Penrose Tiles to Trapdoor Ciphers...and the Return of Dr. Matrix Martin Gardner, 2020-10-06 Martin Gardner's Mathematical Games columns in Scientific American inspired and entertained several generations of mathematicians and scientists. Gardner in his crystal clear prose illuminated corners of mathematics especially recreational mathematics that most people had no idea existed. His playful spirit and inquisitive nature invite the reader into an exploration of beautiful mathematical ideas along with him. These columns were both a revelation and a gift when he wrote them; no one before Gardner had written about mathematics like this. They continue to be a marvel. This volume was originally published in 1989 and contains columns from published 1976-1978. This 1997 MAA edition contains three new columns written specifically for this volume, including the resurrection of the lamented Dr. Matrix. *Colossal Book of Mathematics* Martin Gardner, 2001. No amateur or math authority can be without this ultimate compendium of classic puzzles, paradoxes, and puzzles from America's best loved mathematical expert. 320 line drawings. *ICLSSEE 2023* Meida Rachmawati, Faisal Santiago, Eko Eddy Supriyanto, 2023-07-10. This book contains the proceedings of the International Conference on Law, Social Science, Economics, and Education (ICLSSEE 2023) on 6 May 2023 in Indonesia. This conference was held in collaboration with Nusantara Training and Research (NTR) at Universitas Borobudur, Jakarta, Indonesia. Papers from the conference are collected in a book of proceedings entitled *Proceedings of the International Conference on Law, Social Sciences, Economics, and Education (ICLSSEE 2023)*. Presentations from the conference covering these disciplines will provide a lot of inspiring input and new treasures on law, social sciences, economics, and education especially after the Covid-19 Pandemic. Thus, it will contribute to the next generation of young researchers to generate innovative research findings and ideas. The hope is that scientific attitudes and skills through research will encourage the development of knowledge produced through research from various scholars in various regions. Finally, we would like to express our sincere thanks to all of the steering committee colleagues for their cooperation in organizing the conference. Hopefully, these seminars and conferences can be continued in the coming years with more insightful articles from inspiring research. We would also like to thank the invited speakers for their invaluable contributions and for sharing their visions in their talks.
