Reducing Nuclear Arsenals:

Reducing Nuclear Arsenals Carlo Schaerf, David Carlton, 1991-06-18 This volume contains the proceedings of the Third Castiglioncello International Conference on Nuclear Arsenals Reduction Perspectives and Consequences which took place in Livorno Italy from 22 to 25 September 1989

The Opportunity Steven Pifer, Michael E. O'Hanlon, 2012-10-05 For some observers nuclear arms control is either a relic of the cold war or a utopian dream about a denuclearized planet decades in the future But as Brookings scholars Steven Pifer and Michael O Hanlon argue in *The Opportunity* arms control can address some key security challenges facing Washington today and enhance both American and global security Pifer and O Hanlon make a compelling case for further arms control measures to reduce the nuclear threat to the United States and its allies to strengthen strategic stability to promote greater transparency regarding secretive nuclear arsenals to create the possibility for significant defense budget savings to bolster American credibility in the fight to curb nuclear proliferation and to build a stronger and more sustainable U S Russia relationship President Obama gave priority to nuclear arms control early in his first term and by all accounts would like to be transformational on these questions Can there be another major U S Russia arms treaty Can the tactical and surplus strategic nuclear warheads that have so far escaped controls be brought into such a framework Can a modus vivendi be reached between the two countries on missile defense And what of multilateral accords on nuclear testing and production of fissile materials for nuclear weapons Pifer and O Hanlon concisely frame the issues the background and the choices facing the president provide practical policy recommendations and put it all in clear and readable prose that will be easily understood by the layman
