Postdramatic Tragedies Emma K. Cole, 2020 Ancient tragedy has played a well documented role in contemporary theatre since the mid twentieth century In addition to the often commented upon watershed productions however is a significant but overlooked history involving classical tragedy in experimental and avant garde theatre Postdramatic Tragedies focuses upon such experimental reinventions and analyses receptions of Greek and Roman tragedy that come under the banner of postdramatic theatre a style of performance in which the traditional components of drama such as character and narrative are subordinate to the immediate affective power of more abstract elements such as image and sound The chapters are arranged into three parts each of which explores classical reception within a specific strand of postdramatic theatre text based theatre devised theatre and theatre that transcends the usual boundaries of time and space such as durational and immersive theatre Each offers a semiotic and phenomenological analysis of a particular case study covering both widely known and less studied productions from 1995 to 2015 Together they reveal that postdramatic theatre is related to the classics at its conceptual core and that the study of postdramatic tragedies reveals a great deal about both the evolution of theatre in recent decades and the status of ancient drama in modernity

Performance and the Politics of Space Erika Fischer-Lichte, Benjamin Wihstutz, 2013 From its very beginnings theatre has been both an art and a public space shared by actors and spectators As a result its entity and history is intimately tied to politics a politics of inclusion and exclusion of distributions and placements of spatial appropriation and utopian concepts This collection examines what is at stake when a theatrical space is created and when a performance takes place it asks under what circumstances the topology of theatre becomes political The book approaches this issue from various angles taking theatre as a cultural paradigm for political dimensions of space in its respective historical context Visiting the political dimensions of theatrical space in both theatre history and contemporary performance the volume responds to the so called spatial turn in cultural and historical studies and questions a politics of aesthetics that is discussed in continental philosophy The book visits different levels and linkages between aesthetic theory and geography art and sociology architecture and political theory and geometry and history shedding new light on theatre politics and space thereby transforming this historically intertwined triad into a transdisciplinary theme
