Relativity For The Million:

Relativity for the Million Martin Gardner, 1962 Explores the world of Einstein's relativity in a straightforward manner with a minimum of mathematics **Relativity for the Million** Martin Gardner (Mathématicien), 1965 Relativity for the Million Martin Gardner, 1962 Popular Science, 1964-01 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better The Eye Test Chris Jones, 2022-01-11 In a world increasingly ruled by numbers and algorithms award winning journalist Chris Jones makes a compelling case for a more personal approach to analytical thinking THE EYE TEST is a necessary course correction a call for a more balanced personal approach to problem solving Award winning journalist Chris Jones makes the case for the human element for what smart practiced devoted people can bring to situations that have proved resistant to analytics Jones shares what he's learned from an army of extraordinary talents including some of the best doctors executives athletes meteorologists magicians designers astrophysicists and detectives in the world There are lessons in their mastery Of course there is a place for numbers in decision making No baseball player should be judged by his jawline But the analytics revolution sparked by Michael Lewis's Moneyball now threatens to replace one kind of absurdity with another We have developed a blind faith in the machine the way a driver overly reliant on his GPS might be led off the edge of a cliff Not all statistical analysis is sound Algorithms aren't infallible and spreadsheets aren't testaments Trust in them too much and they risk becoming instruments of destruction rather than understanding Worse data's supremacy in our daily lives has led to a dangerous strain of anti expertise the belief that every problem is a math problem and anyone given access to the right information will find the right answer That taste doesn't matter experience doesn't matter creativity doesn't matter That we can't believe our eyes no matter how much they've seen THE EYE TEST serves as a reminder that if beauty is less of a virtue in the age of analytics a good eye still is This book is a celebration of our greatest beholders and an absorbing inspiring guide for how you might become one too **Billboard**, 2007-06-30 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends Investing in Movies Joseph N. Air Force Magazine ,2001-07 *Hollywood's Indies* Yannis Tzioumakis,2012-03-07 For almost three decades the big Hollywood studios have operated classics divisions or specialty labels subsidiaries that originally focused on the foreign art house film market while more recently and controversially moving on to the American indie film market This is the first book to offer an in depth examination of the phenomenon of the classics divisions by tracing its history since the establishment the first specialty label in 1980 United Artists Classics to more contemporary outfits like Focus Features Warner Independent and Picturehouse This detailed account of all classics divisions examines their business practices their position within the often labyrinthine structure of contemporary entertainment conglomerates and their relationship to their parent companies Yannis Tzioumakis examines the impact of those companies on American indie cinema and argues that it was companies such as Fox Searchlight and Paramount Classics now Paramount Vantage that turned independent filmmaking to an industrial category endorsed by the Hollywood majors as opposed to a mode of filmmaking practised outside the conglomerated major players and posed as a sustained alternative to mainstream Hollywood cinema A number of case studies are provided including such celebrated films as *Mystery Train* *The Brothers McMullen* *Broken Flowers* *Before Sunset* and many others
