

Having briefly covered radio theory, GMDSS and AIS, we will now look at what VHF radios are available. Although specific models are shown in the illustrations, I am not recommending any particular manufacturer. That is entirely your choice and will depend on your own preferences and recommendations from others. In practice, all VHF radios share many of the same features and nomenclature. Even the layout of the controls can be very similar.

A relatively new addition to the VHF market is the 'smart' radio which boasts an AIS transceiver, intuitive touchscreen operation, connectivity with smart phones, Wi-Fi, combined AIS and VHF display, GPS and more. It's probably more suited to large pleasure craft and comes at a price. You will not get much change from £2,000 for a 'basic' version.

All new VHF fixed radios include DSC but some older sets, and many handheld radios, do not. If your boating is mainly in local waters and your only requirement is to make an occasional call to your harbour master or marina or, of course, in the event of an emergency, you may opt for a relatively basic set or even just a handheld radio.

If you sail further afield and are likely to be in busy shipping areas such as the North Sea or English Channel, then the inclusion of AIS could be invaluable. In this case, a set which also has its own GPS receiver is a neat solution and makes for simple installation.

Not many VHF radios yet include an AIS transponder (receive and transmit), and they are quite expensive. However, you may feel that this offsets the need for a stand-alone AIS transceiver and all the associated connectivity.

Prices vary from less than £150 to well over £1,000. A good DSC radio with built-in AIS (receive-only) might set you back about £300. As ever you tend to get what you pay for. A 'bargain' radio may not be as robust or capable as more expensive alternatives.

Radios with various features.

Reeds Vhfdsc Handbook

Denise Bréhaut

Reeds Vhfdsc Handbook:

Reeds VHF/DSC Handbook Sue Fletcher, 2013-07-20 The Reed's VHF DSC Handbook is a user friendly guide that gets marine VHF radio users quickly up to speed with both the analogue and digital functions on the radio Sue Fletcher's straightforward explanations and tips describe the leisure craft VHF DSC radio system in detail and its place within GMDSS Since it was first published it has become the standard work on the subject Updated to take into account new developments and procedures it provides all the information required to pass the Short Range Certificate SRC which is compulsory for anyone using a VHF DSC radio radio procedure channel allocation VHF radio theory and more a full explanation of GMDSS including details on EPIRBs SARTs and Navtex an invaluable onboard reference The rescue authorities and commercial maritime world now rely almost entirely on DSC for initial contact so if you need help and want to be heard a marine VHF DSC radio is essential If you are looking for just one book to explain all marine VHF operating code and procedure you need look no further Packed with hints tips and sound advice it explains in the clearest possible way all one could wish to know about VHF present and future Yachting Monthly

Reed's VHF/DSC Handbook Sue Fletcher, 2002-11 This book is divided into two parts 1 Radio Theory which covers the principles of GMDSS the VHF DSC radio EPIRBs Navtex SARTs batteries antennas radio signals and VHF channel allocation 2 Radio Practice encompasses routine radio procedure programming the radio distress urgency and safety working all with sample screens that display the information as you would see it on a DSC radio Included at the end of each part of the book are a total of 75 questions with answers to help you to determine your level of understanding Throughout there are Tips on how to get more from your radio and the whole text is written with the layman in mind with minimal jargon and plenty of clear diagrams and tables to describe some of the more technical parts of the syllabus There is a great deal of useful information that you will find invaluable once you have obtained your licence and it will be a helpful book for brushing up your radio procedure at the start of each new boating season

Reeds VHF Handbook Andy Du Port, 2021-03-18 The Reeds VHF Handbook is an accessible user friendly but comprehensive guide to marine VHF radio that helps users quickly get up to speed with all the functions on their equipment Straightforward explanations and tips describe the leisure VHF DSC radio system in detail and its place within GMDSS This brand new book incorporates all the information required to pass the Short Range Certificate which is compulsory for anyone using a VHF DSC radio and forms part of the process of obtaining the Day Skipper qualification The book covers radio procedure channel allocation VHF radio theory and more along with a full explanation of GMDSS including details on EPIRBs SARTs and Navtex The Reeds VHF Handbook is an essential onboard reference and set to become the standard work on the subject
