A Decade of Democracy in Africa ,2002-10-31 The democratic experiment in Africa has had a checkered history over the past ten years Analysts of this process tend to focus on the political and legal space instead of including broader issues such as norms generational change and class Authors in this volume argue that African civil society is less likely to support democracy they measure African democracy by the women s rights movements unravel the mythical hope of technology and point to ideological capitulation necessary for a limited transition Past experience from Botswana South Africa Ghana Kenya Uganda and Madagascar will give the readers an understanding of democracy in Africa Contributors are Judith van Allen Lisa Aubrey Nigel Gibson Richard R Marcus Kenneth Mease Stephen N Ndegwa Stephen Orvis Dan Ottemoeller and Wisdom J Tettey

Democracy and Elections in Africa Staffan I. Lindberg,2006-09-11 Outstanding Academic Title for 2007 Choice Magazine This volume studies elections as a core institution of liberal democracy in the context of newly democratizing countries Political scientist Staffan I Lindberg gathers data from every nationally contested election in Africa from 1989 to 2003 covering 232 elections in 44 countries He argues that democratizing nations learn to become democratic through repeated democratic behavior even if their elections are often flawed Refuting a number of established hypotheses Lindberg finds no general negative trend in either the frequency or the quality of African elections Rather elections in Africa based on his findings are more than just the goal of a transition toward democracy or merely a formal procedure The inception of multiparty elections usually initiates liberalization and repeated electoral activities create incentives for political actors fostering the expansion and deepening of democratic values In addition to improving the democratic qualities of political regimes a sequence of elections tends to expand and solidify de facto civil liberties in society Drawing on a wealth of data Lindberg makes the case that repetitive elections are an important causal factor in the development of democracy He thus extends Rustow s 1970 theory that democratic behavior produces democratic values

Democratic Transitions in East Africa F. Wafula Okumu,2019-07-16 Originally published in 2004 Genocide in Rwanda massive floods of refugees and displaced people in the Horn of Africa violent civil wars in the West African countries of Sierra Leone and Liberia these are testimonies to the tremendous cost to grassroots communities when the authority and legitimacy of national political systems and leaders are called into question The consolidation of democracy represents one tangible strategy to restore authority and legitimacy of political rule providing the peace and security necessary for political enfranchisement and economic opportunity This volume explores the factors that are crucial to the emergence of democratic political systems on the African continent specifically focusing on Kenya Tanzania and Uganda It highlights the political challenges facing these countries during this crucial transition period and provides insights that are applicable to other countries engaged in this process in Africa and beyond

Democracy, Governance, and Economic Performance Yi Feng,2003 A theoretical and empirical examination of why political institutions and organizations matter in economic growth

Handbook of Economic

Development Kuo-Tsai Liou, 1998-06-25 Featuring over 1900 references drawings and tables and drawing on disciplines as diverse as political economics public management and urban affairs this versatile text offers comprehensive information on major policy and managerial issues important to local and national economic development Pulling together the work of over 40 researchers the book examines the role of government in economic advances and reform provides a complete up to date survey of the literature on local and national economic development details local and regional economic progress in the US adopts an innovative interdisciplinary approach to the study of economic expansion and more *African Economies and the Politics of Permanent Crisis, 1979-1999* Nicolas Van de Walle, 2001-09-24 This Book explains why African countries have remained mired in a disastrous economic crisis since the late 1970s It shows that dynamics internal to African state structures largely explain this failure to overcome economic difficulties rather than external pressures on these same structures as is often argued Far from being prevented from undertaking reforms by societal interest and pressure groups clientelism within the state elite ideological factors and low state capacity have resulted in some limited reform but much prevarication and manipulation of the reform process by governments which do not really believe that reform will be effective

Closing the Circle Richard Sandbrook, 2000 It is a truism that many African countries face a three pronged tribulation political tyranny failed capitalist development and violent domestic conflict The relationship between effective democratic institutions successful development and civil peace is less clear This book analyzes the experience with democratization of a carefully selected sample of countries Ghana Mali and Niger in West Africa Zambia Tanzania and Madagascar in East Africa and Sudan

Globalization - The Juggernaut of the 21st Century Jan-Erik Lane, 2016-04-22 While some people debate whether globalization really exists it proceeds apace affecting all societies It presents us with unknown challenges and as governments start to discuss what to do about these challenges it is becoming obvious that globalization is not manageable With globalization the juggernaut of the 21st century all countries of the world become interdependent in relation to the coming energy crisis climate change the sharper cleavages between rich and poor countries and people and the emergence of a multicultural social structure This interesting and erudite book adopts a distinctive approach to the multiple dimensions of the globalization debate The impressive coverage of philosophical thought including Popper Weber Habermas Lipset and Hobbes makes a valuable contribution to the debates on globalization
