Newman,Robert J. Sternberg,2012-12-06 We were motivated to edit this book when we began to hear stories of exceptional students who were struggling with reading writing or math but who could solve seemingly any problem with computers or build the most intricate structures with Legos or could draw beautiful pictures or could tell the most creative stories but ended up in tears when asked to write it out How is it possible to have so much talent in some areas and yet to appear to have a disability in another What resources are available for these students How can we ensure that these students abilities are nurtured and developed Our goal in this book is to provide ideas and possibly even tentative answers for educators and to stimulate more questions to be answered by researchers We have ourselves been addressing related questions for some time Our group at the PACE Center at Yale has explored the developmentof abilities competencies and expertise that allow people to be successful in life Through this work we have collaborated with school districts and other educators and researchers across the country to expand the notion ofwhat is traditionally thought ofas intelligence We use the conceptofsuccessful intelligence to allow for the possibility that the skills traditionally taught in school are not the only ones and often not even the most important ones that allow people to be successful in the world

while those who deviate tend to fall between the cracks Too often talents and interests that do not align with classroom conventions are left unrecognized and unexplored in children with extraordinary potential but little opportunity For twice exceptional 2e children who have extraordinary strengths coupled with learning difficulties the problem is compounded by the paradoxical nature of their intellect and an unbending system ill equipped to cater to their unique learning needs Twice Exceptional Supporting and Educating Bright and Creative Students with Learning Difficulties provides cutting edge evidence based approaches to creating an environment where twice exceptional students can thrive Viewing the 2e student as neither exclusively disabled nor exclusively gifted but rather as a dynamic interaction of both leading experts offer holistic insight into identification social emotional development advocacy and support for 2e students With chapters focusing on special populations including autism dyslexia and ADHD as well as the intersection of race and 2e this book highlights practical recommendations for school and social contexts In expounding the unique challenges faced by the 2e population Twice Exceptional makes a case for greater flexibility in our approach to education and a wider notion of what it means to be academically successful
