*Claiming Sacred Ground* Adrian J. Ivakhiv, 2001-07-26 *Claiming Sacred Ground* Pilgrims and Politics at Glastonbury and Sedona Adrian J Ivakhiv A study of people and politics at two New Age spiritual sites In this richly textured account Adrian Ivakhiv focuses on the activities of pilgrim migrants to Glastonbury England and Sedona Arizona He discusses their efforts to encounter and experience the spirit or energy of the land and to mark out its significance by investing it with sacred meanings Their endeavors are presented against a broad canvas of cultural and environmental struggles associated with the incorporation of such geographically marginal places into an expanding global cultural economy Ivakhiv sees these contested and heterotopic landscapes as the nexus of a complex web of interests and longings from millennial anxieties and nostalgic imaginings of history and prehistory to real estate power grabs contending religious visions and the free play of ideas from science pseudo science and popular culture Looming over all this is the nonhuman life of these landscapes otherness that alternately reveals and conceals itself behind a pageant of beliefs images and place myths A significant contribution to scholarship on alternative spirituality sacred space and the politics of natural landscapes *Claiming Sacred Ground* will

 Communities* Jim Howe, Edward T. McMahon, Luther Propst, 2012-06-22 Increasing numbers of Americans are fleeing cities  
 and suburbs for the small towns and open spaces that surround national and state parks wildlife refuges historic sites and  
 other public lands With their scenic beauty and high quality of life these gateway communities have become a magnet for  
 those looking to escape the congestion and fast tempo of contemporary American society Yet without savvy planning gateway  
 communities could easily meet the same fate as the suburban communities that were the promised land of an earlier  
 generation This volume can help prevent that from happening The authors offer practical and proven lessons on how

residents of gateway communities can protect their community's identity while stimulating a healthy economy and safeguarding nearby natural and historic resources. They describe economic development strategies, land use planning processes and conservation tools that communities from all over the country have found effective. Each strategy or process is explained with specific examples and numerous profiles and case studies clearly demonstrate how different communities have coped with the challenges of growth and development. Among the cities profiled are Boulder, Colorado; Townsend and Pittman Center, Tennessee; Gettysburg, Pennsylvania; Tyrrell County, North Carolina; Jackson Hole, Wyoming; Sanibel Island, Florida; Calvert County, Maryland; Tuscon, Arizona; and Mount Desert Island, Maine. *Balancing Nature and Commerce in Gateway Communities* provides important lessons in how to preserve the character and integrity of communities and landscapes without sacrificing local economic well-being. It is an important resource for planners, developers, local officials and concerned citizens working to retain the high quality of life and natural beauty of these cities and towns.
