Forcibly Displaced World Bank, 2017-07-14 The Syrian refugee crisis has galvanized attention to one of the world's foremost challenges forced displacement The total number of refugees and internally displaced persons now at over 65 million continues to grow as violent conflict spikes This report *Forcibly Displaced Toward a Development Approach* Supporting Refugees the Internally Displaced and Their Hosts produced in close partnership with the United Nations High Commissioner for Refugees UNHCR attempts to sort fact from fiction to better understand the scope of the challenge and encourage new thinking from a socioeconomic perspective The report depicts the reality of forced displacement as a developing world crisis with implications for sustainable growth 95 percent of the displaced live in developing countries and over half are in displacement for more than four years To help the displaced the report suggests ways to rebuild their lives with dignity through development support focusing on their vulnerabilities such as loss of assets and lack of legal rights and opportunities It also examines how to help host communities that need to manage the sudden arrival of large numbers of displaced people and that are under pressure to expand services create jobs and address long standing development issues Critical to this response is collective action As work on a new Global Compact on Responsibility Sharing for Refugees progresses the report underscores the importance of humanitarian and development communities working together in complementary ways to support countries throughout the crisis from strengthening resilience and preparedness at the onset to creating lasting solutions

People Forced to Flee United Nations High Commissioner for Refugees, 2022-02-16 People in danger have received protection in communities beyond their own from the earliest times of recorded history The causes war conflict violence persecution natural disasters and climate change are as familiar to readers of the news as to students of the past It is 70 years since nations in the wake of World War II drew up the landmark 1951 Convention relating to the Status of Refugees *People Forced to Flee* marks this milestone It is the latest in a long line of publications stretching back to 1993 that were previously entitled *The State of the World's Refugees* The book traces the historic path that led to the 1951 Convention showing how history was made by taking the centuries old ideals of safety and solutions for refugees to global practice It maps its progress during which international protection has reached a much broader group of people than initially envisaged It examines international responses to forced displacement within borders as well as beyond them and the protection principles that apply to both It reviews where they have been used with consistency and success and where they have not At times the strength and resolve of the international community seems strong yet solutions and meaningful solidarity are often elusive Taking stock today at this important anniversary is all the more crucial as the world faces increasing forced displacement Most is experienced in low and middle income countries and persists for generations People forced to flee face barriers to improving their lives contributing to the communities in which they live and realizing solutions Everywhere an effective response depends on the commitment to international cooperation set down in the 1951 Convention

a vision often compromised by efforts to minimize responsibilities There is growing recognition that doing better is a global imperative Humanitarian and development action has the potential to be transformational especially when grounded in the local context *People Forced to Flee* examines how and where increased development investments in education health and economic inclusion are helping to improve socioeconomic opportunities both for forcibly displaced persons and their hosts In 2018 the international community reached a Global Compact on Refugees for more equitable and sustainable responses It is receiving deeper support *People Forced to Flee* looks at whether that is enough for what could and should help define the next 70 years *People Forced to Flee* Ninette Kelley,2022 There are today some 60 million people who have fled their homes because of persecution and conflict This is the highest number ever recorded These people suffer exile that will likely last for years and even whole lifetimes both present and future The unprecedented scale and duration of forced displacement provide unsettling points of departure for the 2016 edition of *The State of the World's Refugees* Covering the years since 2012 this volume is the seventh in a series of flagship publications by the Office of the United Nations High Commissioner for Refugees UNHCR This book draws upon expert analysis as well as UNHCR's direct experience to shed light on the root causes and consequences of the current humanitarian and development crisis Its eleven chapters examine the world's evolving efforts to finance plan and implement basic human rights protections amidst a recent spate of complex emergencies Updated data maps and case studies examine persistent challenges such as limited access to asylum abroad protection gaps at home for internally displaced persons the devastating consequences of statelessness and the troubling elusiveness of durable solutions This book also highlights the widespread impact of climate change as well as innovations in how humanitarian operations are designed and conducted Over 65 years after UNHCR was established *A World in Turmoil* reveals why its work remains more relevant and urgent than ever **Handbook of Refugee Health** Miriam Orcutt,Clare Shortall,Sarah Walpole,Aula Abbara,Sylvia Garry,Rita Issa,Alimuddin Zumla,Ibrahim Abubakar,2021-12-17 This book helps to recognize the rights of refugees and provides a framework to identify and approach health needs from basic elements like service mapping and initial interventions to more complex elements of ongoing healthcare and support and broader topics such as migration public health migration policy and health systems Beyond biomedical frameworks it draws on socio-ecological models to inform assessments and integrated models of care to improve health and health equity Set out in three comprehensive sections public health theory Part 1 applied public health Part 2 and clinical approaches Part 3 this book draws on multiple disciplines and insights from humanitarians academics policy experts and clinicians from diverse contexts with expertise in forced migration to create an accessible reference tool to inform healthcare professionals interactions with forcibly displaced individuals and populations in all contexts for both high and low resource countries Apart from providing information across the spectrum of health issues clinical specialties and global contexts it discusses associated areas including human rights and law public health medical anthropology and cultural awareness Key Features Bridges the gap

between existing academic literature on refugee health and guidelines for health management in humanitarian emergencies Helps to develop an integrated approach to healthcare provision allowing healthcare professionals and humanitarians to adapt their specialist knowledge for use in forced migration contexts and with refugees Recognizes the complex and interconnected needs in displacement scenarios and identifies holistic and systems based approaches Covers public health theory applied public health and clinical aspects of forced migration

Refugees and the Ethics of Forced Displacement Serena Parekh,2016-11-25 This book is a philosophical analysis of the ethical treatment of refugees and stateless people a group of people who though extremely important politically have been greatly under theorized philosophically The limited philosophical discussion of refugees by philosophers focuses narrowly on the question of whether or not we as members of Western states have moral obligations to admit refugees into our countries This book reframes this debate and shows why it is important to think ethically about people who will never be resettled and who live for prolonged periods outside of all political communities Parekh shows why philosophers ought to be concerned with ethical norms that will help stateless people mitigate the harms of statelessness even while they remain formally excluded from states The Open Access version of this book available at <https://doi.org/10.4324/9781315883854> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
