HOW TO TRAIN GUARD DOG Kyle Dennis, 2023-03-07 A guard dog or a watchdog is trained to protect your property and your family Contrary to what you might think most guard dogs are not taught to attack Rather they are taught non confrontational techniques such as how to stand guard and how to use their bark to alert you of a stranger or potential danger on your property Training your dog to be a guard dog will take some time and patience but the result will be a dog that will not only protect you against a threat but will also be comfortable and well behaved in non threatening situations This book will also answer all your unanswered questions about how best to raise a guard dog to protect you and your household We have had on many occasions handlers and their families protected by their dogs that went through my guard dog training manual Handlers and their families were saved from hi jacking hold up gun attacks attacks at home because of their loyal dogs **ORDER YOUR COPY NOW** [Protection Dogs for You and Your Family](#) Edward Weiss, 1992 [Livestock Protection Dogs, 2nd Edition](#) Orysia Dawydiak, David Sims, 2019-05-17 Small farms and large ranches are turning to dogs as a humane and ecologically sound way to protect their investments This newly revised edition will make it easy to select a breed care for and train a livestock protection dog Training methods have been refined and expanded and there s even a chapter on guarding unusual stock plus a discussion of theory history and selection livestock protection breeds as dual companion working dogs puppy temperament testing and training Illustrated Topics include What a livestock protection dog can do Selecting a puppy Caring for your dog Behavioral problems and solutions Preparations for a family companion Guarding unusual stock Older dogs Puppy temperament testing and training Plus much more Note from Dogwise Publishing Please be aware that this older title may recommend some training techniques that are now considered outdated At the time of publication the use of negative reinforcement and positive punishment were more widely used to teach certain types of behaviors especially with dogs who display a high degree of resilience We encourage owners to always use the least intrusive minimally aversive methods possible <https://m.iaabc.org/about/position-statements/lima> **Shaping the Wolf Within Your Dog** Nathan B. Childs, 2004 Shaping the Wolf Within Your Dog is a comparison study of wolf and dog behavior It is also a comprehensive guide for living in harmony with dogs We know dogs are genetically related to the wolf and both exhibit identical instincts behaviors temperaments and dispositions and both abide to the law of nature that contends for any animal grouping to survive there must be social order and communication between its members Knowing this we should learn all we can about wolf behavior and incorporate that knowledge with our dogs By learning how pack animals establish social order and communicate with one another we can use this information to shape our dogs natural instincts without having to use food bribes or violence When we communicate in our dogs language we will be able to communicate our leadership The outcome will be predictable for we will be using the same methods of an alpha wolf when he establishes and maintains social order with a pack of wolves We will be shaping the same wolf instincts that are intact and engaged in each of our dogs
