Masonic Cyclopaedia V2 Kenneth R. H. MacKenzie,2014-03 This Is A New Release Of The Original 1877 Edition *The Secret Doctrine* H.P. Blavatsky,Michael Gomes,2009-07-23 Madame Blavatsky s Victorian era masterpiece is now scaled down to its essentials providing the most readable accessible experience ever of one of history s seminal occult works The Secret Doctrine Helena Petrovna Blavatsky s masterwork on the origin and evolution of the universe and humanity itself is arguably the most famous and perhaps the most influential occult book ever written Published since 1888 only in expensive two volume editions of some 1 400 pages it has long eluded the grasp of modern readers until now This single volume edition

abridged and annotated by historian and Theosophical scholar Michael Gomes places the ideas of The Secret Doctrine within reach of all who are curious In particular Gomes provides a critical sounding of the book s famous stanzas on the genesis of life and the cosmos mysterious passages that Blavatsky said originated from a primeval source and which form the heart of The Secret Doctrine Gomes scrupulously scales down the book s key writings on symbolism to their essentials and offers notes and a glossary to illuminate arcane references His historical and literary introduction casts new light on some of the book s sources and on the career of its brilliant and elusive author one of the most intriguing personages of the nineteenth century At once compact and representative of the work as a whole this new edition of The Secret Doctrine brings

Muslims on the Americanization Path? Yvonne Yazbeck Haddad,John L. Esposito,2000-05-11 Islam is the fastest growing religion in the United States There are more Muslims in America than in Kuwait Qatar and Libya together Leaving aside immigration and conversion birthrate alone ensures that in the first part of the twenty first century Islam will replace Judaism as the nation s second largest religion Like all religious minorities in America Muslims must confront a host of difficult questions concerning faith and national identity Can they become part of a pluralistic American society without sacrificing their identity Can Muslims be Muslims in a state that is not governed by Islamic law Will the American legal system protect Muslim religious and cultural differences Is there a contradiction between demanding equal rights and insisting on maintaining a distinctively separate identity Will the secular and or Judeo Christian values of American society inhibit the Muslim practice of religious faith While the Muslims of America are indeed on the path to Americanization what that means and what that will yield remains uncertain In this thoughtful and wide ranging volume fourteen distinguished scholars take an in depth look at these issues and examine the varied responses and opinions of the Muslim community
