Reinventing Peacekeeping In Africa:

Reinventing Peacekeeping in Africa F. Olonisakin, 2021-07-26 The euphoric cries of a peaceful and more dynamic new world order which followed the end of the Cold War have been silenced by the increased intensity of local conflicts around the world The humanitarian crises resulting from these conflicts have attracted greater international attention Perhaps even more tragic is the failure of the international community to find early effective response to these conflicts which have profound security implications for the affected regions and have led to the collapse of state structures in some cases The intra state conflicts in Africa alone have claimed over one million lives since 1990 On the international scene these internal conflicts have created new challenges for the UN whose efforts at dealing with them have produced mixed results whilst international policy makers the military and academics are faced with difficult questions Can traditional peacekeeping be stretched to accommodate this class of conflict What is the legal basis for these operations Attempts to answer these questions at the conceptual level have led to the development of concepts such as second generation peacekeeping wider peacekeeping peace support operations and strategic peacekeeping It has emerged that there is no common view on an effective and realistic set of tools to manage these crises Perhaps the most significant point to arise from the differing conceptual views presently is that an effective approach and sound legal basis have not been found for dealing with recalcitrant internal conflicts in far away regions which are not high on the strategic considerations of the great powers This book reconsiders the role of the UN and regional organisations such as ECOWAS in Africa It examines the response to the civil war in Liberia which served as a precursor to the international response to the crisis in Sierra Leone On the one hand this book offers an analysis of a new conceptual framework for managing a specific class of violent conflict On the other hand it provides first hand account of the character of a force that attempted to apply this approach In drawing some of its conclusions the book relies on the testimonies of many of the soldiers who formed the core of the military operations in these difficult conflict areas in West Africa

Reinventing Peacekeeping in Africa: Conceptual and Legal Issues in ECOMOG Operations 'Funmi Olonisakin, 2000-03-17 The euphoric cries of a peaceful and more dynamic new world order which followed the end of the Cold War have been silenced by the increased intensity of local conflicts around the world The humanitarian crises resulting from these conflicts have attracted greater international attention Perhaps even more tragic is the failure of the international community to find early effective response to these conflicts which have profound security implications for the affected regions and have led to the collapse of state structures in some cases The intra state conflicts in Africa alone have claimed over one million lives since 1990 On the international scene these internal conflicts have created new challenges for the UN whose efforts at dealing with them have produced mixed results whilst international policy makers the military and academics are faced with difficult questions Can traditional peacekeeping be stretched to accommodate this class of conflict What is the legal basis for these operations Attempts to answer these questions at the

conceptual level have led to the development of concepts such as second generation peacekeeping wider peacekeeping peace support operations and strategic peacekeeping It has emerged that there is no common view on an effective and realistic set of tools to manage these crises Perhaps the most significant point to arise from the differing conceptual views presently is that an effective approach and sound legal basis have not been found for dealing with recalcitrant internal conflicts in far away regions which are not high on the strategic considerations of the great powers This book reconsiders the role of the UN and regional organisations such as ECOWAS in Africa It examines the response to the civil war in Liberia which served as a precursor to the international response to the crisis in Sierra Leone On the one hand this book offers an analysis of a new conceptual framework for managing a specific class of violent conflict On the other hand it provides first hand account of the character of a force that attempted to apply this approach In drawing some of its conclusions the book relies on the testimonies of many of the soldiers who formed the core of the military operations in these difficult conflict areas in West Africa

Soldiers in Revolt Maggie Dwyer, 2018-02-01 Soldiers in Revolt examines the understudied phenomenon of military mutinies in Africa Through interviews with former mutineers in Sierra Leone Burkina Faso and The Gambia the book provides a unique and intimate perspective on those who take the risky decision to revolt This view from the lower ranks is key to comprehending the internal struggles that can threaten a military's ability to function effectively Maggie Dwyer's detailed accounts of specific revolts are complemented by an original dataset of West African mutinies covering more than fifty years allowing for the identification of trends Her book shows the complex ways mutineers often formulate and interpret their grievances against a backdrop of domestic and global politics Just as mutineers have been influenced by the political landscape so too have they shaped it Mutinies have challenged political and military leaders spurred social unrest led to civilian casualties threatened peacekeeping efforts and in extreme cases resulted in international interventions Soldiers in Revolt offers a better understanding of West African mutinies and mutinies in general valuable not only for military studies but for anyone interested in the complex dynamics of African states

report In Larger Freedom 2005 in which the UN adopted the concept African agency in international relations has not always been captured proactively This volume seeks to document Africa and African states in a state of proactivity as opposed to a reactionary mode of international relations which has long been the case due to the discipline s heavy concentration on the West The main themes explored are African agency in international relations and commerce agency in Africa s balancing of big and regional powers reshaping Africa EU relations beyond the Cotonou Agreements Africa and international human rights institutions African efforts in elections and conflicts in Africa and relationship building among African leaders

Legitimacy and the Use of Armed Force Chiyuki Aoi, 2010-10-04 This book examines the concept of legitimacy as it may be used to explain the success or failure of key stability operations since the end of the Cold War In the success of stability operations legitimacy is key In order to achieve success the intervening force must create a sense of legitimacy of the mission among the various constituencies concerned with and involved in the venture These parties include the people of the host nation the host government whose relations with the local people must be legitimate political elites and the general public worldwide including the intervening parties own domestic constituencies who will sustain or not sustain the intervention by offering or withdrawing support This book seeks to bring into close scrutiny the legitimacy of stability interventions in the post Cold War era by proposing a concept that captures both the multi faceted nature of legitimacy and the process of legitimation that takes place in each case Case studies on Liberia Bosnia Somalia Rwanda Afghanistan and Iraq explain how legitimacy related to the outcome of these operations This book will be of much interest to students of stability operations counterinsurgency peace operations humanitarian intervention and IR security studies in general

British Foreign Policy and the Conflict in Sierra Leone, 1991-2001 Michael S. Kargbo, 2006 This book critically examines the content of British policy towards Sierra Leone from the outbreak of conflict there in 1991 to its official conclusion in 2001 It attempts to find answers to why Britain s New Labour government pursued a more proactive policy in Sierra Leone than its Conservative predecessors This is done by means of traditionalist but especially transformationalist theoretical approaches Analysis is made of the influence of major international organisations on British policy towards the Sierra Leone conflict as well as the impact of other important states As foreign policy is not created in a vacuum analysis is

also made of the impact of the domestic setting especially bureaucratic institutions The Use of Force in International Law
Tom Ruys, Olivier Corten, Alexandra Hofer, 2018-04-26 The international law on the use of force is one of the oldest branches of international law It is an area twinned with the emergence of international law as a concept in itself and which sees law and politics collide The number of armed conflicts is equal only to the number of methodological approaches used to describe them Many violent encounters are well known The Kosovo Crisis in 1999 and the US led invasion of Iraq in 2003 spring easily to the minds of most scholars and academics and gain extensive coverage in this text Other conflicts including the Belgian operation in Stanleyville and the Ethiopian Intervention in Somalia are often overlooked to our peril Ruys and Corten s expert written text compares over sixty different instances of the use of cross border force since the adoption of the UN Charter in 1945 from all out warfare to hostile encounters between individual units targeted killings and hostage rescue operations to ask a complex question How much authority does the power of precedent really have in the law of the use of force
