Haupt, 2011-12-08 This comparative analysis of the constitutional law of religion state relations in the United States and Germany focuses on the principle of state neutrality A strong emphasis on state neutrality a notoriously ambiguous concept is a shared feature in the constitutional jurisprudence of the US Supreme Court and the German Federal Constitutional Court but neutrality does not have the same meaning in both systems In Germany neutrality tends to indicate more distance between church and state whereas the opposite is the case in the United States Neutrality also has other meanings in both systems making straightforward comparison more difficult than it might seem Although the underlying trajectory of neutrality is different in both countries the discussion of neutrality breaks down into largely parallel themes By examining those themes in a comparative perspective the meaning of state neutrality in religion state relations can be delineated

History and Its Limits Dominick LaCapra, 2011-02-23 Dominick LaCapra's *History and Its Limits* articulates the relations among intellectual history cultural history and critical theory examining the recent rise of Practice Theory and probing the limitations of prevalent forms of humanism LaCapra focuses on the problem of understanding extreme cases specifically events and experiences involving violence and victimization He asks how historians treat and are simultaneously implicated in the traumatic processes they attempt to represent In addressing these questions he also investigates violence's impact on various types of writing and establishes a distinctive role for critical theory in the face of an insufficiently discriminating aesthetic of the sublime often unreflectively amalgamated with the uncanny In *History and Its Limits* LaCapra inquires into the related phenomenon of a turn to the postsecular even the messianic or the miraculous in recent theoretical discussions of extreme events by such prominent figures as Giorgio Agamben Eric L Santner and Slavoj Žižek In a related vein he discusses Martin Heidegger's evocative if not enchanting understanding of *The Origin of the Work of Art* LaCapra subjects to critical scrutiny the sometimes internally divided way in which violence has been valorized in sacrificial regenerative or redemptive terms by a series of important modern intellectuals on both the far right and the far left including Georges Sorel the early Walter Benjamin Georges Bataille Frantz Fanon and Ernst Jünger Violence and victimization are prominent in the relation between the human and the animal LaCapra questions prevalent anthropocentrism evident even in theorists of the posthuman and the long standing quest for a decisive criterion separating or dividing the human from the animal LaCapra regards this attempt to fix the difference as misguided and potentially dangerous because it renders insufficiently problematic the manner in which humans treat other animals and interact with

the environment In raising the issue of desirable transformations in modernity History and Its Limits examines the legitimacy of normative limits necessary for life in common and explores the disconcerting role of transgressive initiatives beyond limits including limits blocking the recognition that humans are themselves animals **Philosophy of Religion in Latin**

America and Europe Michael Schulz,Roberto Hofmeister Pich,2021-04-12 The title of this publication suggests a double meaning on the one hand most of the contributions outline philosophies of religion relevant for Latin America without however betraying an explicit Latin American perspective Does not philosophical reason always articulate itself in the same way whether in Berlin or Rio de Janeiro On the other hand the title refers to a specific form of philosophy that has developed regionally and bears explicit traces of its origins that differentiate it from philosophy in Europe Does not philosophical reason always articulate itself in a specific cultural context The charm of the book lies in the encounter of these two variants to think philosophically **Iroquois Religion and Its Relation to Their Morals** Morris Wolf,1919 **Library of Congress**

Religions & Philosophy Andreas Sofroniou,2018-08-09 THEOLOGY RELATIONSHIP OF RELIGIONS AND PHILOSOPHY Theological functions and interests imply that theology can master the disciplines with which it is confronted Theology is based on authority revelation as documented in scriptures of various religions philosophical philological historical studies and hermeneutical critical interpretive questions Theological tasks broaden into a concern with the history and traditions of religions With such approaches difficult and controversial questions arise whether and to what extent the scriptural standards of the sources of revelation are modified by traditions These problems play an important part in the relationship of people cultures and their political philosophies Thus the question of truth posed by theology requires the constitution of a discipline that specifically concerns itself with fundamental questions as is in systematic theology *Library of Congress*
