Phone: 573-3447 (home fax: 573-3447)

Office Hours: Fri 1:00-2:00 PM (by appointment), open about 90% of the time, and by appointment.

Course Description: This course will focus on the areas of process management and supply chain management. Within Process Management (PPM) we will focus on (a) designing relationships between processes, inventory, order time, and throughput; (b) scheduling and planning process capacity; (c) managing process quality; (d) Supply Chain Management (SCM); and with emphasis on time areas of customer responsiveness, efficiency, process capacity utilization; (e) total customer cost; and (f) time to market as supply chain cost is maintained using inventory control.

Course Objectives: This course is an introduction to Operations Management (OM), which focuses on the design and control of production systems within both production and service oriented organizations. Specifically, this course seeks to (a) introduce students to the basic concepts of OM; (b) acquaint students with terminology in the area; and (c) prepare students for some operations modeling tools used in manufacturing OM.

Textbook (optional): Managing Supply with Demand – An Introduction to Operations Management, 4th Edition, Chase and Garibay, McGraw-Hill, 2019

Classroom: A new package will be available in Target Center across from campus.

First or last semester? This is both options. The new package is required and necessary.

Equipment/Software Requirements: A laptop that meets current college computing standards and equipped with a current copy of Microsoft Office 2019 or later.

Course Materials: will be a materials management office class. A new package is available at target copy and includes a number of cases that will be discussed. Case studies will cover various combinations of questions for the various material flows and manufacturing from participation in the class discussion for each case. OM will ultimately be that participating participants will be the first to get the most value.
