Reflections On A Pilgrimage Six Decades Of Service:

Reflections on a Pilgrimage Theodore Wilhelm Engstrom, 1999 *Reflections on a Pilgrimage* is sweeping personal recollection of Dr Engstrom's six decades of ministry. In this memoir Dr Engstrom shares the personal excitement and spiritual adventure of ministering in 136 countries around the world.

Religion in Philanthropic Organizations Thomas J. Davis, 2021-12-22 *Religion in Philanthropic Organizations* explores the tensions inherent in religious philanthropies across a variety of organizations and examines the effect assumptions about professional philanthropy have had on how religious philanthropies carry out their activities. Among the organizations discussed are the Salvation Army, the World Council of Churches, and Catholic Charities USA. The essays focus on the work of one individual, Robert Pierce, founder of World Vision and Samaritan's Purse, and on more general matters such as philanthropy and Jewish identity, American Muslim philanthropy since 9/11, and the federal program that funds faith-based initiatives. The book sheds light on how religion and philanthropy function in American society, shaping and being shaped by the culture and its notions of the common good.

God's Internationalists David P. King, 2019-05-31 Over the past seventy years, World Vision has grown from a small missionary agency to the largest Christian humanitarian organization in the world, with 40,000 employees, offices in nearly one hundred countries, and an annual budget of over 2 billion. While founder Bob Pierce was an evangelist with street smarts, the most recent World Vision U.S. presidents move with ease between megachurches, the boardrooms of Fortune 500 companies, and the corridors of Capitol Hill. Though the organization has remained decidedly Christian, it has earned the reputation as an elite international nongovernmental organization managed efficiently by professional experts fluent in the language of both marketing and development. *God's Internationalists* is the first comprehensive study of World Vision or any such religious humanitarian agency. In chronicling the organization's transformation from 1950 to the present, David P. King approaches World Vision as a lens through which to explore shifts within post-World War II American evangelicalism, as well as the complexities of faith-based humanitarianism. Chronicling the evolution of World Vision's practices, theology, rhetoric, and organizational structure, King demonstrates how the organization rearticulated and retained its Christian identity even as it expanded beyond a narrow American evangelical subculture. King's pairing of American evangelicals' interactions abroad with their own evolving identity at home reframes the traditional narrative of modern American evangelicalism while also providing the historical context for the current explosion of evangelical interest in global social engagement. By examining these patterns of change, *God's Internationalists* offers a distinctive angle on the history of religious humanitarianism.

Church on the Edge of Somewhere George B. Thompson Jr., 2007-11-19 Most congregations today exist in what George Thompson calls the middle of anywhere. They live comfortably with their surrounding culture, focusing their energies on serving the needs of their current members. These congregations have many strengths and gifts that they can exercise without changing a thing. But Thompson

envision a deeper more prophetic call for congregations to explore the meaning of being in the world but not of it a church on the edge of somewhere Thompson sees a church that is deeply engaged in ministering to the community while calling on others to commit to doing the same By analyzing the interaction between a congregation's focus of identity and their stance with the world Thompson has created a helpful grid for congregations to place themselves on today's cultural map A congregation that sees itself as existing on the margins of society will look different than one that sees itself as embedded in society A congregation that hears a call to serve the surrounding community will look different from one that focuses on its internal needs Knowing where they stand now is the key for congregations to discover where they must go in the future to fully live out their call to be God's people in the world **Religion in the Lands That Became America** Thomas A.

Tweed, 2025-05-13 A sweeping retelling of American religious history showing how religion has enhanced and hindered human flourishing from the Ice Age to the Information Age Until now the standard narrative of American religious history has begun with English settlers in Jamestown or Plymouth and remained predominantly Protestant and Atlantic Driven by his strong sense of the historical and moral shortcomings of the usual story Thomas A Tweed offers a very different narrative in this ambitious new history He begins the story much earlier 11 000 years ago at a rock shelter in present day Texas and follows Indigenous Peoples African Americans transnational migrants and people of many faiths as they transform the landscape and confront the big lifeway transitions from foraging to farming and from factories to fiber optics Setting aside the familiar narrative themes he highlights sustainability showing how religion both promoted and inhibited individual communal and environmental flourishing during three sustainability crises the medieval Cornfield Crisis which destabilized Indigenous ceremonial centers the Colonial Crisis which began with the displacement of Indigenous Peoples and the enslavement of Africans and the Industrial Crisis which brought social inequity and environmental degradation The unresolved Colonial and Industrial Crises continue to haunt the nation Tweed suggests but he recovers historical sources of hope as he retells the rich story of America's religious past Masonic Standard ,1902 The Athenaeum ,1913
