offers a new perspective on contemporary debates about Sinhalese Buddhist nationalism in Sri Lanka In this book de Silva Wijeyeratne argues forcefully that Sinhalese Buddhism in the period prior to its engagement with the British colonial State signified a relatively unbounded although at times boundary forming set of practices that facilitated both the inclusion and exclusion of non Buddhist concepts and people within a particular cosmological frame Juxtaposing the premodern against the backdrop of colonial modernity de Silva Wijeyeratne tells us that in contrast modern Sinhalese Buddhist nationalism is a much more reified and bounded concept one imagined through a 19th century epistemology whose purpose was not so much inclusion but a much more radical exclusion of non Buddhist ideas and people In this insightful analysis modern Sinhalese Buddhist nationalism then emerges through the conjunction of discourse power and knowledge at a distinct moment in the trajectory of the colonial State An intrinsic feature of this modernist moment is that premodern categories such as the cosmic order were subject to a bureaucratic re valuation that generated profound consequences for State society relations and the wider constitutional legal imaginary This book goes onto explore how key constitutional and nation building moments were framed within the cultural milieu of modern Sinhalese Buddhist nationalism a nationalism that reveals the power of a re valued Buddhist cosmic order to still inform the present Given the intensification of the Sinhalese Buddhist nationalist project following the defeat of the Tamil Tigers in 2009 this book is of interest to scholars of nationalism South Asian studies the anthropology of ritual and comparative legal history Constituting Communities John Clifford Holt, Jacob N.

Kinnard, Jonathan S. Walters, 2012-02-01 Constituting Communities explores how community functions within Theravada Buddhist culture Although the dominant focus of Buddhist studies for the past century has been on doctrinal and philosophical issues this volume concentrates on discourses that produced them and why and how these discourses and practices shaped Theravada communities in South and Southeast Asia From a variety of perspectives including historical literary doctrinal and philosophical and social and anthropological the contributors explore the issues that have proven important and definitive for identifying what it has meant individually and socially to be Buddhist in this particular region The book focuses on textual discourse how communities are formed and maintained within pluralistic contexts and the formation of community both within and between the monastic and lay settings **The City as Text** James S. Duncan, 2004 Argues that landscapes are not only culturally produced but they also influence governing ideas of political and religious life

themselves in their fields offering a diverse approach and country by country coverage Innovative Buddhist Women Karma Lekshe Tsomo, 2013-09-05 Combines the voices of scholars and practitioners in analysing Buddhist women's history 26 articles document the lives of women who have set in motion changes within Buddhist societies with analyses of issues such as gender ethnicity authority and class that affect the lives of women in traditional Buddhist cultures and increasingly the west *Buddhist History in the Vernacular* Stephen C. Berkwitz, 2004 This book on vernacular Buddhist histories written in late medieval Sri Lanka demonstrates that narrative representations of the past were designed to effectively constructing new moral communities in translocal spaces Reading the Mahāvamsa Kristin Scheible, 2016-11-08 Vamsa is a dynamic genre of Buddhist history filled with otherworldly characters and the exploits of real life heroes These narratives collapse the temporal distance between Buddha and the reader building an emotionally resonant connection with an outsized religious figure and a longed for past The fifth century Pali text Mahavamsa is a particularly effective example using metaphor and other rhetorical devices to ethically transform readers to stimulate and then to calm them Reading the Mahavamsa advocates a new literary approach to this text by revealing its embedded reading advice to experience samvega and pasada and affective work of metaphors the Buddha's dharma as light and salient characters nagas Kristin Scheible argues that the Mahavamsa requires a particular kind of reading In the text's proem special instructions draw readers to the metaphor of light and the nagas or salient snake beings of the first chapter Nagas are both model worshippers and unworthy hoarders of Buddha's relics As nonhuman agents they challenge political and historicist readings of the text Scheible sees these slippery characters and the narrative's potent and playful metaphors as techniques for refocusing the reader's attention on the text's emotional aims Her work explains the Mahavamsa's central motivational role in contemporary Sri Lankan Buddhist and nationalist circles It also speaks broadly to strategies of reading religious texts and to the internal and external cues that give such works lives beyond the page The Buddhist World of Southeast Asia Donald K. Swearer, 2012-02-01 An unparalleled portrait Donald K Swearer's Buddhist World of Southeast Asia has been a key source for all those interested in the Theravada homelands since the work's publication in 1995 Expanded and updated the second edition offers this wide ranging account for readers at the beginning of the twenty first century Swearer shows Theravada Buddhism in Southeast Asia to be a dynamic complex system of thought and practice embedded in the cultures societies and histories of Thailand Myanmar Burma Laos Cambodia and Sri Lanka The work focuses on three distinct yet interrelated aspects of this milieu The first is the popular tradition of life models personified in myths and legends rites of passage festival celebrations and ritual occasions The second deals with Buddhism and the state illustrating how King Asoka serves as the paradigmatic Buddhist monarch discussing the relationship of cosmology and kingship and detailing the rise of charismatic Buddhist political leaders in the postcolonial period The third is the modern transformation of Buddhism the changing roles of monks and laity modern reform movements the role of women and Buddhism in the West *Buddhist Spirituality (Vol. 1)*

Precarious Balance Bardwell L. Smith, 2022-08-18 Since the third century BCE when the king of Sri Lanka converted to Buddhism the island nation off the southern coast of India has represented a central interest of Buddhist scholarship The association between its politics and religious life has not always remained harmonious however and has contributed to the contemporary turmoil that threatens to tear it apart In this valuable book renowned religious scholar Bardwell Smith elucidates the history of Buddhism in Sri Lanka from the time of one of its earliest rulers through to its present day strife The essays collected here for the first time explore various themes of Sri Lanka s long history in novel and constructive ways Topics include Sinhala Buddhists sense of manifest destiny arising from Sri Lanka s oldest historical chronicles the Mahavamsa and the Dipavamsa the nationalist implications of the chronicles depiction of the third century Mahavihara monastery as the site of original Buddhism and concepts of order and legitimation of power in ancient Ceylon With a new introduction and final chapter Smith sheds fresh light on today s Sri Lanka connecting historical studies with contemporary issues **The Halo of Golden Light** Asuka Sango, 2015-03-31 In this pioneering study of the shifting status of the emperor

within court society and the relationship between the state and the Buddhist community during the Heian period 794 1185 Asuka Sango details the complex ways in which the emperor and other elite ruling groups employed Buddhist ritual to legitimate their authority Although considered a descendant of the sun goddess Amaterasu the emperor used Buddhist idiom particularly the ideal king as depicted in the Golden Light Sutra to express his right to rule Sango s book is the first to focus on the ideals presented in the Sutra to demonstrate how the ritual enactment of imperial authority was essential to justifying political power These ideals became the basis of a number of court sponsored rituals the most important of which was the emperor s Misai e Assembly Sango deftly traces the changes in the assembly s format and status throughout the era and the significant shifts in the Japanese polity that mirrored them In illuminating the details of these changes she challenges dominant scholarly models that presume the gradual decline of the political and liturgical influence of the emperor over the course of the era She also compels a reconsideration of Buddhism during the Heian as state Buddhism by showing that monks intervened in creating the state s policy toward the religion to their own advantage Her analysis further challenges the common view that Buddhism of the time was characterized by the growth of private esoteric rites at the expense of

exoteric doctrinal learning The Halo of Golden Light draws on a wide range of primary sources from official annals and diaries written by courtiers and monks to ecclesiastical records and Buddhist texts many of them translated or analyzed for the first time in English In so doing the work brings to the surface surprising facets in the negotiations between religious ideas and practices and the Buddhist community and the state **Companion Encyclopedia of Asian Philosophy** Dr Brian Carr, Brian Carr, Indira Mahalingam, 2002-09-11 The Companion Encyclopedia of Asian Philosophy is a unique one volume reference work which makes a broad range of richly varied philosophical ethical and theological traditions accessible to a wide audience The Companion is divided into six sections covering the main traditions within Asian thought Persian Indian Buddhist Chinese Japanese and Islamic philosophy Each section contains a collection of chapters which provide comprehensive coverage of the origins of the tradition its approaches to for example logic and languages and to questions of morals and society The chapters also contain useful histories of the lives of the key influential thinkers as well as a thorough analysis of the current trends *Religion and the Global Politics of Human Rights* Thomas F. Banchoff, Robert Wuthnow, 2011 Are human rights universal or the product of specific cultures Is democracy a necessary condition for the achievement of human rights in practice This book surveys the religious politics of human rights across the world s major regions political systems and faith traditions The City as a Sacred Center Smith, Philip L. Reynolds, 2021-11-01
