Pseudo Gregorian Dialogues Volume 1

Patrick J. Geary

Pseudo Gregorian Dialogues Volume 1:

Saints and Sinners on Horseback Volume 1 Miriam A. Bibby, 2023-08-01 In *Saints and Sinners on Horseback Volume I* we meet saints sinners and their horses mules and donkeys on the road Whether saint sinner or simply all too human the medieval individual's connection to equids reflected relationships with other animals the rest of humanity and with the deity Knowledge of horses permeated hagiographies and homilies histories and biographies Equids were recruited in commentaries on morality and Christian duty In a world in which equids are not so readily encountered *Saints and Sinners on Horseback* informs the modern reader about the essential part played by horses in medieval life literature and belief

Heaven's Purge Isabel Moreira, 2010-11-17 The doctrine of purgatory the state after death in which Christians undergo punishment by God for unforgiven sins raises many questions What is purgatory like Who experiences it Does purgatory purify souls or punish them or both How painful is it *Heaven's Purge* explores the first posing of these questions in Christianity's early history from the first century to the eighth an era in which the notion that sinful Christians might improve their lot after death was contentious or even heretical Isabel Moreira discusses a wide range of influences at play in purgatory's early formation including ideas about punishment and correction in the Roman world slavery the value of medical purges at the shrines of saints and the authority of visions of the afterlife for informing Christians of the hereafter She also challenges the deeply ingrained supposition that belief in purgatory was a symptom of barbarized Christianity and assesses the extent to which Irish and Germanic views of society and the sources associated with them penitentials and legal tariffs played a role in purgatory's formation Special attention is given to the writings of the last patristic author of antiquity the Northumbrian monk Bede *Heaven's Purge* is the first study to focus on purgatory's history in late antiquity challenging the conclusions of recent scholarship through an examination of the texts communities and cultural ideas that informed purgatory's early history

The Benedictines in the Middle Ages James G. Clark, 2014-11-20 The men and women that followed the 6th century customs of Benedict of Nursia c 480 c 547 formed the most enduring influential numerous and widespread religious order of the Latin Middle Ages This text follows the Benedictine Order over 11 centuries from their early diaspora to the challenge of continental reformation

Digital Histories Mats Fridlund, Mila Oiva, Petri Paju, 2020-12-07 Historical scholarship is currently undergoing a digital turn All historians have experienced this change in one way or another by writing on word processors applying quantitative methods on digitalized source materials or using internet resources and digital tools *Digital Histories* showcases this emerging wave of digital history research It presents work by historians who on their own or through collaborations with e.g. information technology specialists have uncovered new empirical historical knowledge through digital and computational methods The topics of the volume range from the medieval period to the present day including various parts of Europe The chapters apply an exemplary array of methods such as digital metadata analysis machine learning network analysis topic modelling named entity recognition collocation analysis

critical search and text and data mining The volume argues that digital history is entering a mature phase digital history in action where its focus is shifting from the building of resources towards the making of new historical knowledge This also involves novel challenges that digital methods pose to historical research including awareness of the pitfalls and limitations of the digital tools and the necessity of new forms of digital source criticisms Through its combination of empirical conceptual and contextual studies Digital Histories is a timely and pioneering contribution taking stock of how digital research currently advances historical scholarship

The Military Orders Volume VII Nicholas Morton, 2019-08-05 The Military Orders essay collections arising from the quadrennial conferences held at Clerkenwell in London have come to represent an international point of reference for scholars This present volume brings together twenty nine papers given at the seventh iteration of this event The studies offered here cover regions as disparate as Prussia Iberia and the Eastern Mediterranean and chronologically span topics from the Twelfth to the Twentieth century They draw attention to little used textual and non textual sources advance challenging new methodologies and help to place these military religious institutions in a broader context

Authors of the Middle Ages, Volume IV, Nos 12-13 Patrick J. Geary, 2016-12-05 The anonymous author who has come to be known as Fredegair put together a collection of historical sources together with items of his own composing in the second half of the 7th century His work forms the most important source for the history of France in the period 594 to 642 It was added to in the mid 8th century in two continuations that provide vital evidence for their own time Gregory I 590 604 is often considered the first medieval pope and as fourth doctor of the church he is the first exponent of a truly medieval spirituality This book has three parts a biography concentrates on analyzing Gregory's actions as pope in the light of spiritual concerns expressed in his literary works a second section examines individual works and controversies and questions about them it also provides information about manuscripts and editions the final section is a select bibliography encompassing the many aspects of Gregorian scholarship

The First Commentary on Mark, 1998-01-08 This book is the first English translation of a text that Michael Cahill identifies as the first formal commentary on Mark's Gospel Thought to have been written by an early seventh century abbot the commentary was for almost 1000 years attributed to St Jerome and as such exercised incalculable influence on subsequent commentary St Thomas Aquinas drew on it freely in his *Catena Aurea* for example as did the highly influential Counter Reformation commentary of Cornelius a Lapide Renaissance scholarship demoted the work to the pseudepigrapha of Jerome and it clearly lost status as a result However the contemporary recovery of interest in the commentary tradition ensures a welcome for the publication of this translation Irrespective of authorship the text is important in the history of biblical interpretation it is the first commentary on Mark and has had wide influence in the Latin west It is written in the allegorical style and attempts to provide an application of the gospel text to the practice of Christian discipleship It is characterized by the use of other biblical texts and through the use of bold face and italics in the translation the reader is able to see the extent of quotation paraphrase and allusion The extensive notes are designed to

provide information on source material and on the author's technique. As the first Markan commentary, this text holds a unique place in the history of biblical exegesis. This translation will make it available to scholars who do not read Latin and will serve as a useful introduction to early and medieval Bible commentary both in format and content. **In and Of the Mediterranean** Michelle M. Hamilton, Nuria Silleras-Fernandez, 2021-04-30 The Iberian Peninsula has always been an integral part of the Mediterranean world from the age of Tartessos and the Phoenicians to our own era and the Union for the Mediterranean. The cutting edge essays in this volume examine what it means for medieval and early modern Iberia and its people to be considered as part of the Mediterranean. The Virgin Mary in Byzantium, c.400–1000 Mary B. Cunningham, 2022-09-08 Examines the role of the Virgin Mary in Byzantine society focusing on religious texts that promoted her cult. Aelfric and the Cult of Saints in Late Anglo-Saxon England Mechthild Gretsch, 2006-01-19 The cult of saints was one of the most important aspects of life in the Middle Ages and it often formed the nucleus of developing group identities in a town, a province or a country. The literature of Anglo-Saxon England is unique among contemporary European literatures in that it features a vast amount of saints' Lives in the vernacular. Of these Lives, Aelfric is the most important author and his saints' Lives have never previously been explored in their contemporary setting. In this study, Gretsch analyses Aelfric's Lives of five important saints in the light of their cults in Anglo-Saxon England. This gives the reader fascinating glimpses of Aelfric at work: he adapts the cults and rewrites the received Latin hagiography of the five saints with the result that each of their English Lives conveys a distinct message to the contemporary political elite and to a lay audience at large.

Unveiling the Magic of Words: A Review of "**Pseudo Gregorian Dialogues Volume 1**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring.
