The Idea of Prostitution Sheila Jeffreys, 1997 There are at least two competing views on prostitution prostitution as a legitimate and acceptable form of employment freely chosen by women and men s use of prostitution as a form of degrading the women and causing grave psychological damage In *The Idea of Prostitution* Sheila Jeffreys explores these sharply contrasting views

Sex, Age & Menopause: a baby boomer's manifesto, Missionary Positions Lauren McGrow, 2017-08-28 *Missionary Positions* examines the context for Christian outreach to people in the sex industry Over the last 20 years faith based organisations have become more engaged in ministering with sex workers But what are the methods and desired outcomes that undergird pastoral practice in this field Most Christians see prostitution as evil and those who sell sex are considered broken victims in need of restoration Yet the voices and experiences of sex workers themselves often challenge these assumptions Using feminist and postcolonial perspectives interviews with Christian practitioners in Australia and personal narrative Lauren McGrow carves out a space for the dynamic theological agency and life complexity of sex workers to be more fully acknowledged in faith based outreach projects

Love, Sex, and Marriage Julie Coleman, 2022-06-13 If the language we use influences and reflects the way that we see the world then the fields of LOVE SEX and MARRIAGE will show how speakers of English view their closest social and emotional relationships *Love Sex and Marriage* provides a classification of English terms for these three fields from the earliest written records of the language until the present day This volume makes it possible to trace changing attitudes towards social and sexual ties and to understand those ties as earlier speakers of English did through the language they used The terms are arranged by meaning and are listed chronologically within semantic fields with their dates of usage Notes on individual terms provide further information about their connotations and development Language does not exist in isolation from the people who speak it so background information about changes in social conditions religious beliefs and medical advancements is also included A brief introduction to basic semantic terminology explains the principles behind the classification and an alphabetical index facilitates the location of individual terms
