Selected Correspondence Of Marcel Duchamp:

Affectionately, Marcel Marcel Duchamp, 2000 Marcel Duchamp left behind a large volume of correspondence more than a thousand documents forming a valuable archive of primary source materials on one the 20th Century's most important cultural figures. In his letters Duchamp writes about his latest plans, works in progress, concepts such as the ready-made, his passion for chess, the mundane details of life as well as extraordinary ideas. The letters are reproduced in their entirety along with chronological and biographical data illuminating the circumstances behind the letters. An essential volume for art historians and students of 20th Century culture. **Affectionately, Marcel** Marcel Duchamp, 1999 [Affect/Marcel](#) Marcel Duchamp, Francis M. Naumann, Hector Obalk, 2000 Marcel Duchamp left a large volume of correspondence, a thousand documents that form a unique source for our knowledge of the artist's personality and work. In his letters Duchamp talks of his latest plans and works in progress. He discusses important projects including the ready-made, a concept that was radically to change the course of 20th century art. **Marcel Duchamp** Caroline Cros, 2006 A fresh account of Marcel Duchamp that includes much material on his life after he stopped making art. [A Chance Meeting](#) Rachel Cohen, 2024-03-19 Weaving a tapestry of creativity and circumstance, this lauded chronicle of the many links and serendipitous meetings between giants of American culture from Henry James to Gertrude Stein to Zora Neale Hurston to Marcel Duchamp now includes a new afterword by the author. Rachel Cohen's *A Chance Meeting* is a dazzling group portrait that offers a striking new vision of the making and remaking of the American mind and imagination from the Civil War to the Vietnam War. How does the happenstance of daily life become history? Cohen shows us describing a series of now boldly now subtly transformative encounters between a wide and surprising range of Americans. A young Henry James has his portrait taken by the photographer Mathew Brady. Brady who will receive Walt Whitman in his studio and depict General Grant on the battlefield. Later W. E. B. Du Bois and his professor William James visit Helen Keller. Edward Steichen and Alfred Stieglitz argue about photography and Langston Hughes and Zora Neale Hurston write a play together. Throughout Cohen's narrative loops back and leaps forward with supreme agility connecting among others Willa Cather, Elizabeth Bishop, Marianne Moore, Beauford Delaney, James Baldwin and Richard Avedon. In *A Chance Meeting* Rachel Cohen offers an abiding account of the continuing challenges and the astonishing achievements of American life. **Curious Disciplines** Sarah Hayden, 2018-04-15 Foregrounding Loy's critical interrogation of Futurist, Dadaist, Surrealist and Degenerate art, and exploring her poetic legacies today *Curious Disciplines* reveals Loy's importance in an entirely novel way. [Robert Rauschenberg and Surrealism](#) Gavin Parkinson, 2023-03-23 The art of Robert Rauschenberg 1925-2008 is usually viewed as quite distinct from Surrealism, a movement which the artist himself displayed some hostility towards. However, Rauschenberg had a very positive reception among Surrealists, particularly across the period 1959-69. In the face of Rauschenberg's avowals of his own literalism and insistence on his art as facts, this book gathers generous evidence of the poetic, metaphorical, allusive

associative and connotative dimensions of the artist's oeuvre as identified by Surrealists and thus extrapolates new readings from Rauschenberg's key works on that basis. By viewing Rauschenberg's art against the expansion of the cultural influence of the United States in Europe in the period after the Second World War and the increasingly politicized activities of the Surrealists in the era of the Algerian War of Independence 1954-62, Robert Rauschenberg and Surrealism shows how poetic inference of the artist's work was turned towards political interpretation. By analysing Rauschenberg's art in the context of Surrealism and drawing from it new interpretations and perspectives, this volume simultaneously situates the Surrealist movement in 1960s American art criticism and history.

Dada Culture, 2016-08-01

How Dada is to break its cultural accommodation and containment today necessitates thinking the historical instances through revised application of critical and theoretical models. The volume *Dada Culture: Critical Texts on the Avant Garde* moves precisely by this motive, bringing together writings which insist upon the continuity of the early twentieth-century moment now at the start of the twenty-first. Engaging the complex and contradictory nature of Dada strategies instanced in the linguistic gaming and performativity of the movement's initial formation and subsequently isolating the specific from the general with essays focusing on Ball, Tzara, Serner, Hausmann, Dix, Heartfield, Schwitters, Baader, Cravan and the exemplary Duchamp, the political philosophy of the avant-garde is brought to bear upon our own contemporary struggle through critical theory to comprehend the cultural usefulness, relevance, validity and effective or otherwise oppositionality of Dada's infamous anti-stance. The volume is presented in sections that progressively point towards the expanding complexity of the contemporary engagement with Dada as what is often exhaustive historical data is forced to rethink, realign and reconfigure itself in response to the analytical rigour and exercise of later twentieth-century animal-anarchic thought, the testing and cultural placement of thoughts upon the virtual and the eventual implications for the once blissfully unproblematic idea of expression. From the opening provocative proposition that historically Dada may have been the falsest of all false paths, the volume rounds to dispute such condemnation as demarcation continues not only of Dada's embeddedness in western culture but more precisely of the location of Dada culture.

Ten critical essays by Cornelius Partsch, John Wall, T. J. Demos, Anna Schaffner, Martin I. Gaughan, Curt Germundson, Stephen C. Foster, Dafydd Jones, Joel Freeman and David Cunningham are supplemented by the critical bibliography prepared by Timothy Shipe, which documents the past decade of Dada scholarship and in so doing provides a valuable resource for all those engaged in Dada studies today.

Dressing and Undressing Duchamp Ingrid E. Mida, 2022-08-25 Fashion is a subject that has long been marginalized in art history and in museums And yet one of the most well known artists in the twentieth century Marcel Duchamp created works that challenge the notion that fashion does not belong in the museum As well there is material evidence of his engagement with clothing as part of his oeuvre This book reveals that clothing and dressing are significant themes that recur in Duchamp's life and his work including his drawings his fashioning of his body his readymades and in his curatorial gestures In examining the items of clothing worn by Duchamp and the related traces of his wardrobe management Duchamp is unmasked as a dandy His waistcoat readymade series *Made to Measure* 1957 1961 is in fact a remarkable and deliberate effort to recalibrate the definition of the readymade to include clothing With this little studied readymade series Duchamp established a precedent for sartorial art as a valid form of artistic expression In considering the material traces of Duchamp's fashioning of his body and identity in his work and life this book makes a highly original contribution to the understanding of Duchamp's work as well as the significance of the clothed body in the vanguard of Modernism Ultimately this book explains the relevance of fashion in the museum to modern audiences today

Infrathin Marjorie Perloff, 2021-09-03 Esteemed literary critic Marjorie Perloff reconsiders the nature of the poetic examining its visual grammatical and sound components The *infrathin* was Marcel Duchamp's playful name for the most minute shade of

difference that between the report of a gunshot and the appearance of the bullet hole or between two objects in a series made from the same mold Eat is not the same thing as ate The poetic Marjorie Perloff suggests can best be understood as the language of infrathin For in poetry whether in verse or prose words and phrases that are seemingly unrelated in ordinary discourse are realigned by means of sound visual layout etymology grammar and construction so as to make it new In her revisionist micropoetics Perloff draws primarily on major modernist poets from Stein and Yeats to Beckett suggesting that the usual emphasis on what this or that poem is about does not do justice to its infrathin possibilities From Goethe's eight line Wanderer's Night Song to Eliot's Four Quartets to the minimalist lyric of Rae Armantrout Infrathin is designed to challenge our current habits of reading and to answer the central question what is it that makes poetry poetry *Moving Modernisms* David Bradshaw, Laura Marcus, Rebecca Roach, 2016-07-07 The essays in *Moving Modernisms* Motion Technology and Modernity written by renowned international scholars open up the many dimensions and arenas of modernist movement and movements spatial geographical and political affective and physiological temporal and epochal technological locomotive and metropolitan aesthetic and representational Individual essays explore modernism's complex geographies focusing on Anglo-European modernisms while also engaging with the debates engendered by recent models of world literatures and global modernisms From questions of space and place the volume moves to a focus on movement and motion with topics ranging from modernity and bodily energies to issues of scale and quantity The final chapters in the volume examine modernist film and the moving image and travel and transport in the modern metropolis Movement is reality itself the philosopher Henri Bergson wrote the original and illuminating essays in *Moving Modernisms* point in new ways to the realities and the fantasies of movement in modernist culture **Conceptual Performance** Nick Kaye, 2023-12-22 *Conceptual Performance* explores how the radical visual art that challenged material aesthetics in the 1960s and 1970s tested and extended the limits character and concept of performance *Conceptual Performance* sets out the history theoretical basis and character of this genre of work through a wide range of case studies The volume considers how and why principal modes and agendas in Conceptual art in the 1960s and 1970s necessitated new engagements with performance as well as expanded notions of theatricality In doing so this book reviews and challenges prevailing histories of Conceptual art through critical frameworks of performativity and performance It also considers how Conceptual art adopted and redefined terms and tropes of theatre and performance including score document embodiment documentation relic remains and the narrative recuperation of ephemeral work While showing how performance has been integral to Conceptual art's critiques of prevailing assumptions about art's form purpose and meaning this volume also considers the reach and influence of Conceptual performance into recent thinking and practice This book will be of interest to scholars and students of theatre performance contemporary art and art history **The Art of Mechanical Reproduction** Tamara Trodd, 2015-09-25 *The Art of Mechanical Reproduction* presents a striking new approach to how traditional art mediums painting sculpture and drawing

changed in the twentieth century in response to photography film and other technologies Countering the modernist view that the medium provides advanced art with resistance against technological pressures Tamara Trodd argues that we should view art and its practices as imaginatively responding to the potential that artists glimpsed in mechanical reproduction putting art into dialogue with the commercial cultures of its time The Art of Mechanical Reproduction weaves a rich history of the experimental networks in which artists as diverse as Paul Klee Hans Bellmer Ellsworth Kelly Robert Smithson Gerhard Richter Chris Marker and Tacita Dean have worked and it shows for the first time how extensively technological innovations of the moment have affected their work Original and broad ranging The Art of Mechanical Reproduction challenges some of the most respected and entrenched criticism of the past several decades and allows us to think about these artists anew
