The Abba Tradition Michael Hattwick,2020-08-18 The ABBA Tradition is the spiritual and mystical tradition that lies
deep within and behind western religions and modern cultures It is the worldview that is the source substance and
infrastructure of Judaism and Christianity It is the one great tradition behind the Hebrew and Greek languages the Old and
New Testaments ancient religions and modern science Whether you call it Kabbalah the Four World Tradition or something
else it transcends the separation between the historic faiths and more importantly teaches a way of reconciliation and
reunion This book helps Christians discover the profound Jewish tradition that Jesus of Nazareth lived and taught and also
highlights one of the greatest Jews of all time Joshua be Miriam of Nazareth who first brought the Gentile nations to the holy
one of Israel Heal the wounds that separate us one from another Jew from Christian brother from sister and discover the
interrelated worlds of physicality psychality spirituality and divinity with the wisdom in this book Futuristic Cars and
Space Bicycles Jeremy Withers,2020-06-04 Given the extensive influence of the transport revolution on the past two centuries
a time when trains trams omnibuses bicycles cars airplanes and so forth were invented and given science fiction s overall
obsession with machines and technologies of all kinds it is surprising that scholars have not paid more attention to
transportation in this increasingly popular genre Futuristic Cars and Space Bicycles is the first book to examine the history of
representations of road transport machines in nineteenth twentieth and twenty first century American science fiction The
focus of this study is on two machines of the road that have been locked in a constant often bitter struggle with one another
the automobile and the bicycle With chapters ranging from the early science fiction of the pulp magazine era in the 1920s
and 1930s to the postcyberpunk of the 1990s and more recent media of the 2000s such as web television zines and comics
this book argues that science fiction by and large perceives the car as anything but a marvelous invention of modernity
Rather the genre often scorns and ridicules the automobile and instead promotes more sustainable more benign more
restrained technologies of movement such as the bicycle Golden Gate Kevin Starr,2010-07-15 A passionate chronicle of
the Golden Gate Bridge s construction by a National Humanities Medal winning historian reveals influences from culture and
nature that shaped its development while offering insight into its role as a national symbol of American engineering and
innovation **Frontier Forts and Outposts of New Mexico** Donna Blake Birchell,2019 Life in early New Mexico was often

perilous Geographic isolation attracted outlaws and ruffians and skirmishes often arose between the indigenous tribes and settlers In response the U S government set up military forts and outposts to protect its new citizens These strongholds include Fort Craig where logs were made to look like cannons to fool Confederate troops Kit Carson John Pershing and Billy the Kid all called Fort Stanton home before it became the first federal tuberculosis sanatorium and later a detention center for German prisoners of war Author Donna Blake Birchell relates little known yet highly important Civil War battles the tragedies of the Navajo and Mescalero Apache internments and other dramatic frontier stories **Theology and California** Fred Sanders,Jason S. Sexton,2016-02-17 Exploring California as a theological place this book renders critical engagement with significant Californian religious and theological phenomena and the inherent theological impulses within major Californian cultural icons Harnessing conceptual tools inherent to theology through theological reflection assessment and critique the chapters in this volume begin to ascertain the significance of various empirical data and that no other qualitative methodological Californian study has done Many universities are picking up on California literature as a theme that highlights a place of hope wonder and cultural innovation but have neglected the significance of theological instincts flowing through the Californian dynamic Californians Fred Sanders and Jason Sexton assemble leading voices and specialists both from within and without California for engagement with California s influential culture including leading theologians and cultural critics such as Richard J Mouw Paul Louis Metzger and Fred Sanders alongside leading specialists in Film studies and cultural critique theological anthropology missiology sociology and history **The Big Book of Hispanic Activities** Carole Marsh,2003-08-01 Teaches Hispanic heritage geography history etc through a variety of puzzles games and suggested activities *California Missions and Landmarks* Mrs. A. have disappeared as an ethnic group their languages forgotten except for the names of the towns plants and geography of the Opater a where they lived Why did the patas disappear from the historical record while their neighbors survived David Yetman a leading ethnobotanist who has traveled extensively in Sonora consulted more than two hundred archival sources to answer this question The result is an accessible ethnohistory of the patas one that embraces historical complexity with an eye toward Opatan strategies of resistance and assimilation Yetman s account takes us through the Opatans initial encounters with the conquistadors their resettlement in Jesuit missions clashes with Apaches their recruitment as miners and several failed rebellions and ultimately arrives at an explanation for their disappearance Yetman s account is bolstered by conversations with present day residents of the Opater a and includes a valuable appendix on the languages of the Opater a by linguistic anthropologist David Shaul One of the few studies devoted exclusively to this indigenous group The patas In Search of a Sonoran People marks a significant contribution to the literature on the history of the greater Southwest
