Proyecto y construcción de una nación Tulio Halperín Donghi, 2007 **The Desertmakers** Javier Uriarte, 2019-10-29
This book studies how the rhetoric of travel introduces different conceptualizations of space and time in scenarios of war during the last decades of the 19th century in Argentina Brazil Paraguay and Uruguay By examining accounts of war and travel in the context of the consolidation of state apparatuses in these countries Uriarte underlines the essential role that war in connection to empire and capital has played in the Latin American process of modernization and state formation In this book the analysis of British and Latin American travel narratives proves particularly productive in reading the ways in which national spaces are reconfigured reimagined and reappropriated by the state apparatus War turns out to be a central instrument not just for making possible this logic of appropriation but also for bringing temporal notions such as modernization and progress to spaces that were described albeit problematically as being outside of history The book argues that wars waged against deserts as Patagonia the sert o Paraguay and the Uruguayan countryside were described and imagined were in fact means of generating empty spaces real voids that were the condition for new foundations The study of travel writing is an essential tool for understanding the transformations of space brought by war and for analyzing in detail the forms and connotations of movement in connection to violence Uriarte pays particular attention to the effects that witnessing war had on the traveler s identity and on the relation that is established with the oikos or point of departure of their own voyage Written at the intersection of literary analysis critical geography political science and history this book will be of interest to those studying Latin American literature Travel Writing and neocolonialism and Empire writing *Proyecto y construcción de una nación* Tulio Halperín Donghi, 1980 **The Generation of 1837: Attitudes, Policies, and Actions**

Toward Indian Populations of Argentina Colin Mustful, 2012-09-06 By the year 1880 the Indians of the vast plains region known as the Pampas in Argentina had been almost completely exterminated The defeat over the Indians by the Argentine government was a long process largely influenced by the works of a group of elite intellectuals called the Generation of 1837 This essay evaluates the literary works of the Generation of 1837 and links those works to the actions taken against the Pampas Indians throughout the nineteenth century The justification for the conquering and extinguishment of the Pampas Indians was influenced through the racist attitude of the Generation of 1837 disclosed in their literary works **Routledge**

Handbook of the Archaeology of Indigenous-Colonial Interaction in the Americas Lee M. Panich, Sara L. Gonzalez, 2021-07-19 The Routledge Handbook of the Archaeology of Indigenous Colonial Interaction in the Americas brings together scholars from across the hemisphere to examine how archaeology can highlight the myriad ways that Indigenous people have negotiated colonial systems from the fifteenth century through to today The contributions offer a comprehensive look at where the archaeology of colonialism has been and where it is heading Geographically diverse case studies highlight longstanding theoretical and methodological issues as well as emerging topics in the field The organization of chapters by

Moving Otherwise Victoria Fortuna, 2019 *Moving Otherwise* examines how contemporary dance practices in Buenos Aires Argentina enacted politics within climates of political and economic violence from the mid 1960s to the mid 2010s From the repression of military dictatorships to the precarity of economic crises contemporary dancers and audiences consistently responded to and reimagined the everyday choreographies that have accompanied Argentina's volatile political history The titular concept moving otherwise names how both concert dance and its off stage practice and consumption offer alternatives to and modes to critique the patterns of movement and bodily comportment that shape everyday life in contexts marked by violence Drawing on archival research based in institutional and private collections over fifty interviews with dancers and choreographers and the author's embodied experiences as a collaborator and performer with active groups the book analyzes how a wide range of practices moved otherwise including concert works community dance initiatives and the everyday labor that animates dance It demonstrates how these diverse practices represent resist and remember violence and engender new forms of social mobilization on and off the theatrical stage As the first book length critical study of Argentine contemporary dance it introduces a breadth of choreographers to an English speaking audience including Ana Kamien Susana Zimmermann Estela Maris Alejandro Cervera Renate Schottelius Susana Tambutti Silvia Hodgers and Silvia Vladimivsky It also considers previously undocumented aspects of Argentine dance history including crossings between contemporary dancers and 1970s leftist political militancy Argentine dance labor movements political protest and the prominence of tango themes in contemporary dance works that address the memory of political violence Contemporary dance the book demonstrates has a rich and diverse history of political engagement in Argentina

An American Teacher in Argentina Julyan G. Peard, 2016-07-27 *An American Teacher in Argentina*

tells the story of Mary E Gorman who in 1869 was the first North American woman to accept President Domingo F Sarmiento's invitation to set up normal schools in Argentina where she eventually settled. An ordinary historical actor whose life only sometimes enters the historical record, she moved along the fault lines of some of the greatest historical dramas and changes in nineteenth century US and Argentine history. She was a pioneering child on the US Indian frontier, she participated in the push for US women's education, she was a single woman traveler at a time when few women traveled alone, she was a player in an Argentine attempt to expand common school education and a beneficiary of the great primary products export boom in the second half of nineteenth century Argentina and thus well positioned to enjoy the country's Belle époque. The book is not a straightforward biographical narrative of a woman's life. It charts a life but more important it charts the evolving ideas in a life lived mostly among people pushing boundaries in pursuit of what they considered progress. What emerges is a quintessentially transnational life story that engages with themes of gender, education, religion, contact with indigenous peoples in both the US and Argentina, natural history and economic and political change in Argentina in the second half of the nineteenth century. Because the book tells a good story about one woman's rich and eventful life, it will also appeal to an audience beyond academe.
