Refiguring Authority E. Michael Gerli, 2014-10-17 In this wide ranging study E Michael Gerli shows how Cervantes and his contemporaries ceaselessly imitated one another glossing works dismembering and reconstructing them writing for and against one another while playing sophisticated games of literary one upmanship The result was that literature in late Renaissance Spain was often more than a simple matter of source and imitation It must be understood as a far more subtle palimpsest like process of forging endless series of texts from other texts thus linking closely the practices of reading writing and rewriting Like all major writers of the age Cervantes was responding not just to specific literary traditions but to a broad range of texts and discourses He expected his well read audience to recognize his sources and to appreciate their transformations The notion of writing as reading and reading as writing is thus central to an understanding of Cervantes literary invention As he created his works he constantly questioned and reconfigured the authority of other texts appropriating combining naturalizing and effacing them displacing them with his own themes images styles and beliefs Modern literary theory has confirmed what Cervantes and his contemporaries intuitively knew that reading and writing are closely linked dimensions of the literary enterprise Reading Cervantes and his contemporaries in this way enables us to comprehend the craft wit irony and subtle conceit that he at the heart of seventeenth century Spanish literature

The Immaterial Book Sarah Wall-Randell, 2013-10-28 In romances Renaissance England's version of the fantasy novel characters often discover books that turn out to be magical or prophetic and to offer insights into their readers selves The Immaterial Book examines scenes of reading in important romance texts across genres Spenser's Faerie Queene Shakespeare's

Cymbeline and The Tempest Wroth's Urania and Cervantes Don Quixote It offers a response to material book studies by calling for a new focus on imaginary or immaterial books and argues that early modern romance authors rather than replicating contemporary reading practices within their texts are reviving ancient and medieval ideas of the book as a conceptual framework which they use to investigate urgent new ideas about the self and the self-conscious mind

Baroque Spain and the Writing of Visual and Material Culture Alicia R Zuese, 2015-11-20 By examining the pictorial episodes in the Spanish baroque novella this book elucidates how writers create pictorial texts how audiences visualise their words what consequences they exert on cognition and what actions this process inspires To interrogate characters mental activity internalisation of text and the effects on memory this book applies methodologies from cognitive cultural studies Classical memory treatises and techniques of spiritual visualisation It breaks new ground by investigating how artistic genres and material culture help us grasp the audience's aural material visual and textual literacies which equipped the public with cognitive mechanisms to face restrictions in post Counter Reformation Spain The writers examined include prominent representatives of Spanish prose Cervantes Lope de Vega Mar a de Zayas and Luis V lez de Guevara as well as Alonso de Castillo Sol rzano Gonzalo de C spedes y Meneses and an anonymous group in C rdoba **Ekphrasis in the Age of Cervantes** Frederick Alfred De Armas, 2005 This collection of essays seeks to open up this complex interdisciplinary field of study by including essays on many aspects of visual writing in sixteenth and seventeenth century Spain Jacket **Ideologies of History in the Spanish Golden Age** Anthony J. Cascardi, 2010-11-01 **Cervantes's Novel of Modern Times** David Quint, 2018-06-05 This book offers a radically new reading of Don Quijote understanding it as a whole much greater than the sum of its famous parts David Quint discovers a unified narrative and deliberate thematic design in a novel long taught as the very definition of the picaresque and as a rambling succession of individual episodes Quint shows how repeated motifs and verbal details link the episodes often in surprising and heretofore unnoticed ways Don Quijote emerges as a work that charts and reflects upon the historical transition from feudalism to the modern times of a moneyed commercial society In Part One of the novel this change is measured in a shift in the nature of erotic desire and we find Don Quijote torn between his love for Dulcinea and his hopes to wed for wealth and social advancement In Part Two Don Quijote himself changes from anarchic madman to a gentler wiser hero a member of a middle class in the making Throughout Cervantes meditates on the literary form that he is inventing as a response to modernity questioning the novel's relationship to other genres and the place of heroism and imagination within stories of everyday life A new and coherent guide through the maze-like structure of Don Quijote this book invites readers to appreciate the perennial modernity of Cervantes's masterpiece a novel that confronts times not so distant from our own The Routledge Companion to Iberian Studies Javier Muñoz-Basols, Manuel Delgado Morales, Laura Lonsdale, 2017-03-16 This book provides a comprehensive state of the art account of the field reaffirming Iberian Studies as a dynamic and evolving discipline offering promising areas of future
