Rediscovering Confucianism A Major Philosophy Of Life In East Asia:

Rediscovering Confucianism Torbjörn Lodén, 2021-10-01 This book provides an outline and an appraisal of Confucianism as a system of ideas and beliefs that evolved during the past 3 millennia and continue to do so. Its roots are traced back to pre Confucian times followed by a detailed examination of some 40 Confucian thinkers. It also describes the social context of evolution of Confucian thought.

The Politics of Peace Te-Li Lau, 2009-12-07 Although scholarship has noted the thematic importance of peace in Ephesians few have examined its political character in a sustained manner throughout the entire letter. This book addresses this lacuna comparing Ephesians with Colossians Greek political texts Dio Chrysostom's Orations and the Confucian Four Books in order to ascertain the rhetorical and political nature of its topos of peace. Through comparison with analogous documents both within and without its cultural milieu this study shows that Ephesians can be read as a politico religious letter concerning peace within the church. Its vision of peace contains common political elements such as moral education household management communal stability a universal humanity and war that are subsumed under the controlling rubric of the unity and cosmic summing up of all things in Christ.

Roth,2018-09-10 The Universal Declaration of Human Rights is one of the world s best known and most translated documents When it was presented to the United Nations General Assembly in December in 1948 Eleanor Roosevelt chair of the writing group called it a new Magna Carta for all mankind The passage of time has shown Roosevelt to have been largely correct in her prediction as to the declaration s importance No other document in the world today can claim a comparable standing in the international community Roosevelt and French legal expert Ren Cassin have often been represented as the principal authors of the declaration But in fact it resulted from a collaborative effort involving a number of individuals in different capacities One of the declaration s most important authors was the vice chairman of the Human Rights Commission Peng Chun Chang 1892 1957 a Chinese diplomat and philosopher whose contribution has been the focus of growing attention in recent years Indeed it is Chang who deserves the credit for the universality and religious ecumenism that are now regarded as the declaration s defining features Despite this Chang s extraordinary contribution has been overlooked by historians Peng Chun Chang was a modern day Renaissance man teacher scholar university chancellor playwright diplomat and politician A true cosmopolitan he was deeply involved in the cultural exchange between East and West and the dramatic events of his life left a profound mark on his intellectual and political work

P C Chang and the Universal Declaration of Human Rights is the first biography of this extraordinary actor on the world stage who belonged to the same generation as Mao Zedong and Chiang Kai shek Drawing on previously unknown sources it casts new light on Chang s multifaceted life and involvement with one of modern history s most important documents

Thomsen,2006 Globalization may be undermining Kipling s assertion that East is East and West is West but arguably this is more in the realms of technological advances and consumer behaviour than say in political culture In the latter arena much is still made of the contrasts between Eastern culture characterized by collectivism and belief in authority and Western culture characterized by individualism and belief in democracy Such comfortable assumptions will be shattered for readers of
