

On the Prospect of Weaponized Death

John Gillespie

I.

When the idea for this essay originally came to me, I was at a neighborhood vigil for the late rapper Lor Scoota, an influential figure in the Baltimore hip hop scene.¹ After hours of Black tears and suffering, due to the murder of yet another Black person, a burst of black joy emerged as if from the ashes, as folks listened to Scoota's hit single "Bird Flu" on repeat, and danced around the neighborhood. This burst of black joy must have shook the entire city. Consequently, the Black mourners-turned-dancers were met by the police state issuing a curfew, forcing everyone to go home. The police, in riot gear, surrounded the mourners with guns pointed in their direction and helicopters that circled the West Baltimore neighborhood. Newscasters and cameras poured into the neighborhood as flashing lights beamed down throughout the darkness, where the shiny metallic balloons that read "SCOOTA" still danced in the wind. We were occupied in every direction.

There had been no riots, but the police prepared for war as if Baltimore was burning. I could not help but be mesmerized at the militarized guns, the riot shields, the coordination and discipline of the force. I could not help but observe the size and number of police officers-turned-domestic-military. I could not help but be enamored by the spectacular power of the State, and recognize this as the social utility of occupation—to stiffen black existence, to sustain the simulation of white superiority and black inferiority. I could not help but think about the need for a revolution. I was taken by an impulse to destroy the simulation and return to a new Real—a "zero degree of transformation," a "turn toward blackness."² Yet I was also struck by the thought that if a revolution were to come, we could never win.

We could never win a revolution, and the death that swallowed Lor Scoota is the same unceasing death that surrounds the people who mourned him, and anyone who attempts to challenge the anti-Black world. It was not easy to come to this conclusion. I still obtain glimmers of hope for the future, but the historical record shows that if the future is anything like the past, the only thing guaranteed is fungibility and accumulation. I remember running home, crying, and writing the beginning sketches of what would become this essay. These sketches became the building blocks for a theory of *weaponization*—one blackened answer to the question of "how should we live" in the unending age of anti-blackness. I did not write this out of self-righteous radicalism. In fact, I believe that those who write radicalism self-righteously forget that, "Normally people are not radical, normally people are not

Prospect Of Death:

Scriptural supports for the timorous Christian in the prospect of death. ... To which are subjoined ... reflections on the Resurrection ... With Cennick's ... lines on death Reynold HOGG,1823 *Walking Through the Valley - Dealing with the Prospects of Death with Bulbar A.L.S. (Lou Gehrig's Disease)* Howard C. Lund,2005-11-01 Every person's journey through life has seasons of challenge and times of great change But knowing what scripture says about the true reality of our existence provides us with joy strength and faith to go through the struggle and rise above it Read how a man with great faith journeys through a seemingly hopeless situation with peace for the day and great hope for the future It is not an easy journey but one well worth the eternal reward Whatever your situation you will be challenged and encouraged

Valberg,2018-06-26 Might this be a dream In this book distinguished philosopher J J Valberg approaches the familiar question about dream and reality by seeking to identify its subject matter what is it that would be the dream if this were a dream It turns out to be a subject matter that contains the whole of the world space and time but which like consciousness for Sartre is nothing in itself This subject matter the personal horizon lies at the heart of the main topics the first person the self and the self in time explored at length in the book The personal horizon is Valberg contends the subject matter whose center each of us occupies and which for each of us ceases with death This ceasing to be presents itself solipsistically not just as the end of everything for me but as the end of everything absolutely Yet since it is the same for everyone this cannot be Death thus confronts us with an impossible fact something that cannot be but will be The puzzle about death is one of several extraphilosophical puzzles about the self that Valberg discusses puzzles that can trouble everyday consciousness without any contribution from philosophy Nor can philosophy resolve the puzzles Its task is to get to the bottom of them and in this respect to understand ourselves a task philosophy has always set itself The Oxford Handbook of Philosophy of Death Ben Bradley,Fred Feldman,Jens Johansson,2015 This Handbook consists of 21 new essays on the nature and value of death the relevance of the metaphysics of time and personal identity for questions about death the desirability of immortality and the wrongness of killing *The Psychology of Death* Robert Kastenbaum,2000-02-07 In this extensively updated and revised edition Dr Kastenbaum continues to examine and expand upon issues of dying and the ways in which we shape and reshape our conceptions of death New to the Third Edition are chapters on how we construct death Death in adolescence and adulthood including discussion on suicide physician assisted death and Regret Theory and Denial new approaches to the role of death anxiety Terror Management Theory and Edge Theory and much more A major contribution to the literature this book is must reading for professionals and students of psychology thanatology gerontology social work and those working in hospice care

grief excruciating What helped you Did someone say something comforting Did someone offer a consolation which you resented Have you ever tried to comfort someone with a terminal illness or one who has lost a loved one Knowing how to help or what to say that is not trite insincere or superficial can be difficult The point of view of a grieving person is quite different from that of those who wish to offer comfort In a multicultural society such as ours anticipating the beliefs of the grieving person can be even more difficult This book explores the perspective of a grieving person It considers the merits and potential harm of alternative comfort strategies As a philosophical analysis of grief it emphasizes an understanding of the beliefs that underlie grief and the usefulness or dangers of emotions Because grief is so complex and sensitive a narrow approach runs the risk of alienating the grieving person The ideas in this book are expressed in a dialogue among three characters Their discussion is broad and fundamental Starting from the familiar consolation She is no longer suffering and the grieving person's resentment toward the expression the three friends articulate the value of life and the evils of death Their discussion enriches their understanding of grief Many consolations offered to mourners are poor arguments Even the better ones do their work best in the context of a greater understanding of grief **The Civil Law in Its Natural Order**

Jean Domat, 1850 *Encyclopedia of Death and Dying* Glennys Howarth, Oliver Leaman, 2003-12-16 In recent years there has been a massive upsurge in academic professional and lay interest in mortality This is reflected in academic and professional literature in the popular media and in the proliferation of professional roles and training courses associated with aspects of death and dying Until now the majority of reference material on death and dying has been designed for particular disciplinary audiences and has addressed only specific academic or professional concerns There has been an urgent need for an authoritative but accessible reference work reflecting the multidisciplinary nature of the field This Encyclopedia answers that need The Encyclopedia of Death and Dying consolidates and contextualizes the disparate research that has been carried out to date The phenomena of death and dying and its related concepts are explored and explained in depth from the approaches of varied disciplines and related professions in the arts social sciences humanities medicine and the sciences In addition to scholars and students in the field from anthropologists and sociologists to art and social historians the Encyclopedia will be of interest to other professionals and practitioners whose work brings them into contact with dying dead and bereaved people It will be welcomed as the definitive death and dying reference source and an essential tool for teaching research and independent study
