Languages Francesc Feliu,Josep Maria Nadal,2016-08-25 As language historians we believe that the subject of our study is neither natural languages nor idiolects which speakers have always been able to develop individually loosely what Chomsky calls L i but rather the social constructions of reference shared by all speakers basically what Chomsky terms as L e In this context the language historian essentially studies how a public L e is built such that it can be understood as the language of all i e hiding L i variations and also how L e succeed in replacing the primary reality of idiolects even if only in the imagination Writing represents a crucial turning point in language construction because it made it possible to materialize the abstraction that until then related speakers could only guess and besides it comes into competition with individual languages In modern centuries the provision of grammars dictionaries and other such learning tools and systematizing instruments strengthens the idea that because of their normative character languages can be learned through study Mythical stories encourage the achievement of prescriptive rules and lead speakers to link emotions to their language Therefore the topics of reflection that we want to discuss in this volume are Norms Myths and Emotions related to language construction **La vida intelectual en las provincias argentinas (1861)** Vicente Gregorio Quesada,1911 Las provincias Ricardo

 Spínola,Gabriella Percopo,1965 Las letras de la provincia en la República Rafael Enrique Acevedo Puello,2017-10-01 Este
 libro pertenece al campo de la historia de la educación Pero conocidas las tradicionales deficiencias que en Colombia muestra
 ese sector del análisis histórico habría que advertirle al lector que se trata de algo que va mucho más lejos y en otras
 direcciones de lo que habitualmente se nos ofrece bajo ese rubro Y ello porque el objeto analizado definido de una manera
 flexible como lo indica el propio subtítulo se encuentra en el cruce de varios elementos que no son sencillamente educativos
 Por una parte la presencia determinante de la política en una sociedad posrevolucionaria 1821 1886 y por otra el mundo de
 los letrados en sus distintas jerarquías y la cultura intelectual de una época analizada en una de sus mayores dimensiones es
 decir como cultura escolar observada en su manera particular de hacerse cultura de la sociedad a partir de los bancos
 escolares Estamos sin lugar a dudas frente a un buen libro de análisis histórico y es de esperar que en el futuro obras de
 similar naturaleza sigan apareciendo y sirvan para animar los debates sobre la historia de Colombia por fuera de cualquier
 espíritu de partido y sin las presiones desmedidas que la política del día impone al análisis histórico hoy en Colombia Renán
