Prospects For Conservatives:

Prospects for Conservatives Russell Kirk, 1956 **Prospects for Conservatives** Russell Kirk, 2013-10 This little book is principally an abridgement of my earlier Program for Conservatives I have included in it however a portion of my Bildersee Maroney Lecture at Brooklyn College on Freedom and Responsibility and a portion of an article on tradition written for Collier's Encyclopedia I am indebted to Mr Erik von Kuehnelt Leddihn and Mr W T Couch for whole paragraphs of the latter Title page verso **The Greening Of Conservative America** John Bliese, 2018-02-26 Is conservative environmentalism an oxymoron Is more environmental regulation good for business The Greening of Conservative America contends that the adherents to any well considered conservative political philosophy should on first principles support pro conservation pro environment policies Furthermore and pragmatically Bliese demonstrates with repeated examples how environmental protection policies actually benefit business by stimulating greater efficiency and innovation and by spurring the creation of green products and services for new markets around the globe These ideas are applied in chapters on specific environmental issues including pollution global warming biodiversity public land management and sustainability The book concludes with criticisms of free market environmentalism and calls conservatives back to their root principles on matters of the environment Concerned citizens of any political persuasion will find much in this book to inform their views on public debates over environmental issues and policies *Russell Kirk* James E. Person, 1999-10-20 This first full length treatment of Russell Kirk's life and accomplishments blends new biographical insights and critical perspectives about the author of the ground breaking *The Conservative Mind* Russell Kirk Bradley J. Birzer, 2015-11-09 Emerging from two decades of the Great Depression and the New Deal and facing the rise of radical ideologies abroad the American Right seemed beaten broken and adrift in the early 1950s Although conservative luminaries such as T S Eliot William F Buckley Jr Leo Strauss and Eric Voegelin all published important works at this time none of their writings would match the influence of Russell Kirk's 1953 masterpiece *The Conservative Mind* This seminal book became the intellectual touchstone for a reinvigorated movement and began a sea change in Americans attitudes toward traditionalism In *Russell Kirk* Bradley J Birzer investigates the life and work of the man known as the founder of postwar conservatism in America Drawing on papers and diaries that have only recently become available to the public Birzer presents a thorough exploration of Kirk's intellectual roots and development The first to examine the theorist's prolific writings on literature and culture this magisterial study illuminates Kirk's lasting influence on figures such as T S Eliot William F Buckley Jr and Senator Barry Goldwater who persuaded a reluctant Kirk to participate in his campaign for the presidency in 1964 While several books examine the evolution of postwar conservatism and libertarianism surprisingly few works explore Kirk's life and thought in detail This engaging biography not only offers a fresh and thorough assessment of one of America's most influential thinkers but also reasserts his humane vision in an increasingly inhumane time **The Natural Family Where it Belongs** Allan C. Carlson, 2017-07-12 *The Natural Family*

Where It Belongs emphasizes the vital bond of the natural family to an agrarian like household where the sexual merges with the economic through marriage and child rearing and where the family is defined by its material efforts This agrarianism is alive and well in twenty first century America and Europe Allan C Carlson argues that recreating a family centered economy portends renewal of the true democracy dreamed of by Washington Adams and Jefferson Critically well received this paperback edition makes *The Natural Family Where It Belongs* available to teachers and students of twentieth century American social history and the American family system It will also be welcomed by practitioners involved with the new agrarian revival of the last twenty five years As Carlson demonstrates agrarian households represent the touchstones of a sustainable human future Written by one of the most prestigious and respected scholars in the field *The Natural Family Where It Belongs* will influence how today's family life is viewed in America and abroad This volume is the latest in Transaction's Marriage and Family Studies series *Prospects for Conservatives* Russell Kirk, 1991 **The Spectator** ,1871 A weekly review of politics literature theology and art *Liberal Magazine* ,1896 **Poole's Index to Periodical Literature** ,1888
