Regionalism In The New Asiapacific Order Vol 2:

Regionalism in the New Asia-Pacific Order Joseph A. Camilleri, 2003-01-01 Regionalism in the Asia Pacific is a complex and rapidly evolving phenomenon This volume explores the relationship between globalization and regionalization between states markets and civil society and between US hegemony and Asian aspirations **Contested Ideas of Regionalism in Asia** Baogang He, 2016-09-13 Deepening regionalism in Asia demands new leadership Strong elites who are committed to a supranational identity are a minimum requirement of successful regionalism Regional leaders are increasingly seen as a new set of leaders in Europe Currently Asian regional leaders largely come from the diplomacy community or trade and economic sectors Yet further regionalization demands a new type of leadership from civil society and citizens In this context it is important to cultivate new regional leadership through the development of regional citizenship This book examines contested ideas of regionalism in Asia with a particular focus on two competing ideas of pan Asianism and Pacificism It also identifies a new trend and contestation the fundamental shift from a civilization understanding of regionalism to a technocratic and functional understanding of regionalism in the form of regulatory regionalism It also examines the other contested imaginations of regionalism in Asia including elitist versus participatory approaches to regionalism and democracy centric versus nationalism centric approaches to regionalism *Regionalism in East Asia* Fu-kuo Liu, Philippe Regnier, 2013-10-18 Regional cooperation and integration have emerged as key issues for East Asia following the financial crisis This book explores these issues and examines the degree to which a new paradigm is emerging It reviews the evolution of the concepts and practices of regionalism in East Asia and considers the factors which are shaping new patterns of regional co operation and integration It includes discussions of historical developments economic co operation socio political factors and defence and security It considers the role of those states including China and Japan which have distinctive approaches to international relations and assesses the role of regional international bodies such as ASEAN **Strategy and Security in the Asia-Pacific** Robert Ayson, Desmond Ball, 2020-07-25 From the war on terror to the rise of China this book unlocks the major strategic themes and security challenges of the early twenty first century Strategy and Security in the Asia Pacific provides the analytical frameworks needed to make sense of this complex but exciting strategic universe Offering a unique mix of global strategic thinking and Asia Pacific security analysis this book is for readers from Sydney to Seoul who want to put their own local security challenges in a wider regional and global context It is also for North American and European readers requiring an understanding of the dynamic security developments in the Asia Pacific region around which so much of global strategy is increasingly based The really vital questions facing the international community are dealt with here Why do governments and groups still use armed force Has warfare really changed in the information age Why should we be concerned about non traditional security challenges such as water shortages and the spread of infectious disease Is a great clash imminent between the United States and China What are the prospects for peace on the Korean peninsula and between

India and Pakistan Can Southeast Asia survive the challenges of transnational terrorism What does security mean for the Pacific island countries and for Australia and New Zealand With contributions from leading commentators and analysts Strategy and Security in the Asia Pacific offers a comprehensive and authoritative introduction to the field *The Future of Global Relations* T. Paupp,2009-06-22 The collapse of US global hegemony means that the future of global relations will be defined by an integrated and mutually co operative world order of regions in which there are multiple centres of power These centres will continue to mature under the ideology of regionalism and through the long historical process of regionalization

China's Multilateral Co-operation in Asia and the Pacific Chien-peng Chung,2010-06-24 The leaders and bureaucrats of China have actively attended initiated promoted or made skilful use of regional multilateral political economic and security institutions to accelerate regional cooperation and integration with neighboring states convince Asian states that China s rise will not threaten the regional order and their national interests and exploit its role and diplomacy in the Asia Pacific as a launch pad for greater influence in world affairs This book examines why and to what extent China wishes to promote accelerate delay or overcome constraints to the institutionalization of these regional organizations It explores the meaning scope and repercussion in the drive that a rising China has for institutionalizing multilateral cooperative processes in the Asia Pacific region the extent to which its actions are motivated by concerns of politics economics or security and the obstacles it faces for so doing These arrangements have varying effect on the diplomatic postures economic development and strategic orientation of countries in Asia and the Western Pacific and hence the stability and prosperity of the entire region China s Multilateral Co operation in Asia and the Pacific will be of interest to those studying the politics and international relations of China and the Asia Pacific region **Rivalry And Cooperation In The Asia-pacific: The Dynamics Of A Region In Transition (In 2 Volumes)** Mark Beeson,2019-09-23 Rivalry and Cooperation in the Asia Pacific provides a comprehensive and accessible introduction to the most important strategic and economic region in the world Asia Pacific is a region that is undergoing a major transformation largely as a consequence of the rise of China and its growing rivalry with the United States Whatever happens in the Asia Pacific will profoundly influence global events not just regional ones Looking ahead the region s future direction and even its name is contested and uncertain This two volume reference work by one of the world s leading analysts of regional affairs places these events in historical context and considers what they may mean for future political economic and strategic relations By focusing on the United States China and the region s most significant middle powers the book explains why and how the Asia Pacific has become the fulcrum of international events *India as an Asia Pacific Power* David Brewster,2012-03-12 The emergence of India as a regional and potentially global power is forcing us to rethink our mental map of the Asia Pacific We are only just beginning to discern how India may alter the global economic landscape How will the rise of India change the strategic landscape of Asia and beyond This book provides a comprehensive assessment of India s international relations in the Asia Pacific a region which has not traditionally been

understood to include India It examines India's strategic thinking about the Asia Pacific its relationships with China and the United States and India's increasingly close security ties with other major countries in the region It considers the consequences of India's rise on the Asia Pacific strategic order and asks whether India is likely to join the ranks of the major powers of the Asia Pacific in coming years *Regionalism in International Law* Ján Klučka, 2017-12-01 International Law

Aspects of Regionalism evaluates regionalism in its various relationships and forms with respect to international law as well as the importance and duties of international law in respect to the establishment and functioning of various forms of regional groups A great deal of attention has been paid to regionalism from the global political economic security aspects but a complex evaluation of the impact it has had on international law and vice versa is still lacking The main purpose of this volume is to eliminate this gap and present the latest state of knowledge on the topic This text will be of interest both to students at an advanced level academics and reflective practitioners It addresses the topics with regard to international law and regionalism and will be of interest to academics dealing with legal aspects of current regionalism and for the specialized courses in the faculties of law as well as anyone studying diplomacy and international studies international relations regional integration law EU law international law and international relations **Asia-Pacific Geopolitics** Joseph A. Camilleri, 2007-01-01 Despite significant cultural exchange mutual trust and understanding remains fragile between Asia Pacific countries The community faces complex and seemingly intractable problems violent civil conflicts geopolitical tensions and economic uncertainties proliferation of nuclear weapons and flashpoints that may lead to war The authors of this book argue that common reflection and dialogue is imperative Their achieved aim is to bring together distinguished scholars and experts on public policy social ethics defence human security and sustainability to consider the future of the Asia Pacific region and appropriate responses by both states and civil society The Making of Northeast Asia Kent Calder, Min Ye, 2010-08-16 Northeast Asia where the interests of three major nuclear powers and the world's two largest economies converge around the unstable pivot of the Korean peninsula is a region rife with political economic paradox It ranks today among the most dangerous areas on earth plagued by security problems of global importance including nuclear and missile proliferation Yet despite its insecurity the region has continued to be the most rapidly growing on earth for over five decades and it is emerging as an identifiable economic political and strategic region in its own right As the locus of both economic growth and political military uncertainty in Asia has moved further to the Northeast a need has developed for a book that focuses analytically on prospects for Northeast Asian cooperation within the context of both Asia and the Asia Pacific regional relationship This book does exactly that while also offering a more general theory for Asian institution building *The Routledge Handbook of Asian Security Studies* Sumit Ganguly, Andrew Scobell, Joseph Chinyong Liow, 2017-10-23 The Routledge Handbook of Asian Security Studies provides a detailed exploration of security dynamics in the three distinct subregions that comprise Asia and also bridges the study of these regions by exploring the geopolitical

links between each of them The Handbook is divided into four geographical parts Part I Northeast Asia Part II South Asia Part III Southeast Asia Part IV Cross regional Issues This fully revised and updated second edition addresses the significant developments which have taken place in Asia since the first edition appeared in 2009 It examines these developments at both regional and national levels including the conflict surrounding the South China Sea the long standing Sino Indian border dispute and Pakistan s investment in tactical nuclear weapons amongst many others This book will be of great interest to students of Asian politics security studies war and conflict studies foreign policy and international relations generally

Track 2 Diplomacy in Asia Brendan Taylor,Anthony Crothers Milner,Desmond Ball,2006 *Contentious Integration* Chien-peng Chung,2016-05-13 The Asian Pacific is now one of the most important regions in the global system where the interplay of integrative economic geo political and sociocultural processes provide increasing scope for regional leadership to be exercised particularly by China and Japan This book studies the relationship between the People s Republic of China and Japan as the basis of the construction and maintenance of economic and security arrangements in this region It explains how these arrangements have been challenged by the occasionally testy ties between these two major Asian powers and explores their dynamic interactions in promoting their own agenda and ambitions and obstructing that of the other s in contending for leadership of East Asia In so doing it highlights the complex interdependence and competitiveness of China and Japan with careful observation from the United States This book provides practical guidance for foreign policymaking in China Japan and the United States and makes theoretical inferences for the study of Sino Japanese relations regional integration and international relations generally **East Asia and the Trials of Neo-Liberalism** Kevin Hewison,Richard
