Cold War and assesses its prospects in the light of the global economic downturn. Arguing that the present inter-state system was shaped from the outset by Washington's drive to maintain its status as global hegemon, Gowan dissects several cherished myths of the liberal mainstream, offering a radical counter-history of the UN and a sharp critique of the West's interventions in the Balkans. He provides a forceful response to advocates of a new cosmopolitanism and engages with neo-realist theories of international relations, asking whether the US invasions of Iraq and Afghanistan have resulted in a crisis for their visions of American power and discussing what the lineaments of a future order might be. Closing with an interview conducted just before his death, which discusses his life's work, *A Calculus of Power* is a penetrating look at contemporary world politics by one of the most renowned thinkers of the New Left.
