D. Hemming, 1994 Central to the Enlightenment is the ideal of the Secular City in militant reply to the *Civitas Dei* of St Augustine The essays in this volume illustrate the elaboration of that vision both in the planning and depiction of actual cities and in the speculation on social justice to which Voltaire in particular devoted himself *The Secular City* Harvey Gallagher Cox, 1966 *The Secular City* Harvey Cox, 1990 **The Secular City** Harvey Gallagher Cox, 1965 *Exploring the Postsecular*, 2010-05-17 The re-emergence of the religious in secular domains has led prominent scholars such as Jürgen Habermas and Charles Taylor to speculate about a new postsecular age The alleged shift from the secular to the postsecular is most visible in the spheres of urban public space governance and civil society This volume addresses contemporary relations between religion politics and urban societies primarily from a theoretical perspective while also paying attention to empirical manifestations of the central conceptual ideas The primary focus is the relations between public religion deprivatization of religion and theorizations of modernity and modernities with the secondary and closely related focus on theorizing postsecular urbanism including the role of faith based organizations FBOs in cities Contributors include Justin Beaumont James A Beckford Luke Bretherton Paul Cloke Candice Dias Wilhelm Gr b Maaike de Haardt Jason Hackworth Christoph Jedan Kim Knott Michiel Leezenberg Bernice

Clapp, 2014-02-10 The City is the best funniest saddest and most thought provoking compilation ever assembled on the urban scene James A Clapp has arranged more than three thousand quotations epigrams epithets verses proverbs scriptural references witticisms lyrics literary references and historical observations on urban life from antiquity until the present These quotes are drawn from the written and spoken words of more than one thousand writers throughout history This volume with contributions from speakers poets song writers politicians philosophers scientists religious leaders historians social scientists humorists architects journalists and travelers from and to many lands is designed to be used by writers speechmakers students and scholars on cities and urban life Clapp s text is striking for its sharp contrasts of urban and rural life and the urbanization process in different historical times and geographical areas This second edition includes four hundred new entries updated birth dates and occupations of quoted authors and an expanded and updated introduction and preface Clapp also added new introduction pages for each section containing pictures and unique quotations The indexes have also been expanded to include more subjects and cities The scope of this book is international including entries on most major and many minor cities of the world It is noteworthy for its pleasures and as well as its insights **The Charismatic City and the Public Resurgence of Religion** N. Religious Pluralism and the City Helmuth Berking, Silke Steets, Jochen Schwenk, 2018-04-05 Religious Pluralism and the City challenges the notion that the city is a secular place and calls for an analysis of how religion and the city are intertwined It is the first book to analyze the explanatory value of a number of typologies already in use around this topic from holy city to secular city from fundamentalist to postsecular city By intertwining the city and religion urban theory and theories of religion this is the first book to provide an international and interdisciplinary analysis of post secular urbanism The book argues that given the rise of religiously inspired violence and the increasing significance of charismatic Christianity Islam and other spiritual traditions the master narrative that modern societies are secular societies has lost its empirical plausibility Instead we are seeing the pluralization of religion the co existence of different religious worldviews and the simultaneity of secular and religious institutions that shape everyday life These particular constellations of religious pluralism are above all played out in cities Including contributions from Peter L Berger and Nezar Alsayyad this book conceptually and empirically revokes the dissolution between city and religion to unveil its intimate relationship and offers an alternative view on the quotidian state of the global urban condition

Postsecular Cities Justin Beaumont, Christopher Baker, 2011-06-16 This book reflects the wide spread belief that the twenty first century is evolving in a significantly different way to the twentieth which witnessed the advance of human rationality and technological progress including urbanisation and called into question the public and cultural significance of religion In this century by contrast religion faith communities and spiritual values have returned to the centre of public life especially public policy governance and social identity Rapidly diversifying urban locations are the best places to witness the emergence of new spaces in which religions and spiritual traditions are creating both new alliances but also bifurcations with secular sectors Postsecular Cities examines how the built environment reflects these trends Recognizing that the turn to the postsecular is a contested and multifaceted trend the authors offer a vigorous open

but structured dialogue between theory and practice but even more excitingly between the disciplines of human geography and theology Both disciplines reflect on this powerful but enigmatic force shaping our urban humanity This unique volume offers the first insight into these interdisciplinary and challenging debates

Visualising a Sacred City Ben Quash, Aaron Rosen, Chloe Reddaway, 2016-11-25 William Blake famously imagined Jerusalem builded here in London But Blake was not the first or the last to visualise a shimmering new metropolis on the banks of the River Thames For example the Romans erected a temple to Mithras in their ancient city of Londinium medieval Londoners created Temple Church in memory of the Holy Sepulchre in which Jesus was buried and Christopher Wren reshaped the skyline of the entire city with his visionary dome and spires after the Great Fire of London in 1666 In the modern period the fabric of London has been rewoven in the image of its many immigrants from the Caribbean South Asia Eastern Europe and elsewhere While previous books have examined literary depictions of the city this is the first examination of the religious imaginary of the metropolis through the prism of the visual arts Adopting a broad multicultural and multi faith perspective and making space for practitioners as well as scholars its topics range from ancient archaeological remains and Victorian murals and cemeteries to contemporary documentaries and political cartoons

Pentecostalism and Politics in Africa Adeshina Afolayan, Olajumoke Yacob-Haliso, Toyin Falola, 2018-06-29 As the epicenter of Christianity has shifted towards Africa in recent decades Pentecostalism has emerged as a particularly vibrant presence on the continent This collection of essays offers a groundbreaking study of the complex links between politics and African Pentecostalism Situated at the intersection between the political the postcolonial and global neoliberal capitalism contributors examine the roots of the Pentecostal movement's extraordinary growth how Pentecostalism intervenes in key social and political issues such as citizenship party politics development challenges and identity and conversely how politics in Africa modulate the Pentecostal movement Pentecostalism and Politics in Africa offers a wide ranging picture of a central dimension of postcolonial African life opening up new directions for future research
