Relationship Between Scholars and Rulers in Imperial China Kai-fu Tsao,1984 The Relationship Between Scholars and Rulers in Imperial China Kai-fu Tsao,1984 **Relationship Between Scholars and Rulers in Imperial China** Kai-fu Tsao,1983-12-07 *Tribute System and Rulership in Late Imperial China* Ralph Kauz,Morris Rossabi,2022-04-11 Demanding and offering tribute is a most common feature in human societies and nothing special to China In the course of the development of Neolithic and later societies social classes have developed where persons who achieved superior positions first could demand presents or tribute from neighboring societies they defeated and then with the assistance of sturdy servants from their own people China was certainly no exception to that principle and one of the first terms for tax was thus gong tribute In China s early feudatory social system tribute was demanded from lower political entities and the mutual political relations were already highly developed during the Zhou dynasty 1045 256 BCE This system of inner Chinese relations became a sort of matrix when China expanded and achieved contact with countries which were more or less independent and thus the tribute system evolved The individual case studies in this volume focus on the latest manifestations of the tribute system in late Imperial China *Imperial China and Its Southern Neighbours* Victor H Mair,2016-04-29 At a time when China Southeast Asia relationships are undergoing profound changes it is pleasing to have a volume which examines the interactions between China and the polities and societies to the south through time With multiple aims of exploring the relations between northern Chinese cultures and those of the south examining the cultural plurality of areas which are today parts of Southern China and illuminating the relations between Sinitic and non Sinitic societies the volume is broad in concept and content Within these extensive rubrics this edited collection further interrogates the nature of Asian polities and their historiography the constitution of Chineseness imperial China s southern expansions cultural hybridity economic relations regional systems and ethnic interactions across East Asia The editors Victor H Mair and Liam C Kelley are to be congratulated for bringing together such a wealth of contributions offering nascent interpretations and broad overviews set within the overarching historical and contemporary contexts provided through Wang Gungwu s introduction Dr Geoffrey Wade ANU College of Asia and the Pacific Australian National University *Routledge Library Editions: Education in Asia* Various,2021-07-14 This set of reissued books examines education in Asia from a variety of different angles From the westernisation of early twentieth century Chinese education to the impact of the Communist revolution to education and society in Korea to Asian women s experiences of education this set collects some key texts by a range of original thinkers Honor and Shame in Early China Mark Edward Lewis,2020-12-10 Lewis sheds new light on the early Chinese empires through an ambitious examination of evolving ideas about honor and shame The Cambridge World History: Volume 5, Expanding Webs of Exchange and Conflict, 500CE-1500CE Benjamin Z. Kedar,Merry E. Wiesner-Hanks,2015-04-09 Volume 5 of the Cambridge World History series uncovers the cross cultural exchange and

conquest and the accompanying growth of regional and trans regional states religions and economic systems during the period 500 to 1500 CE The volume begins by outlining a series of core issues and processes across the world including human relations with nature gender and family social hierarchies education and warfare Further essays examine maritime and land based networks of long distance trade and migration in agricultural and nomadic societies and the transmission and exchange of cultural forms scientific knowledge technologies and text based religious systems that accompanied these The final section surveys the development of centralized regional states and empires in both the eastern and western hemispheres Together these essays by an international team of leading authors show how processes furthering cultural commercial and political integration within and between various regions of the world made this millennium a proto global era

Warfare in Chinese History Hans van de Ven, 2021-07-26 Our understanding of Chinese warfare has suffered from misconstrued contrasts between Chinese and Western ways in warfare This is one of the arguments convincingly set forth in this important volume on an important subject It also discusses the essentialising interpretations of Chinese culture focussing on the avoidance of warfare and the civil ethic of its officials Based on original sources and dealing with the subject from the earliest dynasty up to modernity it uniquely combines chapters on strategy and tactics Both scope and approach make it a must for historians of China And with a view to its conclusions on the place of China in the context of global military history it also provides essential reading for historians of comparative warfare in general The book's primary goal to provide a fuller interpretation of the role of the military in Chinese history has been achieved with ease
