Reformation Or Revolution, Which? Or, Behind the Political Scenes Victoria Claflin Woodhull, 1873 **Reformation and Revolution 1558-1660** Robert Ashton, 1985 **From the Communal Reformation to the Revolution of the Common Man** Peter Blicke, 2021-10-11

From the Communal Reformation to the Revolution of the Common Man brings together important studies related to a coherent interpretation of the Reformation and the Peasants War of 1525 as a mass movement rooted in the structures of the communities of towns and villages The volume presents both detailed studies from the archives and conceptualized essays

Reformation Europe De Lamar Jensen, 1981 **Revolution as Reformation** Peter C. Messer, William Harrison Taylor, 2021-01-19 Essays that explore how Protestants responded to the opportunities and perils of revolution in the transatlantic age *Revolution as Reformation* Protestant Faith in the Age of Revolutions 1688 1832 highlights the role that Protestantism played in shaping both individual and collective responses to revolution These essays explore the various ways that the Protestant tradition rooted in a perpetual process of recalibration and reformulation provided the lens through which Protestants experienced and understood social and political change in the Age of Revolutions In particular they call attention to how Protestants used those changes to continue or accelerate the Protestant imperative of refining their faith toward an improved vision of reformed religion The editors and contributors define faith broadly they incorporate individuals as well as specific sects and denominations and as much of life experience as possible not just life within a given church In this way the volume reveals how believers combined the practical demands of secular society with their personal faith and how in turn

their attempts to reform religion shaped secular society The wide ranging essays highlight the exchange of Protestant thinkers traditions and ideas across the Atlantic during this period These perspectives reveal similarities between revolutionary movements across and around the Atlantic The essays also emphasize the foundational role that religion played in people s attempts to make sense of their world and the importance they placed on harmonizing their ideas about religion and politics These efforts produced novel theories of government encouraged both revolution and counterrevolution and refined both personal and collective understandings of faith and its relationship to society The Renaissance, the Protestant Revolution and the Catholic Reformation in Continental Europe Edward Maslin Hulme,1914 **Reformation, Revolution and Rebirth** John Mullaney,Lindsay Mullaney,2012 **Philosophies of Nature: The Human Dimension** Robert S.
