Relationships No One Taught Us How To Live Happily Ever After:

Relationships, 2014 **RELATIONSHIPS** Dr. Danna Brissie, 2014-06-06 This book evolved from years of practice of a psychotherapist treating hundreds of individuals and couples After several years Dr Brissie began to notice patterns in the problems of couples and devised a theory as to why relationships fail and developed solutions which proved successful in her practice The most popular part of the book is an identification of roles individuals assume in their primary relationships with their spouses or significant others For example a Critical controlling person usually chooses a Rebellious Passive or Aggressive person A Rescuer chooses a Compliant person both groups could never understand how they were ever attracted to each other or complained he she is not the same person I first met After couples were able to see these characteristics in themselves and others they learned to better communicate and work on undesirable behaviors Most couples learned the greatest enemy to a relationship is built resentment by one or both parties thus making communication a vital part of a healthy relationship The realities of divorce is also included in the book describing the ultimate impact on all members of the family and the families of origin Another part of the book is designed to help individuals gain insight into knowing themselves better thus improving communications skills and improving all relationships No self help book is complete without helping readers improve their self esteem and educating them about how therapy can help The author presents suggestions for finding a good therapist The book is written without psychological jargon thus making it easy to read and understand Many find it excellent as a future reference After the first publication the author was invited to be a keynote speaker at McLean Hospital one of Harvard's teaching hospitals during a mental health week The book is currently on Dr Harville Hendrix's recommended reading list It remains timely after many years in our current social networking multiple marriage complex society The author hopes you will find it helpful to you as it has been to the majority of her clients and readers

Relationships Dr. Stacey Branché Msc.D, 2016-03-15 The one thing we all desire in life is to love and be loved We desire to have a special connection with another person The kind of connection only that special person can share with us But where and how do we find that special connection The answer to this question is one I have noticed many people seem to be struggling to find What made me decide to write this book was that fact that I saw so many people struggling to find and have the type of loving relationship that it seemed many of us could only dream about I thought long and hard about the subject of love and relationships what we learn or don't learn and I realized that it was time to change how we look at and approach love and relationships I looked at my own life and relationships and the life and relationships of people around me and decided to take what I learned and found useful and share it I realized while researching for this book that there are so many things that we are taught throughout our lives but there is never really any formal teaching on how to love ourselves and others or how to find that meaningful connection that we all desire to have **Things No One Taught Us About Love** Vex King, 2025-01-14 Beloved spiritual teacher Vex King follows up his international bestseller Good Vibes Good Life with this

essential guide to building meaningful mindful and loving relationships Humans are social animals But it is nearly impossible to build healthy sustainable bonds with others without first having a good relationship with yourself To get along with others we often alter our habits or subsume our unique personalities By trying to transform or suppress our true selves we erode our self worth and self knowledge We begin to lose sight of who we really are and what we truly want When our self understanding and self confidence are damaged it ultimately hurts our relationships In this wise and transformative book a revised edition of *Closer to Love* Vex King helps us find and sustain the connections we want with ourselves and others Good relationships begin with loving ourselves and recognizing our own desires and needs This self discovery allows our best selves to radiate with confidence and to attract and choose partners romantic and platonic who are truly compatible When we feel comfortable in our own skin we are able to give and receive love without being blocked by the destructive emotions and past trauma that previously held us back and prevented us from forming fulfilling and lasting relationships Filled with Vex King s profound wisdom thoughtful self practices and easy to adopt habit builders this guide opens you up to the love you deserve and shows you how to bring it into your life

Asset John Faithful Hamer,2020-04-19 Sex is love's fast forward button If you're normal sooner or later you're going to fall in love with the person you're sleeping with or they're going to fall in love with you whether you like it or not Passionate love as Jonathan Haidt rightly observes in The Happiness Hypothesis 2006 is a drug Its symptoms overlap with those of heroin and cocaine Passionate love alters the activity of several parts of the brain including parts that are involved in the release of dopamine Any experience that feels intensely good releases dopamine and the dopamine link is crucial here because drugs that artificially raise dopamine levels as do heroin and cocaine put you at risk of addiction The feelings we develop for someone we're sleeping with are powerful This is largely a function of oxytocin a hormone normally associated with mother infant bonding In most mammals oxytocin is released solely during breastfeeding where it helps to forge a powerful bond between mother and child But in certain species large quantities of oxytocin are also released during sex where it helps to forge a powerful bond between lovers In Blueprint 2019 Nicholas A Christakis maintains that these modifications of the oxytocin reflex are nothing short of astounding a set of physiological experiences that originally evolved to facilitate mother child bonding have in our species evolved to facilitate and support pair bonding The neural circuits that light up in a woman's brain are similar whether she looks at her baby or her partner Evolution seems to have selected for human neediness This explains the voracious nature of human sexuality Unlike tigers bears and salamanders who only have sex during the mating season we have sex all year round What's more we have a great deal of sex that's clearly not going to result in pregnancy e.g. gay sex straight sex after menopause etc Sex's primary purpose has long since transcended procreation Sexual desire renders us needy It takes us out of ourselves and into the world making hunters of us all If the greatest friendships fall into our laps serendipitously like the treasure you find buried in your own backyard the greatest loves of our lives are like spoils we bring home from the field of battle **God in the Mirror** Dr. J.J. Meier,2009-03-11 For many people the concept of a Divine Spirit is elusive Many question who or what God is In today's chaotic world it's no wonder we have questions The issues we face from personal to global disconnect us physically and detach us from our spiritual energy J J Meier has written God in

the Mirror to reconnect us to the Universe to reflect a new vision of God and ultimately a new vision of you Using spiritual concepts from world religions Dr Meier examines our physical emotional mental and spiritual natures including our health our energy level and our ability to love and forgive essentially the layers of our Being Because your world reflects the state of YOU you can choose to change your individual state anytime Life can be full of wonder and delight joy and forgiveness love and bliss God in the Mirror guides you on a journey that starts in your mind travels through your heart and settles into your soul This book is rich with insights that lead to realizations that each of us is a reflection of the God Source ever connected and never separated

Seymour Catherine Lievens, 1900 Seymour has complicated feelings about finding his mate His parents taught him that when he did he'd have to quit his job and focus entirely on their bond and he's not ready to do that He worked too hard to get where he is and he plans to finish training to become a council assassin Jimmy's tired of being a council enforcer Being sent on missions means he wasn't there when his brother needed him but he plans on changing that When Jimmy and Seymour meet Jimmy's glad he got ahead and asked to be transferred Seymour isn't sure what to think of Jimmy but he's Wallace's brother so Seymour needs to give him a chance But he's not quitting his job Seymour has to face his parents antiquated view of mates but Jimmy has a more complicated problem his father Wallace Senior isn't happy with Jimmy's decision and when he's not happy no one is Jimmy and Seymour will have to fight for what they want But will they get it

Shit Adults Never Taught Us Natasha Sattler, 2021-04-16 A SNAPSHOT REVIEW OF THE THINGS YOU DIDN'T LEARN IN SCHOOL IN QUICK HILARIOUS CHAPTERS Wouldn't it be awesome if life had a manual Not for your daily how-tos like cooking or ironing but for when the real shit pops up The money shit we have no idea how to navigate like negotiating a raise or buying a car The relationship shit that slaps us in the face as we turn into full-fledged adults like surviving a gut-wrenching breakup and having the courage to fall in love The mind fucks that sneak into our brains after puberty like a ninja and set up camps of anxiety loneliness and regret The life shit that somehow was completely ignored throughout more than a decade of schooling like protecting your privacy online traveling on any budget and finding motivation when it seems impossible We've made it

Peace, War, and Mental Health Barbara Jo Brothers, 2018-10-24 Discover how issues of world war and peace relate to the dynamics of couples therapy in this thought provoking book In Peace War and Mental Health couples therapists provide diverse views on the links between strengthening marriages and preventing and solving international disputes Although the contributors vary in their approaches to this issue a common theme is the belief that couples as well as countries need to build bridges not walls for healthy relationships and they need to strive to learn what others are really feeling thinking or needing underneath the defenses others exhibit The contributing therapists in Peace War and Mental Health explore the various links between couples in conflict and nations at war Chapters describe how prevention strategies used for couples in therapy may be applied to the well being of the world as a whole and how significant change is possible through the involvement of only a small percentage of the population Other chapters focus on specific tools for couples therapy such as outlines of the major tasks of relationship building and traps that mitigate against good relationship construction a description of the nuts and bolts of conflict resolution and the use of flashcards to help both members of the pair present his or her real feelings to the other Some of the intriguing topics covered in this book include the relationship between psychotherapy and spirituality and the paradox of individuals longing to belong since each is a part of the whole the role of gender on war and its potential impact on peace the failure of the humanistic movement societal attitudes linking domestic violence and large scale violence how the potential for resolution of differences in couples can be applied to peace among nations how prevention may be expanded to include the mental health of the whole world Part V of an interview with Virginia Satir Peace War and Mental Health helps therapists look at international peace and couples therapy with new perspectives a necessity in today s rapidly changing family and world climate
