Generational Shifts in Contemporary German Culture Laurel Cohen-Pfister, Susanne Vees-Gulani, 2010 The concept of the generation in today's German culture and literature and its role in German identity In the debates since 1945 on German history and culture the concept of generations has become ever more prominent Recent and ongoing shifts in how the various generations are seen and see themselves in relation to history and to each other have taken on key importance in contemporary German cultural studies The seismic events of twentieth century German history are no longer solely first generational lived experiences but are also historical moments seen through the eyes of successor generations The generation seen as a category of memory thus holds a key to major shifts in German identity The changing generational perspectives of German writers and filmmakers not only reflect but also influence these trends exposing both the expected differences between generational views and

unexpected continuities Moreover as younger artists reframe recent history older generations like the 1968ers are also contributing to these shifts by reassessing their own experiences and cultural contributions This volume of new essays applies current discourse on generations in German culture to contemporary works dealing with major sociohistorical events since the Nazi period Contributors Svea Br unert Laurel Cohen Pfister Friederike Eigler Thomas C Fox Katharina Gerstenberger Erin McGlothlin Brad Prager Ilka Rasch Susanne Rinner Caroline Schaumann Maria Stehle Reinhild Steingr ver Susanne Vees Gulani Laurel Cohen Pfister is Associate Professor of German at Gettysburg College and Susanne Vees Gulani is Assistant Professor of German and Comparative Literature at Case Western Reserve University **New**

Anne Costabile-Heming,Rachel J. Halverson,Kristie A. Foell,2013-02-18 The sudden fall of the Berlin Wall is one of the defining images of the late twentieth century The subsequent unification of Germany and the decision to return Berlin to its status as capital has made the constant changes within the city a matter of public interest It also offered Berlin the opportunity to create a new image for itself one that can serve as a counterbalance to the politically charged recent history of Berlin as the capital of Nazi Germany and former East Berlin as the capital of the German Democratic Republic Poised between capitalist Western Europe and the former communist powers in Eastern Europe Berlin occupies a fascinating geopolitical space This anthology presents a unique glimpse into the various constituencies that make up Berlin and that impact the city s challenges and promises **Modern European Borders in Fiction** Andrew Hammond,2025-09-18 There

migration populism nationalism and regionalism Among the topics under study are the ideological divisions of the Cold War the closed societies of totalitarian communism the labour migrations of the 1950s and 1960s the tightening of border controls from the 1970s the twenty first century war on migration the official restrictions on borderland communities the conflicts in Bosnia Georgia and Ukraine and the patterns of social segregation that have marked the continent from the Second World War to the present Drawing on theoretical work in the social sciences and the humanities this is a ground breaking contribution to European literary studies establishing the importance of continental border writing and opening up fresh avenues for decolonised teaching and research **The Novel in German since 1990** Stuart Taberner,2011-09-01

Remembering 1989 Anke Pinkert,2024-10-07 This account of the laboratory of radical democracy in the months before East Germany s absorption in the West challenges memories of Germany s reunification For many 1989 is an iconic date one we associate with the fall of the Berlin Wall and the end of the Cold War The year prompts some to rue the defeat of

socialism in the East while others celebrate a victory for democracy and capitalism in the reunified Germany Remembering 1989 focuses on a largely forgotten interregnum the months between the outbreak of protests in the German Democratic Republic in 1989 and its absorption by the West in 1990 Anke Pinkert who herself participated in those protests recalls these months as a volatile but joyous laboratory of radical democracy and tells the story of how and why this time out of joint has been erased from Germany's national memory Remembering 1989 argues that in order to truly understand Germany's historic transformation we must revisit protesters' actions across a wide range of minor vernacular and often transient sources Drawing on rich archives including videotapes of untelevised protests illegally printed petitions by Church leaders audio recordings of dissident meetings and interview footage with military troops Pinkert opens the discarded history of East European social uprisings to new interpretations and imagines alternatives to Germany's neoliberal status quo The result is a vivid unexpected contribution to memory studies and European history Domestic Disputes Necia Chronister, 2021-02-08 Domestic Disputes is the first monograph in German studies to offer a critical examination of the home ownership crisis in the former East Germany that resulted from unification policy taking as its focus news media made for television movies cinematic releases and prose fiction that depict property disputes between former East and West Germans In the cultural productions discussed in this book anxieties about social disenfranchisement through unification policy are dramatized in narratives in which Westerners acquire or attempt to acquire property in the former East Germany Each chapter addresses a different type of narrative that has emerged to frame those anxieties including those of neocolonial Western takeover the engagement with difficult family histories masculinity crises in the West and the corporatization of home Domestic Disputes is the first book length study to outline the way in which homes were awarded to individuals and families as the former East Germany privatized and to offer in depth examinations of the narratives that emerged from that social phenomenon

Germany in Transit Deniz Göktürk, David Gramling, Anton Kaes, 2007-04-03 Publisher description **Imperial Fictions** Todd Kontje, 2018-04-25 Rethinks German literature by challenging the notion that national literature is the narrative of a spiritually united people **Polish Countryside in Transition** Wioletta Knapik, Tomasz Masłyk, Katarzyna Zajda, Łukasz Trembaczowski, 2025-07-14 Today's quality of life in the Polish countryside is intertwined with residents' social capital resources To describe the matter comprehensively and suggest potential trends the authors examine in four chapters critical socioeconomic issues that have shaped selected dimensions of the rural quality of life in Poland In addition to the description of Polish rural areas before and after accession to the European Union 1 the level and standards of living in the countryside identified in the study is presented 2 The social capital of the Polish rural population 3 and the changes in the quality of life in the Polish countryside from the perspective as perceived by local leaders are also described in detail 4 **Baltic Peripeties** Eckhard Schumacher, Cordelia Heß, 2025-07-14 In Aristotle's Poetics the well constructed turning point peripeteia makes a story by unfolding its tragic or more broadly literary potential But neither narrative nor historical turning points

occur in empty spaces Given the power of the peripety for plot making this volume inquires about its agency in the shaping of specific regions Narration matters for the constitution of events and regions alike space matters as a key element for the construction of plots and their dynamics The Baltic Sea region with its rich literary and cultural traditions and multiple overlapping layers of historical ruptures is a particularly fruitful area for exploring transformation processes from a narratological point of view

The Persistence of Racialization Luz Angélica Kirschner, 2024-10-18 The Persistence of Racialization Literature Gender and Ethnicity represents an attempt at unpacking the legacy of modern ideas of race initiated and established during the conquest of the Americas and their current relevance for literary criticism of ethnic writing also known as minority writing The book challenges ideas of a post racial globalized world to question the tendency to devalue ethnic literary writing in general and ethnic women's productions in particular by questioning reductive literary criticism of ethnic writing that perpetuates bias against ethnic writing and its authors By advocating for a decolonial literary imagination the book urges literary critics of ethnic writing to consider the complexities of modern race and its enduring impact on contemporary social and cultural narratives Updated literary analyses of Jewish Argentine Turkish German and Chinese American women writers encourage literary critics of ethnic writing to explore alternative transnational frameworks that prioritize equity diversity and social justice

Cultures of Violence in the New German Street Patricia Anne Simpson, 2011-11-21 In post Wall Germany violence both real and imagined is increasingly determining the formation of new cultural identities Patricia Anne Simpson's book focuses on the representation of violence in three youth subcultures often characterized by aggression as they enact a rivalry for supremacy on the new German street the author's operative metaphor to situate the cultural discourse about violence The selected literary texts films and music exemplify the urgent need for a sustained debate about violence as an aspect of both social reality and the national imaginary Simpson's study discloses the relationship between narratives of violence and issues of immigration ethnic difference and poverty Her lucid readings examine the ways in which violence is grounded in the asphalt of Germany's new street This interdisciplinary study identifies the motivations decisions and consequences of violent acts and the stories that convey them Simpson draws examples from popular genres and subcultures including punk hip hop and skinhead sounds styles and politics With theoretical sophistication and analytical clarity the author locates the contested territory of the street within larger European contexts of violence while paying careful attention to the particularities of German history She reveals new insights into the construction of citizenship masculinity and contemporary ethics In addition Simpson demonstrates the importance of concepts embedded in the representation of violence including revised definitions of heroism community and evolving ideas of fraternity family and home
