Proust Project:

The Proust Project André Aciman, 2004 The author of *Out of Egypt* and a regular contributor to the New York Times Book Review presents contributions from twenty eight writers on the life work and legacy of Proust including Shirley Hazard Lydia Davis Alain de Botton and many others 15 000 first printing

Proust's Imaginary Museum Gabrielle Townsend, 2008 This study of Marcel Proust's creative imagination examines an aspect of the novel that has hitherto been largely overlooked the author's dependence on secondary visual sources Gabrielle Townsend argues that reproductions play a key role in the work's complex multi layered structure

Proust's Duchess Caroline Weber, 2019-11-26 PULITZER PRIZE FINALIST A brilliant look at turn of the century Paris through the first in depth study of the three women Proust used to create his supreme fictional character the Duchesse de Guermantes Weber has done a remarkable job of bringing to life a world of culture glamour and privilege The Wall Street Journal Geneviève Halvy Bizet Straus Laure de Sade Comtesse de Adhème de Chevalign and Elisabeth de Riquet de Caraman Chimay the Comtesse Greffulhe these were the three superstars of fin de siècle Parisian high society who as Caroline Weber says transformed themselves and were transformed by those around them into living legends paragons of elegance nobility and style All well but unhappily married these women sought freedom and fulfillment by reinventing themselves between the 1870s and 1890s as icons At their fabled salons they inspired the creativity of several generations of writers visual artists composers designers and journalists Against a rich historical backdrop Weber takes the reader into these women's daily lives of masked balls hunts dinners court visits nights at the opera or theater But we see as well the loneliness rigid social rules and loveless arranged marriages that constricted these women's lives Proust as a twenty year old law student in 1892 would worship them from afar and later meet them and create his celebrated composite character for *The Remembrance of Things Past*

Afterlives of Abandoned Work Matthew Harle, 2018-12-27 *Afterlives of Abandoned Work* considers the relevance of unfinished projects to literary history and criticism looking beyond famous posthumous work to investigate the abandoned everyday from scrapped plans and rejected ideas to half written novels or unfinished artistic works It traces how the reading of abandoned creative endeavor whether arriving in the form of a rejection letter a disagreement with a collaborator or the simple act of walking away from one's desk can change the way we think about cultural production the creative process and the intellectual construction of everyday life Over five distinct journeys through a variety of archives from major research libraries to the unique collections of individual enthusiasts Matthew Harle draws surprising connections between literary studies media studies and visual arts exploring unfinished projects from Thomas Pynchon Muriel Spark B S Johnson Harold Pinter and others Rooted in literary criticism *Afterlives of Abandoned Work* reads unbuilt buildings unfilmed screenplays and unpublished novels and radio sketches as forms of text that can help us consider the enduring fragmentation and anecdotal construction of cultural form as well as expand literary criticism's approach to the archive

The Cinema of Raúl Ruiz Michael Goddard, 2013-09-22 Raúl Ruiz while considered

one of the world's most significant filmmakers by several film critics is yet to be the subject of any thorough engagement with his work in English. This volume sets out on this task by mapping as fully as possible Ruiz's cinematic trajectory across more than five decades of prolific work up to his death in 2011, ranging from his earliest work in Chile to high budget European costume dramas culminating in *Mysteries of Lisbon* (2010). It does so by treating Ruiz's work with its surrealist, magic realist, popular cultural and neo-Baroque sources as a type of impossible cinematic cartography mapping real, imaginary and virtual spaces and crossing between different cultural contexts, aesthetic strategies and technical media. It argues that across the different phases of Ruiz's work identified, there are key continuities such as the invention of singular cinematic images and the interrogation of their possible and impossible combinations.

Proust's Cup of Tea Emily Eells, 2017-03-02

Proust's Cup of Tea analyzes Proust's reading of various Victorian authors and shows how they contributed to *A la recherche du temps perdu*. This book proves that British literature and art played a fundamental role in Proust's writing process by citing from the manuscript versions of his novel as well as from his correspondence, essays and the lengthy critical apparatus accompanying his translations of Ruskin. Eells reflects here on why Proust was attracted to Victorian culture and how he incorporated it into his novel. The works of the British novelists he was most interested in, Thomas Hardy and George Eliot, address questions of gender which Proust develops in his own work. He builds *Sodome et Gomorrhe I*, the section of his novel focusing on homosexuality, on a series of explicit citations and guarded allusions to Shakespeare, Darwin, Walter Scott, Oscar Wilde and Robert Louis Stevenson. Eells explores how Proust followed in the pioneering footsteps of those British writers who had ventured beyond the boundaries of conventional sexuality, though he took pains to erase their traces in the definitive version of his work. This study also highlights how Proust made his fictitious painter Elstir into a master of ambiguity by modeling his art on Turner, the Pre-Raphaelites and Whistler. Eells shows that Proust drew on Victorian culture in his depiction of sexual ambiguity, arguing that he confounded eroticism and aestheticism in the way he inextricably linked the man-woman figure with British art and literature. As Proust aestheticized male and female homosexuality using references to British art and letters, Eells coins the term *Anglosexuality* to refer to his characters of the third sex. She defines *Anglosexuality* as an intersexuality represented through intertextuality as an artistic sensitivity, an aesthetic stance and a new way of seeing. Proust's *Cup of Tea* thus demonstrates that Victorian culture and homoeroticism form one of the cornerstones of Proust's monumental work.

Language, Madness, and Desire Michel Foucault, 2015-05-26

As a transformative thinker of the twentieth century whose work spanned all branches of the humanities, Michel Foucault had a complex and profound relationship with literature. And yet this critical aspect of his thought, because it was largely expressed in speeches and interviews, remains virtually unknown to even his most loyal readers. This book brings together previously unpublished transcripts of oral presentations in which Foucault speaks at length about literature and its links to some of his principal themes: madness, language and criticism, and truth and desire. The associations between madness and language and madness

and silence preoccupy Foucault in two 1963 radio broadcasts presented here in which he ranges among literary examples from Cervantes and Shakespeare to Diderot before taking up questions about Artaud's literary correspondence, *lettres de cachet* and the materiality of language. In his lectures on the relations among language, the literary work and literature, he discusses Joyce, Proust, Chateaubriand, Racine and Corneille as well as the linguist Roman Jakobson. What we know as literature, Foucault contends, begins with the Marquis de Sade to whose writing, particularly *La Nouvelle Justine* and *Juliette*, he devotes a full two-part lecture series focusing on notions of literary self-consciousness. Following his meditations on history in the recently published *Speech Begins after Death*, this current volume makes clear the importance of literature to Foucault's thought and intellectual development.

Proust's Snobs, Inverts, and Jews Adeline Soldin, 2025-03-06

An intersectional investigation of identity formation in Marcel Proust's magnum opus, *À la recherche du temps perdu*, as metonyms for broader categories such as class, sexuality and ethnicity, the three most discussed identity groups in Proust's *la Recherche du Temps Perdu*: snobs, inverts and Jews, prove to be deeply intertwined and perplexing representations. Attentive to these interwoven complexities, *Proust's Snobs, Inverts, and Jews* examines the novelist's exploitation of classification systems as a means to subvert the notion of a fixed identity. To illustrate Proust's challenges to a social order that restricts our perceptions of identity, Adeline Soldin addresses the inconsistencies and friction surrounding the portrayal of these key figures in his seven-volume novel. Many scholars have recognized that the narrator's formative journey in *À la Recherche* leads to disillusionment and increased mockery of his fellow characters. Soldin contends, however, that Proust does not merely deride characters' behavior but rather interrogates their diverse motivations and tendencies, thereby exposing the performative nature of identity. *Proust's Snobs, Inverts, and Jews* draws on Judith Butler's theories of performativity to illustrate Proust's precocious portrayal of identity in *À la Recherche* as an elusive, unattainable idea that characters pursue yet consistently fail to establish. Ultimately, the enigmatic and anonymous narrator models fluidity and promotes fantasy and imagination to compensate for the limitations imposed on individuals by social and linguistic conventions.

Reading Sedgwick Lauren Berlant, 2019-10-29

Over the course of her long career, Eve Kosofsky Sedgwick became one of the most important voices in queer theory, and her calls for reparative criticism and reading practices grounded in affect and performance have transformed understandings of affect, intimacy, politics and identity. With marked tenderness, the contributors to *Reading Sedgwick* reflect on Sedgwick's many critical inventions, from her elucidation of poetry's close relation to criticism and development of new versions of queer performativity to highlighting the power of writing to engender new forms of life. As the essays in *Reading Sedgwick* demonstrate, Sedgwick's work is not only an ongoing vital force in queer theory and affect theory; it can help us build a more positive world in the midst of the bleak contemporary moment.

Contributors: Lauren Berlant, Kathryn Bond Stockton, Judith Butler, Lee Edelman, Jason Edwards, Ramzi Fawaz, Denis Flannery, Jane Gallop, Jonathan Goldberg, Meridith Kruse, Michael Moon, Jos Esteban Muñoz, Chris Nealon, Andrew Parker, H. A. Sedgwick, Karin Sellberg, Michael D. Snediker, Melissa Solomon.

Robyn Wiegman **The Promise of Memory** Lorna Martens, 2011-10-10 We once believed in the power of Proust's madeleine and Wordsworth's boyhood memories before literary culture began to defer to Freud's questioning of adult memories of childhood In this first sustained look at childhood memories as depicted in literature Lorna Martens reveals how much we may have lost by turning our attention the other way
