioned at all and what purpose they serve in the narrative regardless of whether they existed or not in the external world or whether the stories about them have basis in historical reality as it happened *Paul and Seneca Among the Condemned* James R. Unwin, 2024-10-08 Paul and Seneca Among the Condemned The Use of Spectacle in the Early Empire relocates the comparison of these two figures from the philosopher's lecture hall to the amphitheaters of Rome and Corinth The book explores the sites and images of spectacle that littered the landscapes of the ancient world By examining archaeological remains alongside the letters of Paul and Seneca James R Unwin recreates their exhibitions of spectacle imagery What we discover in viewing these provocative scenes from the grim world of the arena are suggestive responses to sovereign power and state terror Their responses open up space for us to think through the reproduction of new arenas in our present world
