Proto Fascism In America

Alan McPherson

Proto Fascism In America:

It Did Happen Here: The Rise of Fascism in Contemporary Society Milan Zafirovski, 2023-04-12 This book argues and demonstrates that fascism did happen in contemporary society such as especially America as during post 2016 It classifies and discusses the main elements of fascism to see if these reveal and replicate themselves in America post 2016 It discovers the specific syndromes of fascism in America post 2016 that reveal and replicate universal fascist features It detects the main social causes of fascism in America post 2016 It identifies primary counterforces to fascism in America and elsewhere Lastly the book constructs a composite fascism index and calculates fascism indexes for Western and comparable societies like OECD countries These indexes provide suggestive evidence that fascism happened in America and other OECD countries even if not in Western Europe especially Scandinavia

The Destiny of Modern Societies Milan Zafirovski, 2009-07-15 This book is a sociological analysis of the relationship between modern society in particular America and Calvinism in the Weberian tradition While the book continues this tradition it further expands elaborates on and goes beyond earlier sociological analyses The book examines the impact of Calvinism on modern society as a whole thus extending elaborating on and going beyond the previous analyses of the influence of the Calvinist religion only on the capitalist economy It analyzes how Calvinism has determined most contemporary social institutions including political civic cultural and economic in its respective societies particularly through its derivative Puritanism America For that purpose the book applies the idea of the destiny of societies or nations to American society in particular It argues demonstrates and illustrates the Calvinist societal predestination through the Puritan determination of American society

A Progressive History of American Democracy Since 1945 Chris J. Magoc, 2021-12-29 A Progressive History of American Democracy Since 1945 American Dreams Hard Realities offers a social political and cultural history of the United States since World War II Unpacking a period of profound transformation unprecedented in the national experience this book takes a synthetic approach to the history of the 1940s to the present day It examines how Americans descended from a mid century apogee of boundless expectations to the unsettling premise that our contemporary historical moment is fraught with a sense of crisis and national failure The book s narrative explores the question of decline and more importantly how the history of this transformation can point the way toward a recovery of shared national values Chris J Magoc also gives extensive treatments to the following Grassroots movements that have expanded the meaning of American democracy from the 1950s human rights struggle in the South to contemporary movements to confront systemic racism and the existential crisis of climate change The resilience of American democracy in the face of antidemocratic forces The impacts of a decades long economic transformation The consequences of America s expanding global military footprint and national security state Fracturing of a nation once held together by a post war liberal consensus and broadly shared societal goals to an America facing an attack from within on empirical truth and democracy itself This book will be of interest to students of modern U S history social history and American Studies and

general readers interested in recent U S history **Encyclopedia of U.S. Military Interventions in Latin America** Alan McPherson,2013-07-08 This unique reference shows how the United States has intervened militarily politically and economically in Central America South America and the Caribbean from the early 19th century to the present day What do baseball American war crimes and a slice of watermelon have in common in the annals of Latin American history Believe it or not this disparate grouping reflects the cultural and historical remnants of America s military and political involvement in the region As early as 1811 the United States began intervening in the affairs of Central America South America and the Caribbean and it hasn t stopped since This compelling reference analyzes both the major interventions and minor conflicts stemming from our nation s military operations in these areas and examines the people places legislation and strategies that contributed to these events In addition to documented facts and figures the alphabetically organized entries in Encyclopedia of U S Military Interventions in Latin America present fascinating anecdotes on the subject including why the United States once invaded Panama over a slice of watermelon how an intervention in Nicaragua landed our country on trial for war crimes and how the popularity of baseball in Latin America is a direct result of American influence Primary source documents and visual aids accompany the content *Eliminationists* David Neiwert,2016-01-20 The Eliminationists describes the malignant influence of right wing hate talk on the American conservative movement Tracing much of this vitriol to the dank corners of the para fascist right award winning reporter David Neiwert documents persistent ideas and rhetoric that champion the elimination of opposition groups As a result of this hateful discourse Neiwert argues the broader conservative movement has metastasized into something not truly conservative but decidedly right wing and potentially dangerous By tapping into the eliminationism latent in the American psyche the mainstream conservative movement has emboldened groups that have inhabited the fringes of the far right for decades With the Obama victory their voices may once again raise the specter of deadly domestic terrorism that characterized the far Right in the 1990s How well Americans face this challenge will depend on how strongly we repudiate the politics of hate and repair the damage it has wrought Postwar American Fiction and the Rise of Modern Conservatism Bryan M. Santin,2021-03-11 Shows how shifting views on race caused the American conservative movement to surrender highbrow fiction to to progressive liberals *Friendly Fascism* Gross Bertram Gross,2020-07-19 The 8th November 2016 marked a startling new era in American political life After the creeping ascent of Right wing authoritarian parties in the UK and Europe Donald Trump s victory in the presidential election brought an alarming form of e alt righte neo conservatism into the American political mainstream Many aspects of this descent into the darkness of fascism was predicted by Bertram Gross in Friendly Fascism a provocative and original critique of a subtle yet growing fascism in American political life Gross shows that the chronic problems faced by the U S in the late twentieth century required increasing collusion between big business and big government to manage society in the interests of the privileged and powerful The resulting e friendly fascisme Gross suggests lacks the dictatorships public spectacles and overt

brutality of 20th century fascism but has at its root the same denial of individual freedoms and democratic rights No one who cares about the future of democracy can afford to ignore the frightening realities of Friendly Fascism America at War with Itself Henry A. Giroux, 2016-08-22 From poisoned water and police violence in our cities to gun massacres and hate mongering on the presidential campaign trail evidence that America is at war with itself is everywhere around us The question is not whether or not it s happening but how to understand the forces at work in order to prevent conditions from getting worse Henry A Giroux offers a powerful far reaching critique of the economic interests cultural dimensions and political dynamics involved in the nation s shift toward increasingly abusive forms of power His analysis helps us to frame critical questions about what can and should be done to turn things around while we can Reflecting on a wide range of social issues Giroux contrasts Donald Trump s America with Sandra Bland s to understand who really benefits from politically fueled intolerance for immigrants communities of color Muslims low income families and those who challenge state and corporate power A passionate advocate for civil rights and the importance of the imagination Giroux argues that only through widespread social investment in democracy and education can the common good hope to prevail over the increasingly concentrated influence of extreme right wing politicians and self serving economic interests Praise for America at War with Itself This is the book Americans need to read now No one is better than Henry Giroux at analyzing the truly dangerous threats to our society He punctures our delusions and offers us a compelling and enlightened vision of a better way America at War with Itself is the best book of the year Bob Herbert Distinguished Senior Fellow at Demos and former Op Ed columnist for the New York Times In this current era of corporate media misdirection and misinformation America at War with Itself is a must read for all Americans especially young people Henry Giroux is one of the few great political voices of today with powerful insight into the truth Dr Giroux is defiantly explaining against the grain what s REALLY going on right now and doing so quite undeniably Simply put the ideas he brings forth are a beacon that need to be seen and heard and understood in order for the world to progress Julian Casablancas In America at War with Itself Henry Giroux again proves himself one of North America s most clear sighted radical philosophers of education culture and politics radical because he discards the chaff of liberal critique and cuts to the root of the ills that are withering democracy Giroux also connects the dots of reckless greed corporate impunity poverty mass incarceration racism and the co opting of education to crush critical thinking and promote a culture that denigrates and even criminalizes civil society and the public good His latest work is the antidote to an alarming tide of toxic authoritarianism that threatens to engulf America The book could not be more timely Olivia Ward Toronto Star America at War with Itself makes the case for real ideological and structural change at a time when the need and stakes could not be greater Everyone who cares about the survival and revival of democracy needs to read this book Kenneth Saltman Professor University of Massachusetts Dartmouth Author of The Failure of Corporate School Reform Henry A Giroux s most recent books include The Violence of Organized Forgetting and America s Addiction to Terrorism A prolific

writer and political commentator he has appeared in a wide range of media including the New York Times and Bill Moyers

Radical Conservatism and the Future of Politics Goran Dahl, 1999-03-28 Over the last 30 years the post war centre ground which recognized the welfare state the funding of education protection of the environment and the management of capitalism as the proper business of the state has fragmented Emphasis on the freedom of the individual and the proper limitations of state power has changed the climate of everyday life This book locates the roots of radical conservatism in the writings of Nietzsche Dostoyevsky Heidegger Junger and Schmitt It documents the radical conservative worldview and points to limitations in its perspective Dahl asserts that we should be wary of considering radical conservatism as a singular phenomenon and discusses global divergences in belief and policy

Politics of Fear Manuel G. Gonzales, Richard Delgado, 2015-12-03 Lucidly written widely informed and uncompromisingly honest a valuable expose Michael Parenti Documents the stunning success of a network of wealthy donors and corporations in creating and sustaining a set of think tanks legal action groups and media strategies Gary Orfield Harvard University What explains the electoral success of Republicans particularly of the ascendant neoconservatives who now dominate the Party Based on a thorough and up to date examination of the New Right over twenty five years The Politics of Fear proposes some provocative answers including globalization new technologies and a far reaching network of right wing think tanks and foundations As the authors show all have opened the doors to a new politics of fear successfully waged by the neoconservatives By manipulating insecurity the New Right has created an extraordinarily successful populist conservative movement Utilizing extensive documentation the authors argue convincingly that the fear of immigrants and racial minorities has served as the most effective tactic in the GOP arsenal while their approach also implicates gays feminists and terrorists The book explains why Americans have willingly supported a party that promises them security just as it delivers greater economic and political insecurity The authors argue that despite their striking political successes neoconservatives have delivered to voters a set of policies harmful to working Americans in the way of regressive tax measures military exploits tort reform deregulation and environmental destruction

Uncover the mysteries within is enigmatic creation, Embark on a Mystery with **Proto Fascism In America** . This downloadable ebook, shrouded in suspense, is available in a PDF format (*).
