P. Singh,2014-02-01 The spread of Islam around the globe has blurred the connection between a religion a specific society and a territory One third of the world s Muslims now live as members of a minority At the heart of this development is on the one hand the voluntary settlement of Muslims in Western societies and on the other the pervasiveness and influence of Western cultural models and social norms The revival of Islam among Muslim populations in the last twenty years is often wrongly perceived as a backlash against westernization rather than as one of its

consequences Neofundamentalism has been gaining ground among a rootless Muslim youth particularly among the second and third generation migrants in the West and this phenomenon is feeding new forms of radicalism ranging from support for Al Qaeda to the outright rejection of integration into Western society In this brilliant exegesis of the movement of Islam beyond traditional borders and its unwitting westernization Olivier Roy argues that Islamic revival or re Islamization results from the efforts of westernized Muslims to assert their identity in a non Muslim context A schism has emerged between mainstream Islamist movements in the Muslim world including Hamas of Palestine and Hezbollah of Lebanon and the uprooted militants who strive to establish an imaginary ummah or Muslim community not embedded in any particular society or territory Roy provides a detailed comparison of these transnational movements whether peaceful like Tablighi Jama at and the Islamic brotherhoods or violent like Al Qaeda He shows how neofundamentalism acknowledges without nostalgia the loss of pristine cultures constructing instead a universal religious identity that transcends the very notion of culture Thus contemporary Islamic fundamentalism is not a single note reaction against westernization but a product and an agent of the complex forces of globalization

Youth, Crime, and Justice Clayton A Hartjen, 2008-03-25 Close to half of the world s population is below the age of criminal jurisdiction in most countries Many of these young people are living in poverty and under totalitarian regimes Given their deprived and often abject circumstances it is not surprising that many of them become involved in crime In *Youth Crime and Justice* Clayton A Hartjen provides a broad overview of juvenile delinquency how it manifests itself around the world and how societies respond to misconduct among their children Taking a global rather than country specific approach chapters focus on topics that range from juvenile laws and the correction of child offenders to the abuse exploitation and victimization of young people Hartjen includes specific examples from the United States Australia Spain Switzerland New Zealand Japan India Egypt and elsewhere as he sorts through the various definitions of delinquent and explores the differences in behavior that contribute to these classifications Most importantly his in depth and comparative look at judicial systems worldwide raises questions about how young offenders should be corrected and how much fault can be laid on misbehaving youths acting out against the very societies that produced them

Political Governance and Minority Rights Lipi Ghosh, 2020-11-29 This volume brings together a collection of essays analysing the current scenario in South and Southeast Asia with respect to the position of minority groups Based on an in depth investigation of some of the lasting minority majority conflicts of the post colonial period in countries that often escape comparison the articles are a rich and critical exposition of the social economic cultural and political dimensions of these struggles The central question being addressed is that of community rights in the modern nation state and how these are being understood by the two concerned parties and where and when thereof a situation of conflict arose
