Reinventing The Wheels Fords Spectacular Comeback:

Reinventing the Wheels Alton F. Doody, Ron Bingaman, 1990

Bingaman, 1990 In the early 1980s Ford Motor Company teetered on the brink of collapse Here is the dramatic behind the scenes story of the most impressive turnaround in recent American business history **Surviving Transformation** Vincent P. Barabba, 2004-08-26 How did a major corporation manage to turn itself around while Wall Street and others continued to predict its slow death The answer may surprise you and it provides a model for corporate transformation for any company or government agency operating in a world of accelerating change The company is General Motors and this book tells how it was able to change the way important decisions were made leading to resurgence in business across its many product lines At the beginning of the 1990s GM was perceived by nearly everyone as falling behind its competitors at an alarming rate By the beginning of the twenty first century though the company had come storming back with successful new automobiles and new business concepts that captured new markets while simultaneously holding on to many of its existing customers What GM did is not just the story of a single automaker but rather a compelling insight into an approach for any business organization that is faced with the need for a true transformation As many companies have discovered efforts at transformation too often fail GM s successful transformation illustrates the importance of management s ability to change its mindset and make the tough decisions that revitalize business with bold new products and business concepts At the heart of successful transformation is the imagination courage and leadership required to visualize the kind of company an organization wants to become and then work toward that goal With the destination set and understood by those who will need to implement the changes decision makers find it less difficult to overcome impediments to achieving their goal while finding creative ways of doing what may seem impossible The lessons from GMs turnaround can help any business organization change and keep pace with today s turbulent marketplace **Work in America** Carl E. Van Horn, Herbert A. Schaffner, 2003-12-15 The first comprehensive analysis of work and the workforce in the United States from the Industrial Revolution to the era of globalization This comprehensive two volume reference book is the first to analyze the central role of work and the workforce in U S life from the Industrial Revolution through today s information economy Drawing on a variety of disciplines economics public policy law human and civil rights cultural studies and organizational psychology its 256 entries examine key events concepts institutions and individuals in labor history Entries also tackle tough contemporary questions that reflect the conflicts inherent in capitalism What is the impact of work on families and communities On minority and immigrant populations How shall we respond to changing work roles and the growing influence of the transnational corporation Work in America describes and evaluates attempts to address social and class issues affirmative action occupational health and safety corporate management science and trade unionism and organized labor and offers the kind of comprehensive understanding needed to discover workable solutions **The Female Advantage** Sally

Helgesen,2011-03-09 Now in Currency paperback Sally Helgesen's classic study of female leaders and how their strategies represent a highly successful revision of male leadership styles Sixty thousand copies in print In her bestselling 1990 book Sally Helgesen discovered that men and women approach work in fundamentally different ways Many of these differences hold distinct advantages for women who excel at running organizations that foster creativity cooperation and intuitive decision making power necessities for companies of the twenty first century Helgesen's findings reveal that organizations run by women do not take the form of the traditional hierarchical pyramid but more closely resemble a web where leaders reach out not down to form an interrelating matrix built around a central purpose The strategy of the web concentrates power at the center by drawing others closer and by creating communities where information sharing is essential She presents her findings through unique closely detailed accounts of four successful women business leaders Frances Hesselbein of Girl Scouts USA Barbara Grogan of Western Industrial Contractors Nancy Badore of Ford Motor Company's Executive Development Center and Dorothy Brunson of Brunson Communications Helgesen observes their meetings listens to their phone calls and conferences and reads their correspondence Her diary studies document how women leaders make decisions schedule their days gather and disperse information motivate others delegate tasks structure their companies hire and fire She chronicles how their experiences as women wives mothers friends sisters daughters contribute to their leadership style
